PROSPECTUS FOR 1874. — SEVENTH YEAR
"THE ALDINE,"

An Illustrated Monthly Journal, Universally Admitted to be the Handsomest Periodical in the World. A Representative and Champion of American Taste.

NOT FOR SALE IN BOOK OR NEWS STORES.
THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Although each succeeding number affords a fresh pleasure to its friends, the real value and beauty of **THE ALDINE** will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, **THE ALDINE** is a unique and original conception—alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos, besides!

ART DEPARTMENT, 1874.
The illustrations of **THE ALDINE** have won a world-wide reputation, and in the art centres of Europe it is an admitted fact that its wood cuts are examples of the highest perfection ever attained.—The common prejudice in favor of "steel plates," is rapidly yielding to a more educated and discriminating taste which recognizes the advantages of superior artistic quality with greater facility of production. The wood-cuts of **THE ALDINE** possess all the delicacy and elaborate finish of the most costly steel plate, while they afford a better rendering of the artist's original.

To fully realize the wonderful work which **THE ALDINE** is doing for the cause of art culture in America, it is only necessary to consider the cost to the people of any other decent representations of the productions of great painters.

In addition to designs by the members of the National Academy, and other noted American artists, **THE ALDINE** will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest. Thus the subscriber to **THE ALDINE** will, at a trifling cost, enjoy in his own home the pleasures and refining influences of true art.

The quarterly tinted plates for 1874 will be by Thos. Moran and J. D. Woodward.
The Christmas issue for 1874 will contain special designs appropriate to the season, by our best artists, and will surpass in attractions any of its predecessors.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local canvasser, without responsibility to the publishers, except in cases where the certificate is given bearing the fac-simile signature of JAMES SETTON & Co.

PREMIUM FOR 1874.
Every subscriber to **THE ALDINE** for the year 1874 will receive a pair of chromos. The original pictures were printed in oil for the publishers of **THE ALDINE**, by Thomas Moran, whose great Colorado picture was purchased by Congress for ten thousand dollars. The subjects were chosen to represent "The East" and "The West." One is a view in The White Mountains, New Hampshire; the other gives The Cliffs of Green River, Wyoming Territory. The difference in the nature of the scenes themselves is a pleasing contrast, and affords a good display of the artist's scope and coloring. The chromos are each worked from thirty distinct plates, and are in size (12 x 16) and appearance exact fac-similes of the originals. The presentation of a worthy example of America's greatest landscape painter, to the subscribers of **THE ALDINE** was a bold but peculiarly happy idea, and its successful realization is attested by the following testimonial, over the signature of Mr. Moran himself.

These chromos are in every sense American. They are by an original American process, with material of American manufacture, from designs of American scenery by an American painter, and presented to subscribers to the first successful American Art Journal. If no better because of all this, they will certainly possess an interest no foreign production can inspire, and neither are they any the worse if by reason of peculiar facilities of production they cost the publishers only a trifle, while equal in every respect to other chromos that are sold single for double the subscription price of **THE ALDINE**. Persons of taste will prize these pictures for themselves—not for the price they did or did not cost, and will appreciate the enterprise that renders their distribution possible.

NEWARK, N. J., Sept 20th, 1873.
MESSRS. JAMES SETTON & Co.

Gentlemen,—I am delighted with the proofs in color of your chromos. They are wonderfully successful representations by mechanical process of the original paintings.

Very respectfully,
THOS. MORAN.

If any subscriber should indicate a preference for a figure subject, the publishers will send "Thoughts of Home," a new and beautiful chromo, 14 x 20 inches, representing a little Italian exile whose speaking eyes betray the longings of his heart.

CANVASSERS WANTED.
Any person wishing to act permanently as a local canvasser will receive full and prompt information by applying to
