(Canadian Press) London, July 8.—The King, acting on the advice of the cabinet, has cancelled his proposed visit to the East End on July 17 to see the first sod of the Albert Dock extension. While the official announcement gives no reason for the decision, the dock strike and the threats of the strikers to hold a demonstration during their Majesty's progress through the East End are believed to have influenced the cabinet.

BIG FIRE OUTBREAK AT GRAND MANAN Loss of \$30,000 at North Head—Bank of New Brunswick, Customs House and Five Dwellings Among Buildings Burned

News of a serious outbreak of fire, which was discovered last evening about eleven o'clock at North Head, Grand Manan, was brought here today by the steamer Grand Manan. The loss is about \$30,000, it is estimated, and up to this morning the fire was still burning though practically under control. Five dwellings had been burned, mostly to the ground, the branch office of the Bank of New Brunswick was destroyed, along with the customs house, some fish stands, wharves, etc. The fire broke out in a building near the water front, but it is not known how or exactly where. The flames spread quickly and before long the homes of E. H. Watt were in flames. His house and store were burned and the fire raged until it had enveloped his mother's house, and the homes of Chas. Dickson, F. Redmond, the fish stands of Thomas & Thomas, the Grand Manan Fishing Co., the stands and building of Lorenzo Watt, and the customs house.

TWICE AS MUCH MORE IS COMING Equipment at Courtesy Bay Nothing to What Will Be

Although the equipment they already have on hand outrivals anything that has been in use around St. John before, the Courtesy Construction Company has twice as much more coming. Another locomotive is on the way and three more are to come. A second steam shovel, as big as the 110-ton machine which is already on the job will also be brought here. They will also have another steam crane and about twenty air dumping cars besides a lot of smaller equipment. So far, one of the officials said today, they have merely been clearing the way to begin work in earnest, and as soon as the ground is ready for the additional apparatus they will begin work on a much larger scale.

HIS FIRST MASS Large Gathering in St. Peter's When Rev. Joseph McLaughlin Officiates

One of the largest gatherings ever assembled in St. Peter's church filled it to overflowing yesterday morning at ten o'clock when Rev. Joseph McLaughlin, newly ordained Redemptorist priest, of this city, celebrated his first mass. The building was beautifully decorated and the centre aisle was spanned by three handsome floral arches while over the middle of the altar entrance was an arch bearing the inscription "Sanctus, Sanctus, Sanctus." In lengthy procession about the church were a large number of the married and single men of the parish, the altar boys and the priests. The young priest was assisted at his first solemn high mass by Rev. John Burke, C. S. P. of Chicago, Rev. Charles Finnegan, of Massachusetts, Rev. A. J. O'Neil, arch-priest and Rev. A. J. Duke, C. S. R. as minister of ceremonies. The sermon was preached by Rev. Father Parr, C. S. R., of Roxbury, Mass., and it was a most beautiful and inspiring discourse on the Dignity of the Priesthood. He referred to the sacredness and nobility of the office which the young priest had adopted as his vocation, devoting his career to serve his Master and spread His teachings as He had commanded. He must sacrifice his home life and devote himself to the work which God had ordained for him. Father Parr spoke of the importance of the event in the new priest's career, when he was empowered to perform the sacred act of consecration, and with the power of God, change bread and wine into His body and blood. The speaker dealt with the noble sacrifice made by the family of the young man and referred feelingly to their lofty ambitions in aiding him to become a priest. The sermon was listened to with the keenest possible attention by the large congregation and there were many moistened eyes during its delivery.

MOVEMENT IS BEGUN BY ROYALISTS Check by the Government Forces in Portugal is Early Reported

London, July 8.—The long expected royalist movement began yesterday, but, according to official information it has been checked. The outbreak was confined for the most part to some small districts in the north. Telegraphic communication, which was cut at Vila Real and Beja, has been restored and the railroads have been cleared of obstructions. It appears that Captain Conde, the royalist leader, with the bulk of his forces, well armed, is encamped near Montalegre, but the government has troops along the frontier capable, it is announced, of exterminating the royalists if they show fight. An official note says that the garrison at Montalegre has been reinforced and has stopped the advance of 400 royalists under Colonel Cocciere. Another small band, however, is advancing along the road from Verim, and a column has been sent to Chaves to arrest its progress.

Mrs. Fraser, with her husband, stayed overnight at a farmhouse recently purchased by Mr. Fraser as a summer home. The sister, who did the shooting came over the evening previous to visit them, and asked that Mrs. Fraser accompany her to her home, a few miles distant. Mrs. Fraser objected to the proposal and her sister, drawing a revolver, fired two shots, the first grazing the arm and the second lodging in her leg. Mrs. Fraser disarmed the woman, who seemed not to realize the seriousness of her actions. Mrs. Fraser was driven to town and placed under the care of a physician. Miss McLennan was arrested. The latest idea is clothing made of paper."

NEW MILITIA CAMP FOR NEW BRUNSWICK Sussex Site Declared Not Adequate—Colonel Humphrey Speaks of Plans

The plans for a new militia camp for the New Brunswick forces to supplement Camp Sussex, which, it is declared, has become inadequate, are beginning to take definite shape, although the land has not yet been secured. Colonel Wm. M. Humphrey of Halifax, who arrived in St. John this morning to conduct the annual inspection of the 2nd Regiment of Fusiliers this evening, said today that the department is endeavoring to locate a suitable place for the camp. As its chief use is to be for the artillery forces, a large amount of room is needed and they want to secure an area about five or six miles in dimensions. This would give opportunity for maneuvering for the horse artillery and would be sufficient to provide them with a land range. Owing to the amount of room required there may be some difficulty in securing just what is needed and it will probably be necessary to take wild land that will require considerable clearing and preparation before it is ready for use. When they do start to open up, more than one summer's work before the new camp will be ready for the troops.

WORLD'S RECORD WAS BROKEN; ONLY FEW PEOPLE KNEW OF IT

Stockholm, Sweden, July 8.—Only a few persons on the riverside stands at the Olympic games realized that a world record had been made when Kabanamku won his heat in the 100 metres swimming race in one minute 2.3 seconds, and no demonstration of the water and walked to the dressing room almost unnoted, while the fellow-countrymen of other swimmers were bundling them away in bath robes. No such cosmopolitan population ever assembled over a small city as is gathered here. Every imaginable language is heard and everybody is good-natured and animated with the game spirit. The sports thus far have not been marred by any brawls. The only adverse criticism by visitors is on account of the Swedish committee men who fill the arena and cannot resist the temptation of coaching and encouraging their favorites.

Solid brick buildings, mostly residences, where the majority of the fatalities occurred in Regina. The people were killed by falling bricks.
