

February 26th 1924.

Dr. S. P. Ghosh, Secretary,  
The Eastern Medical College,  
134 Collin Street,  
Calcutta, India.

Dear Sir:-

I am directed by the Principal to acknowledge receipt of your letter dated 17th January last, proposing the affiliation of your Institution to this University.

The curriculum submitted by you has been carefully considered by the Medical Faculty, and some study has been given to the general questions involved.

It is felt that the means of communication between this country and India leave so much to be desired that there would be great difficulty in carrying out in a manner satisfactory either to your Institution or to this University the supervision which would be incumbent upon the University under such conditions.

There is moreover another difficulty, namely, that our staff lacks the thorough information regarding conditions in your country which would be so essential if they were to assume the great responsibilities which you have suggested.

Assuring you that the honour which you have paid to McGill in applying for affiliation is highly appreciated,

I remain,

Yours faithfully,

Wilfrid Bovey.
