When writing advertisers kindly mention this paper.

Local View POST CARDS

MADE IN THE UNITED STATES

We have just moved into our new factory and have installed our German machinery for the manufacture of

High-Grade Local View Cards

A personal careful investigation in Europe, as to the various processes of making Colored View Cards, has taught us to make cards as good as the very best imported cards made in Germany, for the same price and in less than half the time. We are in a position to quote special prices to users in large quantities, and guarantee prompt delivery and first-class work.

The importing of view cards will be a thing of the past as soon as our samples are shown.
