

MISSION AT MUNCEY.

SOME very interesting accounts have been received from the Rev. E. Adams, respecting the state of this Mission; he says, "the number of the Natives is 700—the number in society is 108 natives, and four whites, embraced in five classes—the number in the school is 30, besides several children of Pagan Indians, who occasionally attend;—and the Pagans are more anxious to have their children instructed than they formerly were." Mr. Adams further says, "that last year it appeared as though the powers of darkness were combined against us. The Pagan Indians gave themselves up to drunkenness far more than they ever had done since a Mission had been formed among them, and after all our efforts to prevent it, several of the Christian Indians were ensnared by them, some of whom we were under the necessity of expelling from the society. This year, I am happy to say, our prospects are more promising; the members are faithful, firm, and zealous, and the Pagans, who last year were resolved not to become Christians, nor to listen to the Gospel, but whose zeal seemed to increase in the service and worship of devils, in proportion to our zeal and efforts to reclaim them from the error of their ways; but blessed be the name of the Lord Jesus, to whom God has promised the Heathen for His inheritance, these Heathen are now made willing and anxious to hear the word of life, as one of them observed to a Native Exhorter—'Last year you wanted to tell us about the Christian Religion, but we did not want to hear, now we're ready to hear, and if we are not instructed how to serve the Great Spirit right, it will be your fault.' Within a few weeks past I have baptised 14 native adults." Mr. Adams strongly recommends a Missionary, with an Interpreter, being placed at this Mission, without having any other charge, and has strong hopes that in the course of time, the whole of this large, but deeply depraved settlement of Indians, will be brought to a saving knowledge of the truth.

SAHGEENG MISSION.

THE labors of the Missionary at this station, have been unremitting during the past year, and they have been crowned with great success, remote as it is from the settlements of white people; great inconvenience has necessarily attended his efforts in many respects,
