C. N. Huehn Elected Reeve by 32 Majority

THREE NEW RATEPAYERS SEEKING ELECTION WERE SUCCESSFUL—MONEY BY-LAW CARRIES

Municipal elections were held in town yesterday and while there was very little excitement there were a few surprises. The greatest surprise of the day was the rejection of Councilors Sterling and O'Donnell two faithful and well tried councillors who were both defeated. Of the other old councillors Messrs. Sanderson, Conrad and Kutt they all received good support. Ald. Sanderson heading the poll, Mr. Henry Liphardt a new one in the field made a good run and was only five votes behind Mr. Sanderson. The contest for Reeve was expected to be close both gentlemen being good public servants. The successful candidate Mr. C. N. Huehn has filled the Deputy chair with entire satisfaction as was attested by the large vote he received. Mr. Kaufman the defeated candidate took his defeat good naturedly and with good grace.

The contest for School Trustee in the South Ward between the sitting member Mr. Carl Soellner and Mr. J. Bruegeman was extremely close the latter winning out by 6 votes.

The By-law to raise \$40,000 for the Hydro Electric Power Station carried by a majority of 69 votes.

The plebiscite as to whether the Council should remunerate the members of the Water and Light Commission was lost the majority against being 136.

The following is how the vote stood—

To the Electors of the Town of Waterloo.

I hereby desire to express my thanks to you for the honor you gave in electing me as Reeve for our town for 1911. I have had the honor to serve you the last four years, two years as Alderman and two years as Deputy Reeve and can assure you that I will look after the affairs of our town the same in the future as I have done in the past both in the town and county council.

Wishing you all a Happy and Prosperous New Year.

Yours Respectfully,

C. N. Huehn.

MR. J. DUNN APPOINTED CUSTOMS OFFICER.

It will indeed be gratifying to our citizens to learn that at last Waterloo has been made a customs port. For sometime past efforts have been made to establish a customs port in town as the continued growth of the business demanded it. Mr. J. C. Haught received word from Ottawa on Saturday conveying the information that Waterloo would look after its own customs commencing Jan. 1st, 1911. This means that all the customs goods which formerly have been shipped to Berlin will hereafter be shipped direct to Waterloo. This will be a great convenience to the business public.

Mr. J. Dunn who has charge of the Waterloo end for some time has been appointed Customs Officer for the port of Waterloo and the above gentleman had a busy day of it yesterday receiving the congratulations from his many friends in town. Mr. Dunn has always been obliging and courteous in all his dealings with Waterloo citizens and his promotion is a well deserved one.

The Acadian Club's fine new club-house above Recreation Hall will be opened tonight when a first class entertainment will be given. Mr. Will J. White comedian of Toronto has been engaged and along with other first class talent the program promises to be a No. 1. The young men who compose this club have been striving to have one of the most up-to-date club rooms in Western Ontario and a visit to their present quarters will convince everyone that their efforts have not been wasted. Here there is every convenience for the social public and the rooms promise to be the most popular in town.

Special Services were held in St. John's Lutheran Church on New Year's Day. In the morning the pastor Rev.

Mr. George Wegman, Managing Director of the Mutual Life of Canada, is a business visitor in Montreal and Quebec.

Mrs. Grant and Miss Mary Grant of Guelph were New Year's visitors at the home of Mr. J. M. Muir, Mary St.

Mr. Jacob Huggin of New Hamburg was in town yesterday renewing old acquaintances.

Mr. and Mrs. Harry Beck of Ayr were guests of Mr. and Mrs. Thos. Therman over New Year's.

Mr. Geo. Burt of Toronto was a visitor in town yesterday.

The death took place on Saturday morning at the Berlin and Waterloo Hospital, of a popular young man in the person of Mr. Christ Becker at the age of 31 years. The deceased was a member of St. John's Lutheran church and Sunday School and his demise will be regretted by a large circle of friends. The remains were taken to the residence of Mr. Conrad Fenner where after a short service they were conveyed to the home of his parents in North Easthope from whence the funeral will be held on Wednesday afternoon at 1 o'clock.

Mr. and Mrs. Haedke and Miss Smith entertained some of their Twin-City friends last evening at their beautiful home, Dora Villa. The music was given by two clever young musicians at the piano, Mr. Charles Edward Haedke, son of Mr. Haedke and Miss Elsa Pohlmann from the ladies college, Grove City, Penn. The party left with the best of wishes for all.

Coach Roof Blown Off.

Topeka, Kan., Jan. 3.—The blizzard sweeping over Kansas gave passengers on Rock Island Railroad train No. 24, due here early yesterday morning, an unusual experience. While running at top speed the top of a passenger coach was blown off, giving the passengers a chill, but no one was injured. The damaged coach was abandoned, and the train reached Topeka two hours late.

Governor Dix Sworn In.

Albany, N.Y., Jan. 3.—John Alden Dix, a Democrat, was formally inaugurated governor of New York State at noon yesterday. He succeeds Governor Horace White, who became chief executive last October when Governor E. E. Hughes resigned to become an associate justice of the U. S. Supreme Court.

A Plucky Motorman.

Fort William, Dec. 30.—Seven passengers on car No. 10 from the Montreal street extension left this morning yesterday morning about seven. At the G.T.P. crossing over the Kaminitiquia Power bridge, they for some unexplained reason, stopped. Motorman G. Maycock, taking a lantern, tried to stop the oncoming train. Seeing that no attention was being given to his signals, he rushed back to the car and got the seven passengers off just in time before the pilot struck the car, throwing it from the tracks.

The engineer of the train said he could not see the signals, owing to steam, and was unaware that anything was wrong until he saw the headlight of the engine reflected in the car windows, when he applied the brakes and stopped his train in about one hundred yards past the crossing where the car was hit.

E. Bockelmann preached an impressive sermon in German and at the close of the regular service there was communion. In the evening the service was in English. The pastor took for his text the words, "Let Jesus be your motto for 1911. His text was divided up into three parts viz: "In the Home and Church," "In Sorrow and Joy," and "In Life and Death." His words were full of cheer and helpfulness and he extolled all his hearers to follow Jesus as their motto. In speaking on the second part of his text, "Sorrow and Joy," he said that this day marked the first suffering of Jesus. Eight days after his birth he endured his first pain and while we must have the dark side as well as the bright side of life, if we only keep the name of Jesus before us our sorrows will soon vanish. He is the healer of all our troubles and a friend in time of need. At the close of his sermon the pastor addressed a few kind words in German on the death of Christ Bocker a promising young member of the Church and Sunday School whose death took place on Saturday.

"New Years Day passed off very quietly in town. The weather was anything but favorable, the sidewalks being almost impassable from the ice and slush. There was skating in many ways. The elections did not create much excitement. A great many were disappointed on account of their being no dance, as usual, in the town hall and quite a number from Galt had their trip for nothing. Those who remained in town preferred to remain in the house rather than take chances on the slippery condition of the walks.

The Annual Foreign Meeting of the Home and Foreign Missionary Auxiliaries will be held in the school room (Wednesday) evening at 8 o'clock. An excellent program in the interests of the work has been prepared, and all those interested in the work are very kindly invited to be present.

Mr. George Wegman, Managing Director of the Mutual Life of Canada, is a business visitor in Montreal and Quebec.

Shareholder's Suicides.

Woodstock, Dec. 28.—"I will make my share," do the shares, said Alfred Baker, a wealthy and prominent farmer of Lakeside, as he got up Monday from his Christmas dinner.

There had been a family reunion, with speeches and distribution of gifts. Baker went out to the barn, and a short time later his dead body was found by his young son, hanging from a beam in the barn.

"Baker was a shareholder in the defunct Farmers' Bank, but his friends say he wasn't worrying very much about his loss. He gave no intimation of what he intended to do, and there is no insanity in his family.

DUTIES ARE GROWING

Provincial Police System is a Great Success.

Superintendent Rogers Reports That Effectiveness of His Force is Increasing and Out of 1,377 Cases Convictions were Secured in 1,069, While 200 Persons Were Discharged, and 107 Cases No Arrests Were Made.

Toronto, Dec. 31.—Since the organization of the provincial police force, ten months ago, the cases in which the force has been called upon to act have numbered 1,377, according to the annual report of Supt. J. E. Rogers, issued yesterday. In 1,069 instances convictions were secured, 200 persons were discharged, 45 cases were withdrawn, 44 were awaiting trial at the end of the financial year, while in 17 cases the alleged offenders had not been arrested.

The report comments favorably upon the new system established, under which all cases handled now find a place in the official records of the Department, and considerable overlapping in the work of the officers has been done away with.

Dealing with specific crimes, the report points out that the provincial police were called upon to act in sixteen murder cases, of which five resulted in convictions, three in acquittals, two are awaiting trial, and in six instances no arrest has been made.

Seven cases of crimes of violence, practically all being committed by foreigners, are reported, and commenting upon them, the report says: "It was really my lucky chance that the roll of murders was not added to."

In view of the fact that the penalty inflicted in two of these cases was a fine, the report says: "Having regard to the importance of the protection of the police, and for the further fact that the offenders were drawn from an element whose regard for human life is not so high as that demanded by Canadians, and also bearing in mind that 15 foreigners were convicted for carrying concealed weapons, it can be too strongly urged that offences of this character should be punished by the imposition of severe terms of imprisonment. It is also desirable that the sale of firearms, and as far as possible, their use, should be strictly governed. The indiscriminate marketing of cheap firearms is a menace to the safety of the public, and their unlicensed sale should be prohibited."

Dealing with the deportation of undesirable, the report chronicles the fact that 547 have been arrested at frontier points, and being aliens, were turned over to the Federal authorities and deported. "Ontario," it says, "has ceased to be attractive to a very large number of persons, and offers a marked contrast to at least one other province, where crimes committed by the hobo and Yegg have been prevalent."

In enforcing the Liquor License Act, the provincial police have acted in 257 cases, with the result that 219 persons were convicted, 36 discharged, five cases were withdrawn and three are awaiting trial. In addition to sentences of imprisonment, fines aggregating \$12,934, were imposed. During the ten months the force has seized 5,915 bottles of whisky, 108 gallons of whisky, 216 barrels of barrels of whisky, one barrel of stout, two gallons of gin, 224 bottles of wine, and 66 gallons of high wines.

Enforcement of the fish and game laws resulted in the prosecution of 139 persons, of whom 120 were convicted, ten discharged, six cases were withdrawn and three are awaiting trial. The fines amounted to \$12,912.

The fines imposed in cases in which members of the force acted, amounted to \$43,775, and constables' fees, which for the first time were paid in full, amounted to \$2,755.

Constables' traveling expenses amounted to \$5,063. Salaries amounted to \$37,236, uniforms \$2,616, contingencies \$1,533.

Reply to Mr. Russell.

Winnipeg, Dec. 31.—R. Mackenzie, secretary of the Manitoba Grain Producers' Association, replied yesterday to the criticisms of F. A. Russell before the Canadian Club of Toronto, regarding the representative character of the big delegation which recently interviewed Premier Laurier. As an automobile manufacturer, protected by a 35 per cent. tariff, Mackenzie says Russell is taking \$350 out of the farmer for every thousand dollars the latter spends in his line, and as long as such conditions obtain, it is little use for the manufacturer trying to "take the farmer by the arm and dispel his erroneous impression that he is paying tribute to any class."

Merely a Rumor.

London, Dec. 31.—The Portuguese legation issued an official communication last evening, in which it is asserted that the rumor of a conspiracy in Lisbon against the Government was based solely upon the arrest at the Portuguese capital of a man who had spread a similar rumor throughout Portugal.

New Dean of Westminster.

London, Dec. 31.—The Right Rev. Herbert Edward Ryle, Bishop of Winchester, has resigned the bishopric, which is worth \$32,500 yearly, in consequence of ill health, and has been appointed Dean of Westminster, the income of which is \$10,000 yearly.

Shot Her Husband.

Boston, Dec. 31.—Mrs. Lillian M. Green shot her husband, Joseph M. Green, junior, early yesterday morning. The woman told the first policeman who appeared that she had shot her husband because he left her two months ago for another woman.

Died Suddenly.

Whitby, Dec. 31.—James Bellamy, of Whitby, died suddenly while killing pigs at the farm of Allan Cameron. He was 70 years old. Seven weeks ago Thursday his son, aged 21, was found dead in bed.

WHAT A C.P.R. FIREMAN OWES TO ZAM-BUK.

George H. Duffus of Robertson St., Fort William, a C. P. R. fireman, says: "The water gauge of my locomotive burst and scalded the whole left side of my face terribly. I had a box of Zam-Buk in my pocket, which I was using for a sore on my lip, and when I had recovered from the first shock of the accident, I produced the balm and had it applied freely to the scalded parts. I was suffering acute agony, but within a wonderfully short time Zam-Buk gave me ease. I was able to continue my journey and upon reaching home, I obtained more Zam-Buk and continued the treatment. Zam-Buk acted wonderfully well, and in a few days had the wound nicely healing. I don't know anything so fine as Zam-Buk as a healer of burns, scalds, cuts, and similar injuries, which workers are so liable to, and in my opinion, a box of Zam-Buk should be kept handy in every worker's home."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, blood-poison, varicose sores, piles, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., Toronto, upon receipt of price.

SCOTLAND YARD IS THE GREATEST OF CRIMINAL DETECTING AGENCIES.

Scotland Yard is the greatest crime-detecting organization in existence, declares the Brooklyn Eagle. Any person versed in detective work will admit as much. No country has a more effective bureau. The New York central office is not its equal—certainly not its superior, taken as a whole. Its men have many characteristics which seem unfitting—even absurd—from an American viewpoint, but the things they accomplish are great.

In a word, prevention is the key to much of the work of Scotland Yard. That wonderful police machine bends all its energies to prevent crime, so that it will not have to go to the effort of hunting down the criminal after the wrong has been committed.

Scotland Yard has a number of stool-pigeons or informants. None of these are ever known as being in the employ of "the Yard," but they go their accustomed way, mingling with their own sort, as they murderers, thieves, anarchists, or what not, and from time to time they give the police hints of what is going to happen and the police see to it that the plot is frustrated.

Meetings are held in Hyde Park, and Socialists make violent speeches. There are always a few agents of Scotland Yard in the audience. They are not those tall, square shouldered, square-jawed fellows, such as a sophisticated New Yorker can pick out of almost any street, but they are "plain clothes men." They look like all the others. Perhaps one of them is that very hot-head who is going to get up presently and make a speech, suggesting that the king be hanged and that the parliament buildings be burned to the ground. He is the fellow who, if a plot be ever formed to put his advice into effect, will inform Superintendent Forest secretly in time to have the ringleaders clapped into irons.

There are hundreds, indeed, probably thousands, of these informants, their names never appearing on any payroll. The existence of this great staff of stool-pigeons is one important difference between the London and the New York police systems.

Mayor Gaynor, early in his administration, made a remark which all people did not understand. He said that the need of the Police Department was not for tall, straight men, but for dwarfs and hunchbacks. The idea seemed grotesque; but a person has only to draw a mental picture of a gang of East Side toughs planning an assault and then imagine the effect if a tall, broad-shouldered man with a heavy black mustache should sit down with them in the saloon where their plot was being hatched, and try to overhear their scheme by pretending he was one of their sort.

If Scotland Yard were operating in New York it would have a half dozen harkens on the Bowery; it would have a dozen foreign-born informants in every quarter; it would pay some body in every circle of criminals or putative criminals, to continue his associations with those criminals, take part in their crimes if necessary but keep their confidence—and betray it.

Scotland Yard is under the home office of Great Britain, and the Crown pays its informants liberally. So it comes to pass that most of the crimes in England never take place at all. They are headed off, and the criminal seldom knows how the police found out what was afoot.

The Scotland Yard man often goes about in a top hat and excellent clothes in order to look like the average Londoners with whom he must mingle.

He is probably, on the whole rather better dressed and of better appearance than the New York detective. He takes his work very seriously, almost solemnly.

The practice of the police in regard to mysteries has been radically different on the two sides of the ocean. Scotland Yard has always maintained the most stolid silence on cases in which it was concerned, giving out details only when the case had been solved with finality, to the glory of "the Yard."

HAPPY RESULTS OBTAINED.

By the Use of the New Scalp Antiseptic.

It wouldn't take long to number the hairs in the heads of some people, the reason being they haven't many to number. In most instances, however, the fault is their own. A germ at the root soon plays havoc with the most luxuriant growth and causes it to fade and fall out. A remedy for this has recently been discovered, called Newb's Herpicide, that acts by destroying the germ that does the damage, besides removing all impurities from the scalp. In addition it permits new life and vigor to enter the scalp, and happy results are sure to be obtained from its use. Try it. Sold by leading druggists.
