WHEN BETTER AUTOMOBILES ARE BUILT  
McLAUGHLIN-BUICK WILL BUILD THEM

*rubber heels for the  
McLaughlin-Buick  
engine*

The McLaughlin-Buick Valve-in-Head engine now has "rubber heels."

Here is an engine completely insulated and isolated from all metallic contact with its chassis. Thick rubber cushions, fore and aft, absorb

noise, and save the engine from road shocks and strains.

Never, in all its successful years of motor car manufacture, has McLaughlin-Buick ever produced a car so far ahead of its field in performance and value as the 1927, McLaughlin-Buick.

Money can buy no finer performance, no matter how much you are prepared to spend.

## The Greater OAKLAND SIX

### with the Rubber-Silenced Chassis?

OAKLAND has done what no one else has succeeded in doing—improved upon Oakland Six quality. Among the 77 refinements incorporated in the Greater Oakland Six without any increase in prices are the following major developments, including the newest triumph of advanced Oakland engineering:

#### The Rubber-Silenced Chassis

—an epochal and exclusive feature, no less vital than the Harmonic Balancer, freeing the Oakland Six from the disturbing noise and rumbling found in ordinary cars, and permitting passengers to ride in quiet, cushioned comfort.

#### Smart New Bodies by Fisher

—retaining all of the admired Oakland Six characteristics, but revealing even more pleasing symmetry of line and contour; finished in new and strikingly beautiful, two-tone Duco color combinations.

#### New, Heavy, Crown Fenders

—handsome and distinctive in design and harmonizing effectively with new type side-shields and running boards.

#### Vital Engine Refinements

—including new camshaft; new valve spring retainers; new carburetor with single adjustment, and new oil relief and pressure valve—resulting in still greater smoothness and greater operating efficiency.

These are but a few of the high-lights among Oakland's 77 refinements—and are in addition to the Oakland Six's many other advanced features, including Four-Wheel Brakes, air cleaner, oil filter, full-pressure oiling, and interchangeable, bronze-backed bearings.

Come in—see this Greater Oakland Six—drive it—prove to your own satisfaction that it occupies a position of unquestioned leadership.

Ask about the GMAC Plan of buying an Oakland car on time.
