Seattle, Washington, Feb. 4.—For the
purpose of sending an expedition from
Seattle, Washington, to China, with relief supplies for the famine sufferers in
that country, the Commercial Club, of
Seattle, today asked the war departtreaty became public they exchanged telegrams, agreed upon New York as a neeting place and left their homes without delay to head off any possible mpaign that might be started for the

bill's enactment.

"We are not opposed to a general reduction of the tariff." Mr. Atkeeon said, "but we are opposed to any arrangement which will make fish of one industry and fiesh of shother. Revise the tariff—yes, but do it all at once, and not by a reciprocity agreement with a country which exports agricultural

"Remove the tariff on steel and iron General Piet A. Cronje, the noted and manufactured articles along with but that paper was put on the free list ment of food supplies to the famine farm products and we won't object. But by the treaty without any reference to sufferers in China will leave Seattle on the we do not think it fair to compel the what the tariff board had found out.

Tuesday. One thousand barrels of western army of the South African farmers to compete with foreign prosome reverses, the British govern- derive the benefit of a high protective

tariff. "Acting along these lines, we have decided to oppose the enactment of the bill. The committee issued a statement this afternoon which will be sent to every one of the 7500 granges in the organization. These have a membership of from fifty to one thousand farmers.

"We shall ask every member to write his congressman urging him to vote against the bill. I think we can defeat t in this manner, but we are not going to take any chances and the committee has decided to go to Washington and work for that end."

In its statement the committee says that acting in response to thousands of letters and telegrams urging it to protect the farmers' interest, the follow-

"The undersigned, representing the principal organization of farmers in the United States, earnestly protest against the enactment of the Canadian recipro city bill now pending in congress for the following reasons:

"1. The bill provides for the admision free of duty of all Canadian farm products. Since Canada is the only coun try from which any considerable quantity of these products can under any circumstances be imported, this would esult in practically free trade in every-

thing the farmer produces. "2. While putting farm products on the free list, the reciprocity bill makes no material reduction in the high tariff rates on all the manufactured articles the farmer buys, and therefore gives no relief from the heavy burden of tax-

ation imposed by these duties. "3. The theory on which our protective olicy has always been defended, the farmers, however, receive much less protection than the manufacturers, for

"4. The enactment of the Canadian eciprocity bill would still further discriminate against the farmers by abolishing the comparatively slight protection now given them, while leaving the high protective duties on manufactures ractically untouched.

"5. The Canadian farmers, by reason of their lower general tariff and their preferential trade arrangements, can buy manufactured goods at lower prices than those prevailing in this country. The prices of farm lands in Canada are also much lower than in the United States. The conditions give the Canadian farmers an advantage over us and the free admission of their products will submit us to unfair competition.

"6. We hold that the farmers should ceive exactly the same measure of protection as is given the manufacturers and that there must be no re southward after having crossed the Arizona line near this city. Homes of Mexicans residing in Douglas are crowded with refugees who fled from dexico to avoid imprisonment or impressment into the federal service, and conference claimants, which met here. Of this, \$1,000,000 will be for distribution next year. The other there is the first products, and the federal service, and the federal service is a federal service, and the federal service is a federal service.

"7. To show that this reciprocity measure is not an honest, stort to reduce the cost of living in the interest of the consumer, it is sufficient to point out that while wheet is on the free list, flour is taxed fifty cents per barrel, and that while cattle, sheep and hogs are free, meats, both fresh and cured, are taxed I 1-4 cents per pound for the benefit of the meat trust.

WASHINGTON, Feb. 4.-That th Canadian reciprocity agreement must stand or fall as a whole in the House committee on Ways and Means was made clear today by Chairman Payne, at hearings that occupied the antire

schedule, and another in reference to a possible amendment of the item making DEAD REMAIN barley free, were met with the unequiv-ocal statement that the committee would sanction no change of any item. Notwithstanding this, the pressure brought to bear on the committee has resulted in the granting of hearings to all persons who shall appear in Washington prior to five o'clock next Thurs-

day afternoon. The date was fixed to allow Pacific coast lumbermen to reach Washington

and make statements.

Farmers, lumbermen, barley raisers and manufacturers of barley malt were given hearings today. The spirit of the committee was such, however, that the witnesses had difficulty in making s serious impression in presenting their arguments.

The barley and malt interests of Wis onsin, Minnesota, Illinois, Nebraska and Iowa were represented by a large delegation. Bruno E. Fink of Milwaukee presented their protests against the abolition of the thirty cent duty on barley, and said it would mean the wiping out of the northwestern malting and barley-raising industry.

Mr. Fink explained that climatic con

ditions were peculiarly necessary in was up two years ago to secure free ment for the use of army transports. barley to aid the malting interests of They were informed that the war de-New York.
