## **Psoriasis** All Over Body

**Voctors Said Incurable, But Now** There is No Sign of Disease, Thanks to Dr. Chase's Ointment,

Psoriasis is one of the most dreaded of itching skin diseases. It is a sort of chronic eczema. The itching it causes s almost beyond human endurance, and doctors are accustomed to give it up as incurable.

But here is a case that was given up and pronounced incurable. The result proves that Dr. Chase's Ointment almost works miracles in curing the worst form of itching skin disease imaginable.

Mrs. Nettie Massey, Consecon, Ont., writes:—"For five years I suffered with what three doctors called psoriasis. They could not help me, and one of them told me if anyone offered to guarantee a cure for \$50.00 to keep my money, as I could not be cured. The disease spread all over me, even on my face and head, and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment, and I am glad to say I am entirely cured, not a sign of a sore to be seen. I can hardly praise this ointment

The soothing, healing influence of Dr. Chase's Ointment is truly wonderful. Eczema, salt rheum, barber's itch, ringworm and scores of such torturing ailments are relieved at once and as certainly cured if the Ointment is used persistently. Mothers find Dr. Chase's Ointment invaluable in preventing and curing the skin troubles of bables, such as chafing, irritations

London, Oct. 9.—More than 10,000 Mongols have been slain in Eastern Mongolia by Yuan Shi Kai's troops, according to a St. Petersburg dispatch to the Times. The victorious troops are now advancing in a circle on Urga. The object of the outrages perpetrated is to stamp out the inclination recently displayed by the people of Eastern Mongolia to join Outer Mongolia.

"Bereft of Russian support," adds the dispatch, "the Government at Urga is now disposed to receive an emissary from Pekin.
