Annexation of More Territory Would Solve High Rents Problem AT MASS

Board of Trade's Special Committee Reports on Reasons for High Cost of Living-Local Lack of Competition in Supplying of Food Keeps Prices Up-Tax Reform Extension of Radials, Public Wharfs Would Be

Beneficial.

Many radical and necessary reforms like Omario land has been actually sowers advocated by the board of trades in out of cultivation during the past were advocated by the board of trades in out of cultivation during the past the luncheon at the St. Charles yesterday.

When the committee was appointed it was understood that the members should proceed with their task without political bias, but come to any specific conclusion which would not necessarily have to be adopted in a petition to parliament or any other body in the hopp of obtaining reforms.

They declare that the cost of living in Canada has increased by a greater ratio than in the British Isles; also that it entails a greater expenditure to reside in Toronto than to live in the provincial cities and towns.

The Gold Production.

The reasons for such rises in the cost of living are given in the report. The committee state that the increased production of gold during the past it wenty years has exceeded the increased production of gold during the past it wenty years has exceeded the increased production of gold during the past it wenty years has exceeded the increased production of commodities has increased production of commodities have been formed on the reason for an one specific case is noted. They report states that Toronto in the process of commodities has nother reason and one specific case is noted. They report states that Toronto in the process of commodities has nother reason and one specific case is noted. They report states that Toronto in the process of commodities has nother reason and the subsequent increase of credit money. In other word, the shortage of food supply and the excess of money has dearn in her process of the first and the second in the report, the they will be discussed at the next intended to the first and the process of the first and the second in the report, which will be discussed at the next intended to provide the trade on account of the insufficient facilities for the transport of the process of the first a

nesday, Nov. 27.

Radial Facilities Poor.

Lack of proper radial facilities is roundly scored, and some members

nproved city lands. This will soon olve the housing question.

Laxity on the part of the Dominion lovernment is also a cause for conderable inconvenience to Toronto,

stock of money has thus increased more rapidly than the world's stock of commodities, which are measured in terms of this money—in other words, the price of commodities has risen. of commodities, which are measured in terms of this money—in other words, the price of commodities has risen.

(2) The enormous sums expended every war by the great nations of the world in preparation for war. This unproductive expenditure has now reached a height undreamed of a generation ago, and it is still mounting, drawing away every year millions of men and billions of dollars, which would otherwise be employed in the production of commodities of value.

(3) A third cause which has especially affected the increased cost of food is to be found in the migration citywards, which has been taking place nearly all over the civilized world.

cially affected the increased cost of food is to be found in the migration citywards, which has been taking place nearly all over the civilized world. Modern cities have been made more and more attractive in comperiors. with the monotony and isolation of the farm. This is particularly true of the newer /cities of North and South America, Australia and New Zealand. Moreover, the adoption of the prinder of projection by the food expenses of the food expenses

First—We offer diamonds to the public from first hands, eliminating middlemen's profits.

Second—All our energy and efforts are concentrated in this diamond business, hence little deaiers and watchmakers who handle diamonds as a side line and carry only a handful of stones and pose as experts cannot possibly hope to compete with us.

Thus we can offer you the advantage of a magnificent stock and the safeguard of experience of actual diamond cutters.

Isn't this worth something to you?

Resolutions Based on Report

PUBLIC MARKETS.

Resolved that greater efforts should be made by Toronto and by neighboring municipalities to increase the efficiency of the roads, whether of public h'ghways or the radial railways, so that greater facility may be given to the local markets, thereby extending their operations.

ASSESSMENT.

Resolved that, having regard to the increase in centain localities, and at certain periods in the value of land, it is expedient that municipalities should be allowed some measure of local option in the levying of taxes upon the land rather than upon the improvements thereon.

PUBLIC WHARF.

Resolved that the Toronto Board of Harbor Commissioners be strongly ursed to do whatever is in their power, and to secure action on behalf of the Dominion Government, if necessary, to assist in the establishing of a public wharf.

PARCELS POST.

Resolved, that the conference committee of one hundred of the board of trade of the City of Toronto request that the council of the board urge that the Dominion Government consider establishing a good parcel post, limited no doubt at the first to the more populous localities, but extended as experience may warrant.

adian producer would on the average of set least as much as he is getting now. That this tax on the importation of both has resulted in raising the of the area in now clearly seen by the interest and its apparently becoming the industrial glasses of Germany and of a distribution of the control of the cont

siderable inconvenience to Toronto, with its consequent boost of prices, and the advisability of constructing a public wharf is urged.

Parcels post, too, would be the means of doing away with many gritevances, and would to some extent facilitate a down-turn in commodity prices.

The main causes of the increase in the production of gold which has continued now for twenty years. Moreover, the effect of this increase has been magnified by economy in the use of gold on the part of bankers and other mannfacturers of credit money, who have accessed in increasing the volume of credit money in proportion to the gold basis on which it rests. The world's stock of money has thus increased more rapidly than the world's stock of money has thus increased more rapidly than the world's stock of this more as price and the means of commodities, which are mensured in the trems of this money in proportion to the gold more rapidly than the world's stock of this money in proportion to the gold that the world's stock of the money in proportion to the gold that the world's stock of the money in proportion to the gold that the world's stock of the money in proportion to the gold that the world's stock of the money in proportion to the gold that the world's stock of the money in proportion to the gold that the world's stock of the money in the remaining the world that the proportion to the gold that the prop

Rents Here Too High.

"(5) The very high rents prevailing in Toronto, which rents must, of course, be added to the price of their goods by the shopkeeper. These ab-normal rents are one inevitable conse-quence of our method of taxation, which may be equitable in a stationary community, but which makes it profitable in a rapidly growing city to
hold land for a rise in value, but renders it expensive to improve the land
by putting buildings upon it. The
penalty imposed by this system upon
all improvements is, of course, transferred by the landlord to his tenant
and by him passed on to his course. lay these small frish farmers are learning the trick of combination, so as to control the selling end of their own business, with the result that the

periods, will be held this December if Municipal Improvement Association to its executive Tuesday night is acted

sociation was attended by between 30 and 40 of Toronto's business men, with the newly-elected president, John A. Macdonald in the chair.

The above mentioned suggestion was first put in the form of a motion as one emans for theass ociation to improve the Toronto council. By hearing the various candidates speak it is thought that electors can size up those they will support.

Schemes for the enlargement of the membership list were discussed. Some were for circularizing, others for personal canvass and some for newspaper advertising. No definite arrangement was made however.

The appointed committee returned the twenty-seven names of the executive committee, representing men from each part of the city.
