It is Proposed to Appoint Medical Inspectors for Schools.

WHEN A CHILD IS ABSENT

The Medical Inspector's Business Contagious Disease in the Family -Stirling's Water Supply-Offal Fed to Pigs-The P. B. of H. Meet-

A resolution was passed urging that local boards will, in those municipalities where contagious disease exists, appoint medical inspectors to schools. A copy of the reso-The Provincial Board of Health opened lution will be forwarded every board of health in Ontario, and the assistance of the Minister of Education asked to have them sent to school trustees.

The board meets again to-day. its quarterly meeting yesterday; present, Drs. J. D. Macdonald, Hamilton (chairman), J. J. Cassidy, Vaux, Brockville; Bryce and Kitchen. Most of the morning was taken up with the consideration of was taken up with the consider. The au- CANADIAN STOCKS QUIET, with whom he discussed the military situathorities propose conducting the water from Oak Lake, 300 feet above the town, in iron pipes, the plant to be looked after

in iron pipes, the plant to be looked after by a competent engineer. As the water is to be used chiefly for fire purposes, the request was granted, the right to order necessary changes being reserved.

Can't Drain Into the Canal.

In the afternoon the board first considered a letter from Dr. Goodman, the health officer of St. Catharines, asking the board to stop the construction of a ditch between Welland and Port Colborne, for the purpose of draining the Humberstone Marsh into the Welland Canal. Dr. Bryce communicated with the Minister of Railways and Canals, who said there would be a natural objection to using the canal for drainage, as it is used for water supply. The board decided that the canal was not to be used for the present, and the matter was left sub judice.

Dr. Bryce presented the quarterly report of the secretary, which reported that this year had been marked by a low morbality from the several contagious diseases. It is thought probable that occasional cases of smallpox may be introduced into the province during the winter,

eases. It is thought probable that occasional cases of smallpox may be introduced into the province during the winter, and local authorities are advised of the danger from the general neglect to vaccinate school children with the preparation of glyverinated vaccine now becoming so general.

general.

The Deputy Registrar-General was grati-October, a total of 97 per cent. of the total population of the province. The board commented very favorably on this, giving credit especially to Mr. Lindsay.

Scarlatina in Toronto.

Scarlatina in Toronto.

Scarlatina has increased in prevalence, the chief centre being Toronto. It would be impossible to deal effectually with this disease until morning visits of medical men were paid to the schools, as in New York and Boston, and in case of an absence following up and learning the cause of absence. Parents very often would not of absence. Parents very often would not report a case, as they knew their house would be placarded and other children iso-

the Health Act, the rural boards have proved utterly useless for the purpose. Raw, putrid offal is systematically fed, although the animals are liable to selzure and a heavy fine for the offence can be levied. A very spicy letter was read from the Deputy Minister of Agriculture at Ottawa, describing such places,

To Hunt for Contagion. Regarding Dr. Bryce's recommendation to provide inspectors to follow up and locate cases of contagious diseases in the city schools, methods of operation in other cities were presented. In New York 150 doctors, living in the vicinity of the

PUT YOUR FINGER ON YOUR PULSE.

If it is Weak or drregular don't Hesitate to Start the use of Milburn's Heart and Nerve Pills at once.

The way the heart beats is an index of how the whole machinery of the body is going. With a strong, steady, regu-

lar pulse we may expect vigorous health. With a week, irregular, intermittent pulse we can tell at once the vitality is low—that Dizzy and Faint Spells, Smothering and Sinking Sensations, Nervous-ness and Sleeplessness and similar con-

ditions are bound to ensue. By their action in strengthening the heart and regulating the beat, toning the nerves and enriching the blood, Mil-burn's Heart and Nerve Pills relieve and cure all those distressing conditions just enumerated, and impart vigor and vitality to the system.

Mrs. B. Croft, residing on Waterloo

Street, St. John, N.B., relates her experience with this remedy as follows:

"For some time past I have suffered from pallor, weakness and nervous pros-tration, I had palpitation and irregular beating of the heart so severe as to cause me great alarm. I was treated by physicians, but got no permanent religit.

Milburn's Heart and Nerve Pills, and I am glad to say that from them I derived the first real benefit that I ever got from any medicine. My appetite is improved, my entire system toned up, and I can do no less than cheerfully recommend Milburn's Heart and Nerve Pills to all requiring a reliable heart and nerve tonic."
Milburn's Heart and Nerve Pills are 50c. a box, or 3 for \$1.25, at all druggists. T. MILBURN & Co., Toronto, Ont.

Miss Mary E. Hicks, South Bay, Ont., say s that Laxa-Liver Piliscured her of Sick Head-ache, from which she had suffered for mor than a year.

schools, every morning examined any suspected case. Dr. Bryce cited the report of the city GENERAL AS A REFORMER.

Dr. Bryce cited the report of the city of Boston on medical inspection of schools. In 1892 an appropriation was secured, but was delayed in 1803 and 1894, until diphtheria had assumed the aspect of an epidemic. The Board of Health, under the direction of the Mayor, then selected 50 physicians and divided the city into 50 school districts. An inspector finding a pupil showing a symptom of any contagious diseases would send the pupil home for observation. Out of 4962 pupils sent up for examination, 564 were found to be Matters That the New Commandant Is Considering

OWING TO OFFICIAL VISITS,

for observation. Out of 4062 pupils sent up for examination, 564 were found to be too ill to be at school, 212 were suffering from contagious diseases and 43 diphtheria. The figures before and after such inspection are as follows: Deaths in 1804 in Boston, from scarlatina 192, diphtheria 817; in 1805, the figures were 114, and 588; in 1896, the figures were 121 and 516. The question was then considered, the opinion of the board being that the idea was a good one. Extension of Period of Annual Like to Be Present at Each One-More Suitable Clothing for the Men-Improvement of the Cookery System-Local Storage of the

The World learned yesterday that since General Hutton's inspection of the troops at Toronto on Thanksgiving Day he has visited every militia headquarters in Ontario and met the officers of all grades, tion. He was anxious to obtain their views on several questions. As a result of these visits, he knows nearly every officer in the country, except the Far West, which he has

Three Propositions. There are three principal proposition that the General is considering : 1. To make the militia force more popu-

3. To make it bear less heavily on officers and men who give so much time to

In reference to camps of instruction, General Hutton will endeavor, if possible, to secure 16 days of training, owing to the

Nigara.

The most important feature of the General's proposals is that he has made up his mind to endeavor to arrange two matters which have been long-standing difficulties:
(1) Improvement in clothing; (2) an improved method of field cooking.

Cool Clothing.

The troops in camp hitherto have been compelled to drill under a hot June sun, which often registers 100 degrees in the open, in heavy woolen clothing, such as they wear in winter time. The General's idea is to supply a field service dress for their annual drills, either Karkee or serge. of absence. Parents very often would not report a case, as they knew their house would be placarded and other children isolated.

The Problem of Typhoid.

The problem of Typhoid.

The problem of typhoid fever was considered. It has been more prevalent during the past quarter than any previous quarter of the year, and was prevalent almost entirely in rural districts and villages, and due to the well systems, the same to-day as I years ago.

Piggeries Are Dirty.

The Department of Agriculture at ottawan was bas forwarded a report regarding the condition of large piggeries near Ottawa, where the city offal is fed. Conditions but little better exist in the neighborhood of all our larger fentree, and, in spite of the Heulth &ct, the rural boards have proved utterly useless for the purpose. Raw, putrid offal is systematically fed. although the animals are liable to selzure and a heavy fine for the offence can be

New York Gossip.

Henry A, King & Co., 12 King street east, received the following despatch to-day from New York:

The stock market to-day was broad to day was broad to despot heavy liquidations for the ballance of the London opperations, however, was on buying side. There were frequent displays of strength through the day, but the course of the rullroad list was reactionary in the afternoon. A striking exception was office were apparently based on talk of the business and transportation revival promised in the Southwest. A sharp campains the shorts carried Sugar up learly 5 per cent. John where the city offal is fed. Conditions but in the disadvantageous bridge regulations to come. The market closed irregular, but with the disadvantageous bridge regulations to come. The market closed irregular, but with the offence can be washed to the disadvantageous bridge regulations to come. The market closed irregular, but with the offence can be washed to the disadvantageous bridge regulations to come. of the disadvantageous bridge regulations to come. The market closed irregular, but not weak.

Post's Financial Cable.

New York, Nov. 29.—The Ryening Post's financial cable from London says:
Stocks were generally good here to-day at a slight revival of activity in all the speculative markets.

Stocks were generally good here to-day at a slight revival of activity in all the speculative interest in Americans undoubtedly grows, but opinions in the best quarters here as regards a continuance of the rise, are much divided. Those included to be pessimistic have an cye to the meeting of Congress next month. The feature to-day in Americans was the sharp rise and from Germany. Prices of Americans that the diling for gold on the open market, but it was outbid by Germany at 15.114d, and a large amount of Germany at 15.114d, a

The General is very anxious, too, that the new rifles should be given to each regi-ment's headquarters, if not in company stores, certainly in the regimental stores. Professor Goldwin Smith will deliver an address to the Browning Club this evening, upon the subject of "Strafford and his Times," in connection with the study of Browning's drama of "Strafford," which for two evenings will engage the attention of the club. Extracts from the play will be read, followed by discussion of points of interest arising therefrom. The club meetings are held in the lecture room of the First Unitarian Church, Jarvis-street, and a cordial invitation is extended to attend.

The Demon Dyspepsia—in olden time it was a popular belief that demons moved invisibly through the ablent air, seeking to enter it uo men and trouble them. At the present day the demon, dyspepsia, is at large in the same way, seeking habitation in those who by careless or unwise living livite him. And one the captaints of rural companies, in addition to this, get a large in the same way, seeking habitation in those who by careless or unwise living livite him. And one of a year from the coponels in the same way, seeking habitation in those who by careless or unwise living livite him. And one of a year from the coponels in the same way, seeking habitation in the same way seeking habitation in the Professor Goldwin Smith will deliver

Ladies' Coats and Capes.

Mr. Nicholas Rooney of 62 Yonge-street is advertising ladies' coats and capes, all German goods, imported this season. The prices range from \$5 to \$15. He also mentions linens of all kinds, including a large range of table-cloths, towels and handkerchiefs, all linen, but slightly damaged, off which he is giving a reduction of 25 per cent. to 50 per ceut, according to the amount of damage. This is an opportunity for ladies to get a good linen tablecloth at cent. to 50 per cent, according to the am-ount of damage. This is an opportunity for ladies to get a good linen tablecloth at

eral Hutton, will endeavor, if possible, to to secure 16 days of training, owing to the fact that at the end of the present term of 12 days in preliminary drill, and the use of arms, the men go home and do not have the opportunity of doing actual work in brigades. The General will do all he can to obtain the extra money this extension will entail from the Government. In this he believes he will be backed up by the millitia and will be successful; for, in fact, there has been no vote in recent years refused for the militia.

As to the camps, the General has alrendy arranged all the dates, and he will endeavor to so adjust the dates that he will be able to command every camp in person. In this district camps will begin about May 1. There will be three classes of camps—in fantry, cavalry, artillery brigades—and towards the end of the third class it is the General's intention, if possible, to have the city brigade go into camp for three days for field training, along with artillery and cavalry. This district camp will be at Niagara.

The most important feature of the General's intention, along with artillery and cavalry. This district camp will be at Niagara.
