

WHEN a writer says a certain thing is impossible to describe and then uses half a column in its description he doubtless means that nobody but himself could describe it. Not so with Minard's Liniment, for when we say it is the King or Conqueror of all pains, we describe it in brief.

Etherington's Adjustable Spring Bed.

The Spring Bed consists entirely of

STEEL SPIRAL SPRINGS,

which lock on the slats of a common bedstead; making a most DESIRABLE BED WITH BUT A SINGLE MATTRESS, thus a saving in the price of bedding. They are the best laying, the most easy, most comfortable, most elastic, the cleanest and the easiest cleaned, the best ventilated (therefore the most healthy), the most durable, the cheapest and the easiest repaired. Most adjustable, as it fits all bedsteads without regard to width or length, and is perfectly noiseless. It can be packed in a trunk 16 inches square, so the most portable; no hiding place for vermin, no sagging to the centre, no slats to become bent and remaining so, but can be adjusted to the unequal weights of the occupants, permitting them to lie on the same level. On all points of merit we solicit comparison with any other Bed in the market.

All orders by mail will receive prompt attention.
