HOW SOAP WORKS.

It Cleans Because it Emulsifies the Oil That Holds the Dirt.

Why does soap take out the dirt? The answer to this question has been argued many times by chemists, and as cleanliness is necessary and enormous quantities of soap have to be used it is well that we should know how soap does its work.

It is fat or oil that especially makes things dirty. If only we can melt or get rid of the oil on hands or clothes we soon can make them clean, and the real use of soap is that it disposes of oil. It does this in at least two ways. Most soaps have in them a great deal of alkali. This alkali dissolves the oil. But soap takes the dirt from things in another way, as we know when we use soaps that have no alkali in them at all. It has the power of breaking up oil into a number of tiny little drops, with all the dirt that the oil has collected.

A collection of tiny drops of oil held in some other fluid is called an emulsion. Water alone will not form an emulsion of any oil, because oil and water will not mix. That is the reason why we cannot get clean with water alone. But when water has soap dissolved in it it is able to make an emulsion of the oil on anything we are washing and so make it clean.—Exchange.

LIVE AND KEEP ON LEARNING.

Look Ahead to Doing Your Best Work After You Are Sixty.

"If you die before you are eighty-five years old you come to an untimely end." Earl Barnes of New York, an exponent of longevity and defier of Dr. Osler, made a large audience sit up and take notice when he made this statement recently.

"Thirty-five per cent of the world's greatest work has been done in the age decade between sixty and seventy years, 21 per cent between seventy and eighty, and 6 per cent above eighty."

Mr. Barnes cited a score of political, scientific, philosophical, commercial and military leaders who are just beginning their work at sixty years.

"The man who does one thing continuously is old at forty," he said. "But get out and study, travel and broaden your horizon. If you are a woman, don't put your broom in the same corner every day. Hide it. Break up your routine or you are lost."

"The farmer at fifty years turns the farm over to the boys, moves to the city and spends the remainder of his life watching the trains arrive in waiting his life. He might as well be dead, and he soon is."

"There is no reason why you can't be learning every year of your life."

A Safe Pill for Sufferers.—There are pills that violently purge and fill the stomach and intestines with pain. Farmelee's Vegetable Pills are mild and effective. They are purely vegetable, no mineral purgative entering into their composition and their effects are soothing and beneficial. Try them and be convinced. Thousands can attest their great curative quantities because thousands owe their health and strength to the timely use of this most excellent medicine.

Argentina's Capital.

Buenos Aires is to Argentina what Paris is to France—the center of the national industries, thought and culture. Commerce, journalism, politics, the drama, music, literature, art and social life are intensely focused there. The brilliant activity of the greatest city of the southern hemisphere (the fourth city of the Americas after New York, Chicago and Philadelphia) draws the Argentines to it as a flame attracts moths, and one-fifth of the population of the country struggles there in feverish competition for pleasure and gain. No traveler to the southern countries but stops as long as he may in Buenos Aires to enjoy or to study the most cosmopolitan, yet most Latinized, of the Spanish American cities. The metropolis is at once the heart and the brain of the country.—National Geographic Magazine.

City is Self Conscious.

The city life is conscious of itself, the small town life is not, asserts Seymour Deeming in the Atlantic. An array of fairly competent minds is busy interpreting the life of the city to itself, and this so thoroughly that not a teamster or ribbon counter clerk of the urban lot but has his spokesman in the public prints and partakes somewhere of the typical. And the sales person who has once seen sales people elevated to the rank of printed or acted comedy or tragedy is conscious of a new sense of personal consequence which years of obscurity are powerless wholly to erase. To have had one's social setting touched by the wand of art is to have shaken hands with a celebrity; life is never afterward quite the same drab commonplace.

The most obstinate corns and warts fail to resist Holloway's Corn Cure. Try it.

For Hang-on Coughs, Colds

For the coughs that run into consumption, a remedy is needed that will work on the blood, make it pure, rich and wholesome, build up the wasting tissues and put the body into condition for a fight against this dread disease.

Dr. Pierce's Golden Medical Discovery fights in the right way. Its first action is to put the stomach, bowels, liver and kidneys in good working order; that makes digestion good and assimilation quick and thoro; it makes sound, healthy flesh. That's half the battle.

TAKE THIS CASE FOR INSTANCE.

St. Catharines, Ont.—"I owe forever a great debt of gratitude to an army officer and a particular friend of mine for recommending Dr. Pierce's medicine, as well as to Dr. Pierce for discovering and preparing such wonderful medicines. I had been a great sufferer for twelve years with bronchitis, which I contracted while doing service in India. I have been engaged in nearly every country in the world and from having to sleep out in all kinds of weather the bronchitis became chronic and I was afraid of consumption at times. The doctors gave me no hope but that it would eventually mean consumption, I was so bad. I had tried every known remedy and physicians in foreign countries but got no relief. After returning home a friend advised me strongly to try 'Golden Medical Discovery.' I did so and took eight bottles in all and to-day am entirely free from bronchitis. I honestly believe I would not be in the land of the living to-day were it not for this wonderful medicine."—Capt. A. W. STRACHAN, R. E.

Neilson's Chocolates

In bulk or boxes, same old price. A first-class line of Confectionery always on hand. Bread, cakes and all kinds of pastry always on hand. Our Wedding cakes cannot be beaten.

SPECIAL.—We will also send you free a packet (value 15c) of our choice

Giant Flowering Carnation

This carnation is a great favorite; the flowers are large and fragrant and the plants do well outdoors. Transplanted into pots in the early fall they bloom profusely from October till the end of May. Extra plants are easily propagated from them by cuttings, "pipings" or layering.

Send for our catalogue and learn of our other valuable premiums. 13
