in charge of the exhibit will be happy to answer any enquiries.

very plentiful and trustees had only to place an advertisement in the papers to secure a number of applications from which to make choice. The present scarcity is due to several causes. Several have left for the North-West to go into teaching there at better salaries. A few went to South Africa. But the chief cause of the scarcity is the industrial development of the Province which has opened up so many lucrative positions to young women that they are unwilling to continue the calling of teaching for the paltry remuneration offered in that profession.

The Board of Directors of Dalhousie College have added an assistant Professor of Metallurgy to the staff of the school of mining. The appointment has been given to Mr. F. H. Sexton, a graduate of the Massachusetts Institute of Technology and since engaged in researches on the Metallography of iron and steel. Mr. Sexton will begin his work at the opening of the College in September and his labors will, no doubt, be of advantage to the mining interests of the province.

The finding of a valise at Glace Bay containing about \$70,000 worth of bonds besides other valuable papers in a store, has caused excitement here. The bonds were supposed to be those of the Preachers' Aid Society, of Boston, recently stolen. After the Boston police had been communicated with and an officer had started for Glace Bay it was discovered that the bonds found were worthless imitations evidently made out by some business college student by way of practice.

It is reported that Mackenzie & Mann have offered \$15,000 a mile for the Cape Breton Co.'s railway which runs from Port Hawkesbury to St. Peters, a distance of 30 miles. The road cost \$30,000 per mile but is only partially completed, having been affected by the failure of the Dominion Securities Company last year.

### THE EDITOR'S SONG.

§§

How dear to my heart is the steady subscriber,  
Who pays in advance without skipping a year;  
Who lays down his dollars, and offers them gladly,  
And casts 'round the office a halo of cheer.

§

Who never says: "Stop it, I cannot afford it!"  
Or, "Getting more papers each day, than I read;"  
But always says, "Send it, the whole outfit likes it—"  
In fact, we regard it a business need."

§

How welcome is he when he steps in the sanctum,  
How he makes "our heart" throb, how he makes "our eye" dance!  
We outwardly thank him—we inwardly bless him—  
The steady subscriber who pays in advance!

### LOSS ALL AROUND.

There are nearly 200,000 idle workmen in New York city to day because of strikes and lockouts. There is a daily loss of \$700,000 in wages. It is estimated that nearly \$600,000,000 in capital is tied up by the stoppages. The banded employers are organizing sympathetic lockouts as a means of antagonizing sympathetic strikes. In the meantime, business is para-

lyzed, and the prosperity of the country threatened. Matters are not so bad in Philadelphia, but they are bad enough, and there is a threat of graver disturbance which thoroughly unsettles all calculation for the future and brings speculation to a standstill. Out of such a state of things no advantage can be reaped by anybody.—Philadelphia Record.
