# **WEST LONDON LADY** BURNED TO DEATH

Terrible End of Mrs. Margaret Tuffield Aged 89. of 23 Walnut St.

#### LIT FIRE WITH KEROSENE

Explosion Followed Which Enveloped the Woman-Mr. Ed Evans Ran to the Rescue, But Could Not Save Her Life.

Mrs. Margaret Tuffield, widow of the late Samuel Tuffield, a lady of 89 resided alone little frame cottage at 23 Walnut street. West London, was fatally burned while lighting the fire kerosene yesterday morning. She was removed to Victoria Hospital in the police ambulance, and died this morn-

ing at 6:45 o'clock. The fire was discovered by Mr. Ed Evans, of 66 Walnut street, a Grand Trunk switchman, who was returning

Assisted by Mr. John Orr, of 66 Wharncliffe road, he extinguished the flames, but the aged lady's condition was considered hopeless from the time she was removed from her home. Lived Alone.

She had a number of children, but preferred to live alone. One son resides in the city, James Tuffield, of Hill street, who drives a postoffice wagon. Her husband predeceased her some years ago.

Mr. Evans was riding his bicycle along Walnut street shortly after 8 o'clock, when he noticed smoke issuing from the front door. He ran into the cottage, but could see nothing

through the dense smoke.

At the back door, however, Mrs Tuffield was lying face down upon the ground, wrapped in flames. Her clothing had been burned almost entirely off, and her flesh was burned black and blistered. Evans extinguished the flames, and called the police ambulance, which reached the scene in remarkably fast time.

Died This Morning. Dr. F. P. Drake took charge of the patient at the hospital, and although she was reported to be resting somewhat easier last evening, a lady of her advanced years was unable to stand the terrible ordeal, and she died this morning.

fire in the house, which had ignited the floor, was easily extinguished without the assistance of the

# LETTER FROM CRIPPEN WITH HIS SIGNATURE

Mr. M. Kershow, of 53 Mount Pleasant avenue, has a letter from Dr. H. H. Crippen, the physician who has been found guilty of murder, and sentenced to be hanged. The letter is dated Aug. 12, 1910, and was written in all probability by Ethel Leneve, a week before the doctor and his typist ran away to Quebec. Below will be found fac-similes of the doctor's letterhead and his signature, together with the text of his letter:

Dear Sir,—I have received the analytical form, and after careful examination of the symptoms and particular conditions it describes, I find your son is suffering from Otitis Media Catarrhalis, that is to say, catarrhal deafness, caused by catarrh affecting the membrane which lines the middle ear, and covers the small bones contained in this cavity.

In order that you may clearly understand the cause and progressive nature the trouble, I will as briefly and simply as possible explain what has occurred. Firstly—The drumhead has become thickened in such a manner as to prevent s responding naturally to the sound vibrations which reach it through the outer

canal.
Secondly—Inflammation and thickening of the membrane which covers the

I shall be very pleased at any time during the course of the treatment to receive regular reports of your son's progress, so that I may be in a position to give you all the advice necessary. Yours faithfully,

# WHAT ABOUT DARK AND VAN CLEVE?

Some Tension Over the Defining of the Duties of the Two Engineers.

## MR. DARK NOW OBJECTS

Mr. Van Cleve Is Said Not To Be an Electrical Engineer and Certain Work May Be Given to Mr. Dark.

There are some heart burnings situation that is becoming intolerable to appear on the same platform as Col. at the city hall. It concerns the combining of the

boards, and particularly the engineers. At the last meeting of the water ommissioners, the matter was brought up under the question of defining the duties of Manager Dark and Head Engineer Van Cieve. The council and the water commissioners cannot agree on the duties of No revision had

dismiss them when necessary. That is the commissioners, and something of that nature may be done within the next

week or two. Daily Conferences. Conferences are being held daily, and the question discussed from every

There is not any too much harmony between Mr. Van Cleve and Mr. Dark, it is declared. Perhaps it would be better to state that there is harmony along certain lines. It is understood that Mr. Van Cleve

desirous of cutting away from the electrical end, and allowing Mr. Dark to have full control of that. It is also and it will undoubtedly be presented said that Mr. Dark is quite willing when the council assembles. that the division should take place, That would leave him in full control of the electrical situation, and Mr. Van Cleve would have complete charge of the other engineering matters of the city.

Things Have Changed. The water commissioners could not see things this way at one time, but tion. are now considering it, and from what

to be adopted. work now in hand without any trouble. this will be done. He further stated that when it was completed there was little for an engineer to do, as the business would be don has many friends in the council. easily handled, and an assistant engineer under himself would be sufficient to do the work. He thought it would not be fair to him to make him take instructions from a superior of-

ficer. It was to that he objected. Mr. Van Cleve was quite willing to allow Mr. Dark to do this work. While more than a year, in which it is he had spent fourteen years in elecclaimed several thousand dollars were trical matters, he was not an electrilost trying to revive the boxing games | cal engineer, and as a result he was not fully qualified to take complete charge of this work. A Nice Point.

The point that made the commiswere committed to half, or at least a rash act was discovered, but medical considerable proportion, of the pay of the head engineer, and they did not Canada only a short time. Despondthink it fair to have them bear that ency over his inability to secure work expense when the work could be done by their own staff. So there the situation stands at the present time. The commissioners are

# Secondly—Inflammation and thickening of the membrane which covers the chain of small bones stretching between the drumhead and the inner ear, thus preventing the natural movements of the joints which unite them. These joints should be perfectly free and loose, so as to facilitate the transmission of the vibrations of the drumhead to the nerve of hearing. Thirdly—A generally congested condition which weakens the delicate muscles and nerves of the middle ear, thus causing deafness through the irregular action of the drumhead and chain of small bones. It is evident, therefore, that the first aim must be the total eradication of those special conditions which are the direct cause of the allment. This can be thoroughly and effectually accomplished by means of my appliances and accessories, which are undoubtedly the most effective ever introduced for the alleviation and cure of deafness and noises in the head. In addition, I should send a supply of remedies carefully chosen for the specific purpose of eliminating and curing the special conditions described in the analytical form. The cost of the entire outfit, including appliances, accessories and remedies would be six dollars, free by post to your address. As you will doubtless wish

The cost of the entire outfit, including appliances, accessories and remedies would be six dollars, free by post to your address. As you will doubtless wish your son to adopt my treatment with the least possible delay, I am having the necessary remedies prepared so that they may be sent off immediately post free to your address on recceipt of remittance.

The whole of the treatment is perfectly simple, and can be used and applied with entire ease, without in the slightest defree interfering with any ordinary occupations. No appliances are worn by the patient either by night or day, and the remedies are for external use only.

Since writing you I have received a most excellent report from Mr. J. Leyden, Cleontia, B.N.S., Ballagladerin, County Mayo, who writes me as follows:

"I am very proud to be able to state that my pupil, James Phillips, is perfectly cured. His hearing is now as acute as any person's. I may say that your treatment is simply marvellous, and confident that if it is carefully followed it is certain of success."

Judging the case from its history and symptoms, and having regard to the fact that Master Phillips suffered in a similar manner to your son, I have no hesitation in strongly recommending my treatment, feeling confident that the trouble will soon disappear, and that a complete and permanent cure will be established.
