Makes light work of housework

Short cuts in housework!

What normal woman isn't looking for them?

As if in answer to your earnest wish, here comes the General Utility Motor.

What! You never saw the motor work?

You certainly have a surprise coming to you.

It literally lives on work.

Polishes the silver, runs the sewing machine, grinds and sharpens knives and tools, ventilates the kitchen or bedroom, runs the ice-cream freezer and the coffee grinder, and with a special flexible shaft attached can be used to clean the bright parts on the automobile.

It is well named when it is called an "always-on-the-job" servant in the home. It soon saves its price in the work it does. Costs next to nothing to operate—say, less than one cent an hour. Be sure to see the General Utility Motor demonstration in the Adelaide Street window.

DR. McLAUGHLIN'S ELECTRIC BELT CURES WHEN DRUGS FAIL

"Let every man know it." "I will preach the merits of your wonderful treatment wherever I go." "It has been worth its weight in gold to me, and I will never cease shouting its praise."

Such are the messages of gladness sent in to me from patients restored to health and strength by my Electric Belt. They come daily, and nearly always after other treatments had failed.

Electricity is an external application. By the infusion of a current through the suspended into the weakened parts, every nerve and tissue is affected by it. They are immediately strengthened with the new life; they expand and develop with each application until complete vigor and strength are restored.

Every day we have evidence that the weakling has no place in the busy, bustling life of to-day. It takes nerve and strength to go up against the obstacles we are now forced to encounter, and this the weakling lacks. Look about you and see the successful man of to-day; it matters not whether he be a Merchant, Lawyer or Laborer, with head erect, eye clear, strength in his every movement, he is ready to tackle any problem with that enthusiasm which insures success.

I can make just such men of weaklings. I care not how long they have been so, nor what has failed to cure them. Let them wear my Dr. McLaughlin's Belt every night as I direct, and in place of the weakling, debilitated being, I will show you a strong man—full of vigorous life, with nerves like steel and ready to look any man in the face and feel that he is the equal of the best of them and can do what they can do.

You will say this is promising a great deal. I know it, and can show you evidence that I have done it for twenty thousand weak men, and every one of them had spent from \$20 to \$200 on drugs before he came to me as a last resort.

Now, what does this mean to you, dear reader? It simply proves what I have been telling the public for the past twenty years, the only way to restore strength is by electricity. Drugs will not.

READ WHAT SOME OF THEM SAY:

"One year ago I was a perfect wreck, but to-day can take my place with any man. Would not take \$1,000.00 for my Belt if I could not get another."—AARON MILLS, Linden, N.S.

"I am fully satisfied with my Belt; it is a good cure. I am stronger in every way and thank you very much for your Belt. It is well worth the money that I paid for it."—WILLIAM J. PEARSON, Fleming, Sask.

"I am well satisfied with the Belt I purchased from you a short time ago, and consider it good value for the amount invested."—G. F. LOGAN, Sombra, Ont.

"I am pleased to tell you that my Belt has done me a lot of good. I was continually taking medicine before I got the Belt, but since that I have not taken even as much as a pill."—PETER DONOVAN, Portmores, Que.

My Electric Belt is an electric body battery, applied while you sleep. It sends a stream of electric life into every nerve and tissue of the body, building up strength, and removing the cause of disease.

Electricity as applied by my Belt does not shock or blister. The only sensation is a mild, soothing glow. My Belt is a great success. It has cured people all over the Dominion when drugs had failed to benefit.
