

THE BRITISH PERIODICALS AND THE FARMER'S GUIDE.

LEONARD SCOTT & Co., No. 54, Gold Street New York, continues to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural work, called the "Farmer's Guide to Scientific and Practical Agriculture."

By HENRY STEPHENS, F.R.S., of Edinburgh, author of the "Book of the Farm," &c., &c.; assisted by JOHN P. NORTON, M.A., New Haven, Professor of Scientific Agriculture, in Yale College, &c., &c.

This highly valuable work will comprise two large royal octavo volumes, containing over 1,400 pages, with 18 or 20 splendid steel engravings, and more than 600 engravings on wood, in the highest style of the art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the pictorial feature of the book is unique, and will render it of incalculable value to the student of agriculture.

The work is being published in Semi-monthly Numbers, of 64 pages each, exclusive of the Steel engravings, and is sold at 25 Cents each, or \$5 for the entire work in numbers, of which there will be at least twenty-two.

The British Periodicals Re-published are as follows, viz.:

- The London Quarterly Review, (Conservative).
The Edinburgh Review, (Whig).
The North British Review, (Free-Church).
The Westminster Review, (Liberal), and
Blackwood's Edinburgh Magazine, (Tory).

Although these works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other Journals of their class. Blackwood, still under the masterly guidance of Christopher North, maintains its ancient celebrity, and is, at this time, unusually attractive, from the serial works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns both in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel" (both by Bulwer), "My Peninsular Medal," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, after it has been issued by M. Scott & Co., so that subscribers to the Reprint of that Magazine may always rely on having the earliest reading of these fascinating tales.

AYER'S CHERRY PECTORAL For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA and CONSUMPTION

The uniform success which has attended the use of this preparation—its salutary effect—its power to relieve and cure affections of the Lungs, have gained for it a celebrity equalled by no other medicine. We offer it to the afflicted with entire confidence in its virtues, and the full belief that it will subside and remove the severest attacks of disease upon the throat and Lungs. These results, as they become publicly known, very naturally attract the attention of medical men and philanthropists everywhere. What is their opinion of CHERRY PECTORAL may be seen in the following:

VALENTINE MOTT, M.D.

Prof. Surgery Med. College, New York, says:—

"It gives me pleasure to certify the value and efficacy of Ayer's CHERRY PECTORAL, which I consider peculiarly adapted to cure diseases of the Throat and Lungs."

CHIEF JUSTICE EUSTIS.

of Louisiana, writes "That a young daughter of his was cured of several severe attacks of Croup by the CHERRY PECTORAL."

Let the relieved sufferer speak for himself.—Hartford, Jan. 26, 1847.

Dr. J. C. Ayer—Dear Sir,—Having been rescued from a painful and dangerous disease by your medicine, gratitude prompts me to send you this acknowledgment, not only in justice to you, but for the information of others in like affliction.

A slight cold upon the lungs, neglected at first, became so severe that spitting of blood, a violent cough and profuse night sweats followed, and fastened upon me. I became emaciated, could not sleep, was distressed by my cough, and a pain through my chest and in short had all the alarming symptoms of quick consumption. No medicine seemed at all to reach my case, until I providentially tried your CHERRY PECTORAL, which soon relieved and now has cured me.

Yours with respect, E. A. STEWART, Albany, N. Y., April 17, 1848.

Dr. Ayer, Lowell—Dear Sir,—I have for years been afflicted with Asthma in the worst form; so that I have been obliged to sleep in my chair for a larger part of the time, being unable to breathe on my bed. I had tried a great many medicines, to no purpose, until my physician prescribed, as an experiment, your CHERRY PECTORAL.

At first it appeared to make me worse, but in less than a week I began to experience the most gratifying relief from its use; and now, in four weeks, the disease is entirely removed. I can sleep on my bed with comfort, and enjoy a state of health which I had never expected to enjoy.

Thomas Champion, Esq. AGENT—E. TAYLOR DARTNELL, Esq. Office—25, Albert Buildings King-street East, Toronto.

The distinguished success which has attended the establishment of the Church of England Assurance Institution in the United Kingdom, India, &c., has induced the Directors to open a Branch Office of the Company in Canada, with a view of extending the peculiar advantages of this Institution to the inhabitants of that Colony. They feel satisfied that such advantages will be duly appreciated by the Public, and that the same distinguished success will attend the Company's establishments in Canada; and the same powerful support be given to it by the Clergy and Laity residing in the Colony, as have already marked its progress in India and in Europe.

In order to insure such success, and to merit such support, the Directors have, for a long time past, been engaged in repeated deliberations and consultations with men well conversant with, and experienced in, the principles and practice of Life Assurance, with a view to the formation of Branch Establishments in the British Colonies, which will best ensure the three main objects of Policy-holders, viz., SECURITY, ECONOMY, and CONVENIENCE. And they trust that the result of their deliberations has been such as to present to British subjects, resident in these Colonies, as perfect a system of Assurance, in all these respects, as is practicable, or can be desired.

The SECURITY of Policy-holders in Canada is made complete by the large subscribed capital of the Company, guaranteed by a numerous and influential body of Proprietors; whilst for their immediate benefit and protection, AN ADEQUATE FUND WILL BE INVESTED IN CANADIAN SECURITIES, so as always to be immediately available to provide for whatever casualties may arise.

The ECONOMY of Policy-holders has been consulted by the adoption of Tables, deduced from the most complete and extensive observations of the rate of mortality among Assured Lives. They have been constructed expressly for the use of the Church of England Assurance Company; and are framed on the lowest possible scale consistent with the security of the Assured.

By the constitution of the Company, one clear tenth of the entire profits of the Institution is applied to the formation of a fund, called "THE CLERGY FUND," for the Relief of Distressed and Deserving Clergymen, and the Widows and Orphans of Clergymen, and also for granting aid to enable Clergymen with limited incomes to provide for their Families by Assuring their Lives at Reduced Premiums.

Premiums on Assurances by Table II, may be paid either yearly, half-yearly, or quarterly, as may best suit the convenience of the Assured.

Death by suicide, duelling, or the hands of justice, will not render the Assurance null and void, if the Policy be duly assigned to another party for a bona-fide consideration.

Claims will be paid within three months after proof of death.

Policies forfeited by non-payment of Premium, may be revived within twelve months, upon proof of the same state of health, and the payment of the Premium in arrear, with interest thereon.

The Assured, not being engaged in any Military, Maritime, or Naval Service, will be permitted, without extra Premium, to proceed from one part of British North America to another. Also, to proceed to or from any part of the United States not further south than the latitude of the city of Washington, or further West than the River Mississippi: they will also be permitted, in time of peace, to proceed in first-class steamers to or from any port in Great Britain or Ireland.

Parties engaged in or entering into the Military, Maritime, or Naval Service, or parties proceeding beyond the limits above mentioned, will be charged such additional rate (to be ascertained by application to the Agent), as the circumstances of the case may require.

Upon payment of the Premium, in cases where the Assurance has been accepted definitely, a Certificate will issue at once, to be held by the Assured until it can be exchanged for a Stamped Policy, under the Hands and Seals of three of the London Directors. In cases where the Assurances shall be entertained, only pending the decision of the London Board, a memorandum of conditional acceptance will be issued, until the receipt out of the Company's advice, conveying the Stamped Policy, or the rejection of the Assurance,—the Company holding the life assured in the interim.

once to prevent crowding, and to promote the free circulation of the multitude. But perhaps a more potent cause is to be found in the fact that the visitors were mostly of the class of those who paid to see the Exhibition, and really meant to see it, and who had no time to lose in useless promenading, but worked hard to do all they could in a day. Hence, there were everywhere eager, observant, and intelligent groups. The character of this multitude was exceedingly respectable; indeed, for the most part, it consisted of a far better class of persons than had been expected, and they appeared perfectly disposed to examine, appreciate, and enjoy. The usual places of peculiar resort were of course as usual; but there was a more even and equal degree of attention bestowed on the varied contents of the Exhibition.

A. ROYAL RECONCILIATION.—The newspapers relate that the King of Prussia, after his reconciliation with the King of Hanover, in Mecklenburgh, entered the bed-room early, where the latter was still asleep, and put round his neck the gorgeous and costly chain of the order of the Black Eagle, which the aged monarch was of course, equally surprised and gratified to find on awaking. This chain has been newly invented by the King of Prussia himself, who has a great talent for ornamental design.

We find the following rather interesting paragraph in the Limerick Chronicle of the 17th ult.:

IMPORTANT TO THE WESLEYAN BODY.—The disensions in the Wesleyan connexion are becoming increasingly serious. A great trust-deed case—"The Attorney-General v. Cozens, Hard, and others," has been argued in the Vice-Chancellor's Court for some weeks past, arising out of an organized attempt to alienate some of the chapels from the conference, and transfer them to the reforming party. A general threat to that effect, contained in a pamphlet issued last year has been practically carried out by the defendant in the Holt Circuit, Norfolk, by the sale and conveyance of one of the chapels. Judgment on the interlocutory proceedings in this case was given on Wednesday by Vice-Chancellor Lord Cranworth. The motion was dismissed without costs. It is now for the plaintiffs to consider whether they will appeal. The question is of the utmost importance to the connexion, and effects-trust property in general. The defendants were themselves trustees and mortgagors of the chapels, but are now among the "expelled," of whom they certify that there are 31,680, besides 2,000 in Bristol.
