

Day's Doings in Toronto

WEST TORONTO DOG IS SHOWN TO HAVE RABIES

Examination by Experts Makes Situation Serious—West End is Alarmed—County.

WEST TORONTO, Feb. 14.—Dr. Stark of the Dominion Dept. Inspection Department received a telegram from the West End, stating that a dog, which had been shot a couple of weeks ago, after wrecking the interior of the garage where it was confined over night, was actually suffering from rabies. The telegram stated that every one of the animals that were injected with serum from the dog's brain has since died of hydrophobia.

In view of this fact, Dr. Stark has notified the police to keep a watch on all dogs at present under quarantine, and the owners are requested to assist the authorities in their endeavor to prevent a spread of the present epidemic.

A meeting of the executive of the Humane Society Association was held to-night with the newly-elected president, W. McQueen, residing at 127 Dundas street.

BIRCH CLIFF.

Ladies' Auxiliary of Y. M. C. A. Are Entertained.

BIRCH CLIFF, Feb. 14.—(Special.)—One of the most delightful events ever held in this district was the social given by the Ladies' Auxiliary of the Y. M. C. A. at the home of Mrs. George Mitchell to-night.

NORTH TORONTO.

NORTH TORONTO, Feb. 14.—Councilor Lawrence and his daughter, Miss Winnifred, who is Kirby, chorister of Eglington Methodist Church, and George Dickson, Broadway, were the soloists in the choir of the church to-night.

SCARBOROUGH COUNCIL.

SCARBOROUGH, Feb. 14.—(Special.)—Breve Annis presided over today's meeting of the Scarborough Township Council, with Charles Leeve, Patterson and Councillors Law, Ormerod, and Green all present.

E. J. Park and William Kennedy, auditors, were given \$100 each. An apparent discrepancy in the returns submitted by the inspector was satisfactorily explained in a communication submitted by the inspector.

Dr. Hodgett urged that local council work with the department in an attempt to cope with the rabies trouble. Alex. Ellis of Hazelton Creek complained that he had done \$150 worth of work and got a rebate of \$150.

N. S. Dunlop, tax-commissioner, C. P. R., said value of railway lands in the township was \$400,000 and telegraph lines \$165, and number of acres 70.

Council will send the names and addresses of the members of the Association in York Council chamber on March 4 and 5. Assistant-Manager Wilson asked for rebate of taxes amounting to \$12.75, by reason of improvement to roadway.

Carson & Son were awarded the contract for printing the year book. A large number of gravelling accounts were ordered paid among them.

PILES Quickly Cured

Instant Relief, Permanent Cure—Trial Package Mailed Free to All in Plain Wrapper.

We want every man and woman, suffering from the excruciating torture of piles to just send the name and address to us and get by return mail a free trial package of the most effective and positive cure ever known for this disease, Pyramid Pile Cure.

The way to prove what this great remedy will do in your own case, is to just fill out free coupon and send to us and you will get by return mail a free sample of Pyramid Pile Cure.

Free Package Coupon

Fill out the blanks, lines below with your name and address, cut out coupon and mail to the PYRAMID DRUG COMPANY, 210 Pyramid Bldg., Marshall Mich. A sample of the great Pyramid Pile Cure will then be sent you at once by mail, FREE, in plain wrapper.

Name Street City and State

WESTON LIMELIGHT POPULATION GROWING

Western Suburb Attracting Attention as a Wealth of Home and Factory Sites.

"This is a pretty old village; why it has been dead for forty years." With this doubtful compliment, a resident of Toronto's nearest westerly suburb testified to the fact that Weston is no upstart burg, butting into the limelight on the strength of a new real estate map. "But," he added, "it is rapidly coming to life again, and you will see it develop into a pretty live town within the next two or three years."

Meandering along the winding streets of the village yesterday, The World man encountered a remarkable consensus of belief in Weston's reawakening. Such expressions of opinion came from persons who had lived all their lives in the village and had noted its progressive, retrogressive and comatose state. If there are any symptoms of returning life, these old-timers ought to be able to recognize them.

Some of the old-timers have caught the spirit of the times and are sounding the praises of Weston to the outsider. "Town boosting is the latest vogue," they thought in Weston, and is regarded by many of her staid residents with all the prejudice that ordinary people entertain towards a demonstration in the physical or a spiritual sense.

The first three persons that The World talked with drew from their pocket clipping from a Toronto newspaper of some days ago headed, "Watch Weston Grow," and exhibited it as if it were a live wire, mysterious and potential. "The burg, however, now lies itself up with the boomers. Speaking of Weston Grow," he added, "it is not only to be known to be appreciated, and that the place is on the eve of a healthy increase of population."

MaJ. Wadsworth, president of the recently organized board of trade, who displays on his business stationery, "Weston Mills, established 1828," has lined himself up with the boomers. He has three hundred acres of land and a handsome residence overlooking the water. "I have been in Weston for 32 years ago," he said, "and what the board of trade had accomplished in the few months of its existence, he cited 'continuous telephone service,' 'passage of the water bylaw,' and 'improved railway facilities.'"

Formerly the telephone office closed up along about sundown, but as a result of agitation, the village now enjoys telephonic communication with the outside world twenty-four hours in each day. The adoption of the water bylaw is regarded by Weston as a great boon. It means the termination of a pestiferous service of \$75,000, which will be ready about August 1 next. Water will be pumped from the Humber and put thru a double process of filtration before passing into the pipes.

Residents here always drawn back being about 10 feet down, preventing deep digging, and the water has been impure. A sewerage system is being installed, and it is almost a certainty that a sewerage system will follow the installation of a water system. "I will soon have a sewerage system installed," said Major Wadsworth, "and I believe our population will run up to four or five thousand within three or four years."

Several of the world's best homes in Weston, and I believe our population will run up to four or five thousand within three or four years. Several of the world's best homes in Weston, and I believe our population will run up to four or five thousand within three or four years.

Drawing From City. A number of Toronto business men already have comfortable homes in Weston, and a large number of working men live in the city and go out each morning to their work in Weston. The Moffatt estate, which employs 200 men, has half of whom live in the city. And there are others, making up a pretty hefty cargo for the six o'clock train to the city.

Under the new system and installations, a large number of these men will settle down in Weston and have hopes of owning a home in their own or rented houses. The World's Moffatt estate has taken a house in the village, as he found he could get a comfortable house at about \$1000. A rent charged in the profitable neighborhood of a large number of working men's houses in Weston right now," informed The World.

To city people who contemplate moving out of the congested area, is held out the inducement of a five cent fare by Weston to the Union Station. "If you will get a car from Weston to the city, you will save 25 to 25 minutes. The street cars take an hour to land one at the corner of Yonge and Queen, a distance of about 10 miles. The fare each way is 10 cents, with the usual discount by purchasing tickets."

After Weston's Trade. Delivery sleighs on the big city streets were seen on the streets in Weston, thus proving that there are no impediments in the way of bargain hunting. The afternoon cars were noticed, were well patronized by women apparently en route to the city on shopping expeditions.

Among Weston's industries other than those already mentioned are Packham's fruit and vegetable canning factory and model farm, the Taylor Chemical works, the Rex Sugar refinery, putting up cattle feed, bakeries and other C. P. R. or G. T. R. work of either whose trains make the trip in from 20 to 25 minutes. The street cars take an hour to land one at the corner of Yonge and Queen, a distance of about 10 miles. The fare each way is 10 cents, with the usual discount by purchasing tickets.

SIMPSON COMPANY LIMITED

From Mount Lebanon to Simpson's in the Land of Snow and Sunshine

A FAR Cry from the dusty summer slopes of Assyria and the muddy roads of the rainy season, when the winter wheat grows in the fields of Canada—"Daughter of the Snows," where summer comes in June and departs in September, and the air is cold and sweet with frost for six months of the year.

From ancient Assyria comes this weaver of rugs and mats, taking part in our Process Exhibition. From the land of mules and camels, from the country of little mud and plaster houses, with their earthen floors, from the site of the Biblical forest of Lebanon, wherefrom Solomon procured the timber for the great temple in Jerusalem—that great cedar forest reduced now to a mere remnant grove—from Beyrout comes our rug weaver, and his loom is the same as his father's fathers have used as far back as tradition goeth. They use a treadle loom and a shuttle for the larger rugs now in Assyria, most progressive of the countries of the Middle East; but for the mats they still knot each strand of colored yarn by hand where it crosses the warp.

And the yarn, that soft colored, indefinably toned wool that goes into these rugs—no modern chemicals seem to produce colors like those which give and glow in these rugs from Turkey.

"They are double dyed," says the Kazak Berwaz weaver, "died in Turkey. I don't know what stuff they make the dye with, it won't fade. Out in the sun it is very hot in my country. A rug lies out in the sun—it would fade—you think so. Yes."

This Process Exhibition includes ancient and modern carpet weaving, hand looms and power looms, carpet sewing by electricity, power, carpet sweeping by the dustless method, basket chair weaving, furniture upholstery, curtain making, designing and stenciling, and hardwood floor polishing by electricity. You are welcome to look, ask questions and talk to those taking part in this demonstration as much as you choose. Carpet-Curtain Dept., 4th Floor.

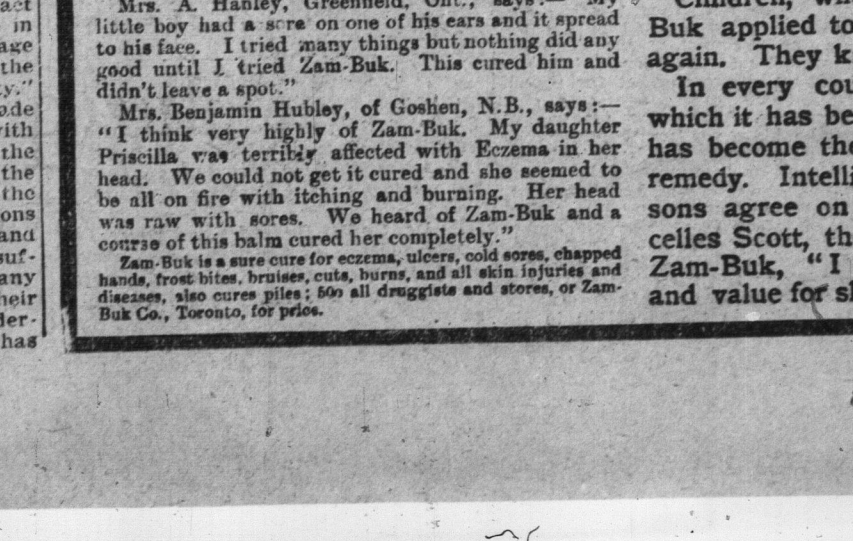

practically promised to locate a Canadian branch in Weston if assured that gas will be provided. So far as residence property is concerned large building lots in the heart of the village can be purchased at the rate of \$4 a foot frontage and up. Many of these available properties are of the finest scenery imaginable can be found. It is understood that a Toronto concern has secured 80 acres lying between the village and the city, for sub-division during the coming summer.

STRAINED RELATIONS Port Arthur and Fort William Again Quarrel Over Street Railway. PORT ARTHUR, Feb. 14.—Operation of the street railway by the two cities has again developed strained relations. Fort William has constructed a new extension on Montreal street, which crosses several railroad tracks, and Port Arthur objects to its being operated as part of the main system on account of the danger with subways or viaducts. The board will again appeal to the Ontario Railway and Municipal Board. Commissioner Rankin of Fort William threatens to resign if the extension is not operated, and head an agitation for division of the road.

The police commission has decided to refuse in future to allow the chief of police to give out monthly reports of arrests, because figures last time were so large that papers described Port Arthur as the most drunken city in Canada.

WHAT MOTHERS SAY ABOUT IT: Mrs. A. Hanley, Greenfield, Ont., says:—"My little boy had a sore on one of his ears and it spread to his face. I tried many things but nothing did good until I tried Zam-Buk. This cured him and didn't leave a spot."

Mrs. Benjamin Hubley, of Goshen, N.B., says:—"I think very highly of Zam-Buk. My daughter Priscilla was terribly affected with Eczema in her hands, feet, face, neck, chest, back, and all skin injuries and diseases, also cures piles; 50¢ all druggists and stores, or Zam-Buk Co., Toronto, for price.

TRUBLE AT LABOR TEMPLE Attempt to Organize a New Railway Brotherhood Frowned On. An attempt was made last night to form an organization, which, from the remarks of labor men who frequent the temple, does not meet with their approval. It is supposed to be a branch of the Canadian Railway Employees Brotherhood. The objection raised by union men is that it is not affiliated with any international movement and is really only a national character.

BLAZE IN HARNESS FACTORY Saddle Department of Adams Bros. Damaged to Extent of \$1650. Fire, which broke out in the saddle department of the Adams Bros. Harness Manufacturing Co., corner King and Front streets, yesterday evening at 8.40, caused a lively blaze and gave the firemen a tough job while it lasted. The fire was first noticed by one of the watchmen, who turned in the alarm from a box at the corner. It had a good start, however, and when the reels arrived had broken its way thru the windows. The fire was among the straw used to pack the saddles in when boxes for shipment, and the smoke made it extremely nasty to sight.

Want Union Wages. At the meeting of the Building Trades Council last night a resolution was adopted which will be presented to James Simpson and James Corcoran, representatives from the Trades and Labor Council on the exhibition board, requesting their influence to have the board recognize and pay union wages in all their departments of labor.

Provincial Treasurer Better. Hon. Col. Matheson hopes to be able to leave the Western Hospital by the end of the week. For a couple of days he has been up and walking round the room. His broken arm is still bound to an iron support.

Remembered Chorus Girl. Even in the gay and laughing life of stagehand, the ones who have had the last curtain rung down on them, are not forgotten. When the "Imperial" played at the Star last season, one of the chorus girls died and was buried in Mount Pleasant Cemetery. Today, Sim Williams, the manager, has made arrangements to honor the girl's memory by having the company place a large wreath on her grave. She was buried by the T. M. A.

PRIVATE DISEASES Impotency, Sterility, Nervous Debility, etc. (the result of colds, excesses, etc.) Gleet and Stricture treated by Cataplasms (the only sure cure and no bad after-effects). SKIN DISEASES, whether result of syphilis or not, are successfully treated by the use of Cataplasms and all other ailments of the skin. DR. W. H. GRAHAM No. 1 Clarence Square, Cor. Spadina

TELEGRAPHIC BRIEFS. Alexandra public school, which cost \$25,000, was formally opened at St. Catharines yesterday. At Edmonton, Alta., a mulatto named McCormick shot down his wife and sent a bullet into his own brain. With a wound in the base of her brain, the woman lies in the hospital in a dangerous condition. Rev. Victor Gilpin. Rev. Victor Gilpin, secretary of the National Sunday League, died yesterday as the result of an attack of either grippe or typhoid. He was a graduate of Victoria College, and was until a year ago pastor of a Unitarian Church at London, Ont. He leaves a widow and one child.
