Dear General Currie

If this reaches  
you, will you help me? You  
may remember me, as the  
Head Nurse at the Hospital  
of Amputation who attended  
you when you met with the  
accident. I am ruined  
financially through my  
services being called for as  
a nurse. At present I am  
in a starving condition -  
yours is a rich country and  
some one ought aid me.
