PETITIONS

TUITION FEES

Mr. Ronald J. Duhamel (St. Boniface): Madam Speaker, I have only one petition today, but it is extremely important.

[*English*]

I have a petition from 7,000 students from Saskatchewan who deplore government policies in education and related matters.

They point out that the cutting back of transfer payments has been harsh on students, that taxing scholarships is inappropriate, that the 3 per cent tax on needy students who have loans is unacceptable and must be removed, that the six months additional interest on student loans should go, and that the government has an archaic student aid program that must be revised. They deplore as well the goods and services tax on books and reading material.

This particular petition represents not only the sentiment of 7,000 students from Saskatchewan but sentiment across the country.
