58275—1—18

Anaemia, or blood turning to water, is caused by the heart becoming deranged, and if the heart becomes weakened it should. As a result the blood becomes impoverished, and it loses its nourishing qualities. The face becomes pale and thin, and the lips bloodless. There is a weakness, tiredness and loss of weight.

Will be of light draught, which will be a much poorer target than are the bigger ships which the submarines are genbuild these ships faster than the Germans can build submarines to sink them and, in my opinion, this plan will be a much poorer target than are the bigger ships which the submarines are genbuild these ships faster than the Germans can build submarines to sink them

Looking Over Situation Relative to Construction of 3,000 Ton Vessels

(Bangor Commercial) Col. E. C. Plummer of Bath, well

known throughout the country as a ma-rine lawyer and as familiar with marine matters as any man in the state, has been engaged in ascertaining what has been engaged in ascertaining what can be done in Maine in the carrying out of the government programme for the construction of 3,000 ton vessels. He says that in Bath at least twelve of the ships desired may be built as there are ship yards there which are adapted to this purpose and the foreman and bosses to currently the work. to supervise the work. He says government officials are ex

pected to visit Maine soon to ascertain just what conditions there are for the taking of contracts.
"If they can give us the material—and they say they can—and the laborers who are necessary," said Colonel Plummer a few days ago, "Bath can handle twelve of these ships. Boothbay Harbor, Thomaston, Waldoboro and Rockland can take can of receiving the Standard Oil Communication of t Rockland can take care of nearly as many, and here in Portland at Fish Jersey on Saturday announced a volun-110<sup>1</sup>/<sub>4</sub> 117<sup>8</sup>/<sub>4</sub>

"The Diessel engine electric drive is afternoon. The statement read admirably adapted for this particular kind of ship," said Col. Plummer. "It s so constructed that the skipper on the is so constructed that the skipper on the bridge can handle it direct, reversing one propeller and going ahead on the other and if necessary for a few minutes doubling the speed of the ship. This will enable them to avoid submarine attack better than any other kind of a ship. In addition to this the ships will be of light draught, which will be water, is a much poorer target than are the big-increases of pay ranging from 10 to 15 per cent. to wage earners at a much poorer target than are the big-increases.

watery blood start taking Mindia Heart and Nerve Pills they can see a change from the outset.

Every dose introduces into the blood those vital elements necessary to make it rich and red. The pale cheeks take on the rosy hue of health, the weight increases, and the whole being thrills with a new life.

Mrs. R. J. Grey, Fredericton, N. B., writes: "When I was a girl working at general house work I overtaxed my strength and became completely rundown. For over a year I was very bad with anaemia. A friend told me to try Milburn's Heart and Nerve Pills so I got a box and when it was done I felt and looked so much better I decided to get six more. When I had taken them I had gained not only in strength, but in flesh and color, and best of all was good health."

Milburn's Heart and Nerve Pills are 50c. a box; three boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

"Milburn Co., Limited, Toronto, Ont."

"Milburn Co., Limited, Toronto, Ont."

"Maine can do an immense amount of this work if her people set about it. All that work if her people set about it. All that will be required in the ship yards in Bath, for instance, are the superintendents and bosses, who are experienced men and a sufficient number of unskilled men and a sufficient number of unskilled men to help in the work. A few experienced men to supervise and direct the work will be all that is necessary. I believe that here in Portland you should get busy and agree to build some of these ships. I know that you have ship builders here; here, men who have had years of experience, and that is just what the government wants at this time.

"The ships are to be built of spruce or fir; it makes little difference what they are built of. They will stand up well under ordinary conditions for at least five or six years and in that time, of course, the war will have been end-course, the war will have bee

opinion, but the shipping board think they can get the labor and all they need of it by appealing to the labor unions and the patriotism of the skilled mechanics who are fitted for this work. With a capable foreman to supervise th Address A I have said, that Maine can turn out 25 or more of these ships the first six months and-after that when well orga-

wanted—with Par so Fort least ond hand dining table with at least quicker.

Apply, Furniture, care "I am informed as to just what the govplan will be but believe that the government will allow ten per cent. ove the actual cost of the vessel for thos who undertake their construction. ply O'Brien's, Church Ave., Fairville. I understand it the government is to expend West 254-11.

58113—4—20

The diagraph of their construction. As a understand it the government is to expend 50 millions of dollars in this work WANTED — USED FORD CARS—

was at once. Maine and Portland, can do nothing better than to help this production along for we have the men in know that Bath will do her part and more than her part and do it quickly and well."

STANDARD OIL MEN The Standard Oil Company of New point and South Portland I believe that tary increase in the wages of its re-you can find the space and the men for the construction of at least five more point and South Portland I believe that you can find the space and the men for the construction of at least five more. In all, I should say that Maine could build at least twenty-five of these 3,000-ton ships and turn them out rapidly after the work has been started.

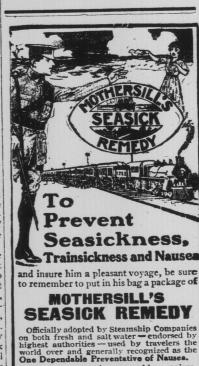

"I believe that the shipping board has the right idea on this thing," continued Col. Plummer. "What the allies need is food and supplies. To give them these things we must have ships. The type of ship which it is proposed to build will be those capable of carrying 3,000 tons. They will have, as I understand it, Diessel engines with electric drives and with a standardized engine. The General Electric Co.'s man at the shipping board meeting told the board that the engine could be turned out faster than the vessels could be built, no matter how fast they were built.

Easily Handled

The Diessel engine electric drive is the construction of at least five more and that a brief statement in which it was announced late yesterday afternoon. The statement read:

April 14, 1917.

The Standard Oil Company (New Jersey) authorizes the following announcement:
