# CHICAGO MARKET.

# BULLS I"LOAD AND LOWER VALUES-VISIBLE SUPPLIES RATHER EN-COURAGE DECLINE - SHORT RAL-

LIES ARE PROBABLE.

#### Chicago, October 17.

Taking the estimated 4 million bushels of wheat as a correct measurement of the weekly European demand from America, the total wheat on pussage to Britain and the States, of nearly 2d millions, would supply this demand for nearly the sixth part of a year. Also the weekly clearances for those countries just about equals this 4 million demand and furnish little help to declining markets. It is true that primary receipts, partly owing to the car famine are less bulky and might be expected to lift prices somewhat as they would certainly do if there were cash demand and speculative buying. Of the latter there was some for a few day, when war breaking out was used to artificially stimulate the market. This buying has ceased and has been followed by the liquidation of the stock then taken up. Rallies within small limits are likely to occur and those who have purchased on breaks may have many opportunities to make profits on these railies in the market chiefly bearish at present. Denings today were below yesterday's closing prices which, however, rallied during the first half hour, then pursued a slowly declining course varied occasionally by a little energy.

Cable from Liverpool gives wheat and corn a lower, and with such bearish comment as that demand is very limited and in corn falling off. Prices are also declining, the decline being caused by bulls unloading.

At Chicago were received: Hogs 22,00 cattle 4500; sheep 17,000.
