ALD. SWEENEY FAILED TO MOLLIFY RETAILERS

Resolution Opposing Bylaw To Keep Goods Off Street Passed Despite Explanations.

At an indignation meeting last evening the retail grocers of the city unanimously condemned the proposed amendment to the bylaw relating to the exhibiting of goods on the sidewalk for sale, as suggested by Ald. Sweeney. In short, they claim that such action would force them out of the fruit business.

Ald. Sweeney for nearly an hour presented his arguments in favor of the amendment and stated that he was not hitting at the grocers any more than at the second-hand man. He claimed it was not for the purpose of curtailing business or to help the pedlar, but for the beautifying of the city and the improvement of sanitary conditions.

"The amendment will force every merchant, whether he is Canadian, Italian or Hebrew, to keep his wares under cover, or else on his own private property. It stands to reason that fruit left outside a store for hours must become covered with dust and bacteria. It is positively dangerous to eat fruit after it has been exposed for any length of time," he said.

"To make a law prohibiting one man from exposing his goods, you must include every man who has even a single basket outside his store. Now, apart from the sanitary consideration, you will all admit that Toronto would look a hundred per cent. better if the sidewalks were free from boxes of fruit and flowers, and as for the appearance of second-hand clothing, it is really a disgrace at times."

"If we have to keep our fruit under cover, which means keeping it in our shops, the prices will jump up 50 to 100 per cent. The grocers are protesting against the prices today and now you come along with new laws and increase our expenses, and how can we sell our stuff on the same margin? It is impossible. The cost of living would immediately be higher." This was the statement of several of the men present.

The grocers attacked the alderman on allowing the pedlar to carry his goods on a wagon, and in reply he stated that it was his intention to introduce a bylaw to have the pedlar exhibit his goods under cover, and that they would then have to cover their vehicles with glass.

A number of the men stated that they were of the opinion that the alderman had selected the least of the evils and that he should have first tackled the pedlars and forced them to carry a better class of goods and to have more sanitary conditions for keeping their commodities on the streets.

Regarding the beautifying of the city, they claimed that business should come before looks.

The following resolution was unanimously passed: That the grocers' Association decidedly oppose the proposed amendment to the bylaw No. 487, introduced in the city council by Ald. Sweeney, respecting the use of city streets by merchants. This amendment, if adopted, will deprive us of a necessary privilege now enjoyed by us and will seriously hamper us in the conduct of our business, while accomplishing no material good, nor attaining the object in view of the promoter of the amendment.

CLOTHING TRADES COUNCIL

Such is Project Mooted by Local Garment Workers.

At Social Hall, 185 West Queen-st., last night, S. L. Landers, Hamilton, general organizer United Garment Workers of America, installed a new lodge of garment workers, known as Penta Makers Local Union No. 189, with 82 charter members.

The officers elected were: President, J. Kohl; vice-president, L. Weiss; recording secretary, M. Toppe; treasurer, P. Lollach.

This is the second union installed this month. The first was the Tailors' Union, which was organized last Tuesday. This makes four local unions of garment workers in Toronto.

At the Labor temple last night there was talk of forming a clothing trades council similar to the metal, building, and printing trades councils in this city. The unions to be affiliated would be the garment workers, four unions, the custom tailors, furriers, cloakmakers, and ladies' garment workers' unions.

Mr. Landers said 8 new garment workers' unions had been added in Canada during the past 60 days and Hamilton was good. He leaves for Hamilton, where he is engaged in organizing a shop, and then leaves for New York to attend a general conference.

INTERNATIONAL BANK NOW FAIRLY LAUNCHED

Subscription Lists Closed and Deposit Made With the Government.

MONTREAL, May 23.—(Special.)—The Canadian list of subscribers to the capital stocks of the International Bank of Canada, which has been so successfully promoted by Rodolphe Forget, M.P., for Charlevoix, has been closed and the four French directors, who are to sit on the board with five British will be announced shortly.

It is known, however, that these gentlemen have been chosen from amongst the most eminent financiers of the French capital and it is also understood that the Canadians, who are to sit on the board of directors will also be worthy of the great banking institution, which the International is destined to be in the near future.

It will be remembered that the seven million dollars out of the total capital of ten millions allotted to the Paris groups were over twice subscribed, and the statement is made that the Frenchmen are anxious if the bank reaches their expectations to bring the capital up to \$20,000,000. Mr. Rodolphe Forget announced that the bank would be a French Canadian bank for a share.

In accordance with the Canadian Banking Act a quarter of a million dollars has been deposited in the Bank of Montreal and the present distributors of the bank are now making it known to the public about the middle of June. It is understood that Mr. Robert Bicknell, M.P., for St. Lawrence division, and vice-president of the Bank of Montreal, will be the president of the International.

HYDRO-ELECTRIC MAKES THINGS HUM IN N. TORONTO

Rival Companies Make Strong Bid For Franchise—Council Await Hydro Rates.

NORTH TORONTO, May 23.—(Special.)—It was a battle royal to-night between the big representatives of the city with the hydro-electric as the star actor in the drama of the lighting and power franchise of this town for the next twelve months. The drama was all over, and the council had in a measure recovered from the flood of oratory from the T.E.L. and the Interurban Company, and had heard the plain matter of the hydro-electric, the latter, it is safe to say, suffered nothing by comparison. It was a great time, and the spectators present were treated to a technical, but highly interesting session and one rarely equalled in the old town hall.

To start with, the contract for the supply of electric lighting for the Town of North Toronto for the next twelve months was the bone of contention. This was due, in a measure, to the fact that the hydro-electric tender was not submitted, and the Interurban Company had been the only bidder.

Mr. Sweeney, who submitted the hydro-electric tender, was the only bidder, and he was the only one who had the courage to stand up to the Interurban Company, which had been the only bidder for the last twelve months.

WORK OF WILLARD HOME.

The Toronto District W. C. T. U. met yesterday at 2.30 p.m., and the board of the Franco-Willard Hall, at 11 a.m. The matron of the home gave her report, which shows nine Willard girls, three regular and five transient girls in the home the past month. Mrs. Adams, the matron, said at the depot she spent 125 hours and helped 310 persons the past month at the depot, and sent eight girls to Willard Hall.

The W. C. T. U. expects to continue the work at the exhibition this fall in a new building. The beginning of the new headquarters and Frances Willard Hall is being held back until the opening of Victoria-street is decided upon.

Educating the Lumberjack.

How much did the Province of Ontario spend on the education of Ontario citizens in 1910? \$2,715,017.

How much on the education of Ontario lumberjacks and navies? Less than \$100.

These are questions propounded and answered by the Reading Camp Association, which is trying to educate lumberjacks and navies. The association, which has offices in the Alderbrook Chambers, is seeking funds.
