BETTER COALING PLANT
TO BE GIVEN HALIFAX

(Halifax Chronicle.)

Alexander Dick, general sales agent, and Andrew Mackenzie, superintendent of the Dominion Coal Company, arrived in this city yesterday, and made an inspection of the company's wharf, accompanied by W. R. Morrow, a Morning Chronicle reporter. Mr. Mackenzie last night regarding recent complaints about delay in bunkering steamers at Halifax and learned that the object of the present visit of the officials is in connection with plans for improving the facilities of the Dominion Coal Company at this port.

Plans have already been prepared for the installation of modern up-to-date machinery for quick handling and storage of coal. The coal company is aiming at discharging ships of 7,000 tons capacity in twenty-four hours, and also loading coal into fueling scows, and placing it in ship's bunkers at the rate of 150 tons an hour. It is also proposed, in order to meet the rapidly increasing demands at Halifax, to provide storage room for 20,000 tons of coal. When these improvements are completed this port will be equipped to handle coal as fast as any of the coaling stations of the Atlantic seaboard.

TOMMY HOWE TO HALIFAX

Moncton Times.—Tommy Howe, of St. John, has been spending a few days in the city renewing acquaintances. While in the city he was a guest of Mike McDonald. Both played on the Fredericton Tartans when that team was in its prime. Tommy left this morning for Halifax, having received an offer from the Standards.

(Halifax Chronicle.)

An Ottawa syndicate headed by J. Tobin has purchased the McCarty property at West St. John. There are about five and a half acres of land and it will be divided into forty building lots. The property is situated on a gentle slope overlooking the harbor to the southeast of the Martello tower and is attractively situated with easy access to the street cars.

LATE SPORT NEWS

New York, April 29.—The poor physical condition of many ball players in the major leagues, caused by the cold and damp weather, has resulted in an agitation to curtail the playing season. Though this season is but two weeks old, the intolerable weather conditions have caused several club owners to declare that there should be a radical reform in the making of schedules. Not only have players felt ill effects from the weather, but the fans have stayed away and gates have suffered. Records from the clubs in the big leagues show that attendance figures fall below the mark of other years. The playing form of the big league clubs is also below the standard, except in one or two cases.

Chicago, April 29.—Jack Johnson, heavy weight champion, returned to Chicago last night from Pittsburgh, where he was hurt in an automobile accident last week. Johnson is suffering slightly from his injured shoulder, but does not believe it will interfere seriously with his training for the Jim Flynn match at Las Vegas, N. M., on July 4. Johnson said he would begin light work today.

SPECIALS THROUGH

Three special trains passed through the city this morning carrying about 1,500 passengers from Halifax for the west.

ISLAND CAME OUT OF ORDER.
The steamer Empress of Japan, which was telephoned to leave for the morning, is out of order and will not be in use until the government steamer rises. It can reach this port and make repairs. In the meantime connection is established by means of the cable with the morning Marconi service. As the Marconi has first call on the line this may cause a little delay at times in getting the other island telegrams.

STEAMSHIP NOTES

Steamer Empress of Japan arrived at Hong Kong on April 28.

Steamer Montserrat has been reported by wireless 1185 miles from Quebec at half past twelve o'clock on Sunday morning. She is due at Quebec at noon on Thursday.

Wireless reports of the steamer Lake Manitoba show her 110 miles south of Cape Race at half past ten o'clock on Sunday evening. She should reach Quebec on Wednesday night.

YARMOUTH HARBOR

Yarmouth Times.—Mr. Dowell, with two other engineers from the department of public works, arrived here on Wednesday afternoon and the following morning, accompanied by Marine Superintendent MacGregor, visited Sallow Rock. It is said that after Mr. Dowell makes his report to his minister, Hon. F. D. Monk, arrangements will be made for removing the rock, a boring machine being brought here for the purpose.

NOT SO MANY.

The market season, which is now closing has not been so profitable for the hunters as the previous year. During the season of 1910-1911 prices ranged as high as ninety cents but this year the market value did not go higher than half a dollar. It is probable that this had some effect on the activity of the hunters for the number of skins handled by local men was not nearly so large as during the previous season.

MARRIED HERE.

The last chapter in an interesting story, opening in old England, was closed on Saturday evening in this city, when Elizabeth James Bennett, of Montreal, was married to Miss Ursula Walton, of Highgate, London, Eng., who had arrived in St. John but a few hours before, aboard the steamer Empress of Britain. The ceremony was performed by Rev. J. E. MacKinnon, pastor of St. David's church. Mr. and Mrs. Bennett left yesterday for their future home in Montreal, where the groom is a chartered accountant with a British company which lately opened offices there. He has been in this country for several months.

CHILDREN SAVED IN
TITANIC DISASTER
ARE IN NOVA SCOTIA

(Yarmouth Times.)

A brother of two children who were saved in the Titanic disaster came to Yarmouth from Liverpool for the purpose of meeting the little ones, and on his arrival he learned of what had occurred to the great ship.

The children, who are Syrians, were residing in Cherbourg, France, went to Southampton, and, with perhaps a dozen relatives, boarded the ship on their way to this country. The boy is but nine years old and knows but little of what took place after the ship came to grief, but his sister, who is four years older, was able to tell the Times a fairly well connected story.

Through her uncle, L. J. Shedd, Main street, she gave the Times practically the same story told by other survivors. She was one of the last to leave the ill-fated vessel. Her little brother was thrown into the same boat.

On Thursday morning, with their brother, they left by train for Liverpool, where they will reside.

HOMER D. FORBES

TO CLEAN HOUSE WITHOUT
DISQUIET TO THE FAMILY

It is a mistake to begin housecleaning too early in the season. If it is done while winter is still with us, dust will accumulate again from the furnace, mud will be tracked into the house and the bright days of real spring will be met by rooms already grown dingy.

OUTLINES OF HOUSEKEEPING PLAN.

First week—Take down and launder all wash curtains, dresser covers, pillow tops, etc. Clean closets, launder blankets, put away winter clothes and bedding. Go over the contents of the linen closet and lay aside for repair or bleaching any table or bed linen which needs it. Order a supply of good canned vegetables, meats and fruits, nuts, crackers, small cookies and doughnuts for cleaning week. Send any furniture which needs repairing to the repair shop. Send away all rugs or carpets which demand repair, cleaning or dyeing.

Dispose of all useless junk. This may be agreeably accomplished in the following plan: At 45 cents and the work of preparation for housecleaning, write out a plan for the next week's work, including meals and do some baking which will last for meals through the week. If this is done and everything necessary for the meals ordered, the work of housecleaning will be much easier. The working outline must be altered to fit the conditions. The plan of work given here is for a housekeeper who has one helper, with the laundry work done at home. Necessarily changes must be made for the housekeeper with no help at all, or one who has a cleaning woman by day.

Monday—Wash.

Tuesday—Iron.

Wednesday—Clean one room.

Thursday—Help her day out. Housekeeper bakes, does usual housework and gets out for a few hours.

Friday—Clean one room.

Saturday—Clean one room.

Sunday—Simple meal and rest.

Saturday night there will be three rooms thoroughly cleaned and settled. No one will be laid out in the morning.

OFFICIALS DEPART

The spring exodus of winter port employees has commenced. Of the passenger staff of the C. P. R. Messrs. Sarasin, West, Deble, and Fontaine the ticket department and Interpreters Brunstrom and Roth have already left for Quebec.

"Say, old man, don't get disheartened just because your first investment went wrong; the market is full of good things and if you will come down to the office I'll give you a pointer."

"That won't do me any good; what I want is a retriever."
