## HOLLINGER AGAIN **ADVANCES SHARPLY**

Stock Makes Rapid Progress Toward Par — Beaver Shows Strength.

THE TORONTO WORLD

Predictions several days ago that Holinger would very shortly be selling at par seem in a fair way to be borne out: fact, one curb transaction of 10 shares at 5.00 yesterday was reported, while on the Standard Exchange the stock recorded a ten-point gain to 4.85, closing at the top, with 4.88 bid and 4.95 asked.

the top, with 4.88 bid and 4.95 asked. It is becoming daily more evident that substantial blocks of Hollinger can be secured only by raising the price, and the upward movement is beginning to take on rather impressive size.

The market as a whole was quieter with holders of stocks evincing little disposition to let go, and would-be buyers proceeding with caution lest they create something like a furore in this or that stock. Dome remained firm at 9.00 bid, and Dome Extension held well at 14½ on a continuation of the steady purchasing which has been so outstanding a feature for some days past. There is a "street" theory that the underground workings on the Dome have disclosed conditions which will ensure an early taking up again of the option dropped on the Dome Extension. MoIntyre eased two points to 1.42 on profit-taking, but confidence is felt that the slight setback is only temporary. Davidson firmed up ½ to 33.

Beaver was prominent among the Cobalts, rising another half point to 27½. Davidson firmed up ½ to 33.

Beaver was prominent among the Cobalts, rising another half point to 27½. It is announced that on the 300-foot level high-grade ore has been found thus bringing the upper levels of the mine into an interesting stage. High-grade ore is being produced on the fourth and fifth levels. McKinley-Darragh was ½ lower at 44, and Ophir off ½ at 6½.

Mining Corporation was strong at 2.70, no less than 55 points above the recent low level, illustrating the ease with which mining stocks respond when a little purchasing power asserts itself.

Rockwood Oil sold around 28. It is stated that there is a showing of oil in the No. 7 well twenty feet higher than in No. 6, or down about 180 feet. This is looked upon as an indication that the well will prove even more prolific than the majority of the others brought in thus far. No. 2 and No. 3 wells have been showing considerable increase in production in the past few days, In a 24-hour run on these wells on Thursday 179 barrels of oil were produced.

German Staff Officers Show Traces of Excessive Fatigue.

General Von Salzmann Admits Allies Have Superiority.

Amsterdam, Aug. 30.—Peculiar light on the reiterated German assertions that the retreat of the Teuton forces on the western front was prearranged on the western front was prearranged and carried out according to plan, without undue haste, is cast by A. S. Meyer, war correspondent of The Esen Allgemeine Zeitung, who gives an account of his visit to a high staff officer of General Von Hutier's army to whom he was referred for information. The officer, who had slept three hours at a stretch for days, showed traces of excessive fatigue. showed traces of excessive fatigue.

was endangered. A sudden stream of
telephone orders directed the retirement and the officer's story was cut
short.

"We had to leave hurriedly. We were to lunch with General Von Hutier but during the luncheon the telephone never ceased ringing and Von Hutler himself was hurriedly called away by a young orderly who was to have given us the rest of the story."
As the correspondent does not produce it the assumption seems to be justified that there is no story that Such incidents do not prevent Karl Rosner, generally considered the press agent of Emperor William, from declaring that superior leadership and skill are on the German side, and The Lokal Anzeiger of Berlin, finds it necessary to print in large cross column type this assertion from Rosner "Further developments may be await-

ed with complete calm.' Hysterical Appeals. On the other hand General Von Salzmann, writing in The Vossische Zeitung, makes hysterical appeals to Germans to set their teeth and to carry on. The German public, who so often have been told that France was at her last gasp, are now asked General Salzmann to remember that the boundless rescurces of the entente powers lie at France's back and that even the capture of Paris and Calais would not change this fact, and would not bring France to her knees.

"If we possessed those resources," Salzmann exclaims, "the Germans would long ago have been victors in Paris and all over the world." Paris and all over the world."

"One of the latest capitalists who announced himself as favoring the abolition of the tax-exemption feature is Commander J. K. L. Ross of Montreal. Commander Ross is the son of the late James Ross, who in his way was so well known in Montreal and Toronto Street Railway and contracting circles, more especially in connection with the electrification of the street railways, and who afterwards became president of the Dominion Coal Company, and in this capacity was a main factor in bringing about the litigation between that concern and the Dominion Iron and Steel Co., which finally resulted in the consolidation of the two companies as the Dominion Steel Corporation. Allowing for the dividend, the net loss from Thursday was only three-quarters of a point, but, compared with C.P.R.'s high level of last Saturday, the decline is close to seven points. The bulls apparently ran out of ammunition some days ago, and the poor C.P.R. statement of net revenue for July came at a rather in opportune time. Points.

Montreal, Aug. 20.—The approaching holiday and a quiet and irregular market in New York were both factors in restraint of business on the Montreal Stock Exchange today. Transactions fell off from about 10,000 shares on Wednesday and about 8000 on Thursday to less than 5000, while, with two exceptions, price changes were within the limits of a point. One exception was a three-point rise in Ontario Steel, with the other a two-point reaction in Laurentide.

Ontario Steel, after opening heavy at 29½, rose to 22% in the late afternoon. To the accompaniment of an active demand. The other stock to attain any considerable degree of activity was Canada Cement, which fluctuated between 68 and 68½, and closed 68¾, or ¼ up for the day, on transactions in about 1000 shares.
