Both are to be given by the bunch of live-wires that will represent the City of El Paso, Texas, at the coming Ad. Convention to be held here in Toronto

There is no entrance fee, no charge for the privilege of competing. All that is necessary is that your parents shall be subscribers to either The Daily or Sunday World. All that you have to do is to write an essay of from 500 to 1,000 words on the City of El Paso, and do it better than other boys and girls. Here are some facts to guide you:

The words El Paso mean, in Spanish, "The Pass." It is known thruout the south-west as "The Pass City." The name is due to the fact that it is located at the point of the lowest transcontinental pass thru the Rockies. This has made it a railroad centre towards which all southern lines converge. It has also made it the gateway to the south-west and Old Mexico.

El Paso is located at the extreme western border of the state of Texas. It is but a few hundred yards from the city limits on the west to the New Mexipages, dated June 15, 1908. co line, and it is separated from Old Mexico by the Rio Grande. It is known as a mining and smelting centre, a railroad centre, and is the metropolis of a district twice the size of the New England States. No other

large city occupies a place in its vast territory reaching 700 miles to Denver on the north, 1,000 miles to Los Angeles on the west, 700 miles to Dallas on the east, and over 1,000 miles to Mexico City on the south. The present population of El Paso is 70,000. It has eleven banking institutions with combined resources of over \$15,000,000. There has recently

line and take a ride into a foreign country. El Paso is known as a city built of brick and concrete. Out of a total of nearly 9,000 buildings in the city, less than 50 are of frame construction. Its fire loss is consequently small and it has the lowest key rate of any city in the state of Texas.

El Paso has 35 miles of paved streets, 40 churches, and 45 miles of In his ordination sermon the Rev. electric car lines. El Paso has eight public parks valued at \$3,000,000 for the Mr. Tyner spoke of Christ as a minisground alone, 13 public schools and 9 private schools, with 10,000 children of ter to humanity, and said it was necesschool age. The great Elephant Butte Dam now under construction by the IL S government above El Paso is the largest irrigation dam in the world, being one-fifth larger than the famous Assouan Dam in Egypt. It will irrigate a vast district comprising more than 150,000 acres of land, and will transform the valleys surrounding El Paso into gardens of plenty. The project is costing \$10,000,000 and its completion will bring El Paso into the limelight of the entire world. The dam will create a lake 65 miles long and having over 200 miles of shore line, which will be a perpetual source of water for this vast domain. It will store water for irrigation in 1915 and lands are now open for purchase and entry under the U.S. Reclamation Act.

An electric interurban line and over 100 miles of beautiful paved boulevards extend from the City of El Paso in the fertile valleys, which are becoming the most famous garden spots of the southwest. In these valleys are hundreds of acres of apple and pear trees. Strawberries may be grown in January. Hundreds of carleads of cantaloupes are produced each year. Other crops are alfalfa, tomatoes, corn, onions, cucumbers, cabbages, snap beans, lettuce, celery, potatoes, okra, etc.

El Paso is noted for its mild and salubrious winter climate. Its parks and plazas are green the year around. Children are seen barefoot in January Its altitude of 3,760 feet gives i t a delightful summer climate. El Paso has an advantage of 329 clear days per year.
