London's Beauty Writers

Weekly Selections from Noted Beauty Experts Writing for the English Press. Simple and Effective Methods.

By OLGA AMSDELL, Special Correspondent, London, Eng.

Each week in this department I will endeavor, by careful clipping from the London papers, to keep my Colonial readers informed on the latest and best advice of the London beauty experts. Owing to the persistent demand most London newspapers and periodicals are now devoting much space to the serious consideration of beauty culture. Many of them now employ high salaried experts to advise and instruct in methods most efficient for enhancing or restoring beauty of face and figure. I append herewith a few clippings from leading English publications. Any of the ingredients mentioned could be obtained from Canadian chemists or druggists, so I am told. Look out for more hints next week. I shall endeavor to keep right up to date.

For Straight, Lank Hair.

The woman whose hair has been burnt dreads the hot curling iron. She will welcome the information that a simple product to be found at any drug store will not only give her tresses the desired wavy effect, but without burning, discoloring, streaking or injuring hair or scalp in any way. It is nothing more than plain simmerine in liquid form. It should be applied to the hair with a clean tooth brush, preferably at night. In the morning the hair is beautifully wavy and curly, having the appearance of perfect naturalness, no matter how the hair is done up. As the effect lasts many days, one need not get more than a couple ounces of the simmerine. This, by the way, is neither greasy nor sticky.

The Powder Puff Passes.

Every normal woman is always interested in any plan by which she can quickly enhance her beauty, provided the plan is perfectly safe and simple. Ever since the discovery that ordinary cleminite, such as any druggist can supply, is an instantaneous and harmless beautifier, there has been a growing demand for it from smart women everywhere. They usually get about an ounce and add just enough water to dissolve it. A little of this perfectly harmless lotion gives a beautiful complexion to any face instantly. It renders face powder quite unnecessary. Moreover, its use cannot be detected. The skin is instantly beautified but appears perfectly natural under the closest scrutiny.

A Novel Shampoo.

The stallax mixture is a simple home-made shampoo which takes out all excess of oil and dirt and cleans each strand so thoroughly as to keep the lightest hair from turning dark. An original package of stallax granules, which is the way druggists usually sell it, contains enough for twenty-five or thirty shampoos. To use, simply dissolve one teaspoonful in a cup of hot water. This is plenty for a thorough cleansing, with beautiful fluffy results. There is nothing to equal it for a shampoo.

Killing Superfluous Hair.

It is easy to remove superfluous hair temporarily, but to remove it permanently is quite another matter. Not many women know that for this purpose such a simple substance as powdered pheminol may be used, applied directly to the hair. The recommended treatment is designed not merely to instantly remove the hair, but also to eventually kill the roots entirely. Almost any druggist could supply an ounce of pheminol, which quantity should be sufficient.

Are You Losing Your Hair?

A simple tonic that can be easily made up at home and which is highly recommended as a hair grower, is within the reach of everyone. It stops the hair from falling out, clears the scalp of dandruff, and leaves a clean, tingling sensation which is a sure sign of healthy action. Get from your druggist one ounce of pure bornanium and ¼ pint of bay rum, mix together and add sufficient water to make a half pint. This quantity will last you several weeks, so it is economical, as well as effective. It should be applied to the scalp at night with the finger tips.

Eyelash Magnetism.

The mere curl of a woman's eyelash always has had and always will have a powerful influence in the world. There is something wonderfully magnetic about beautiful eyebrows and lashes, no matter how plain the face may be. In days gone by women used to clip their lashes to make them grow longer and stronger, but as this proved generally unsuccessful, the practice has been abandoned. Smart women of today produce the desired effect by using a very delicate and perfectly harmless pomade-like substance known to druggists as mennaline. It may be applied at night with the finger tips to increase and darken the growth of eyebrows and lashes.
