Fight for Tien Tsin. Lendon, June 27.-A special dispatch

from Chee Foo says: "The fight of the allied force against the combined Boxers and Chinese solchers, barring the road to Tien Tsin, spened at daybreak. One hundred and any Americans were among the 2,000 international troops. The Chinese sooa broke under heavy shelling and then the arsenal was attacked and the guns were gradually silenced. The fight was practically over at noon.

The keen friendly rivalry for the honor of first entering the city resulted in the Americans and British going in neck and neck, with the others close up.

Preparing to Leave Pekin.

Washington, June 27.-The Chinese minister called this morning on the secnetary of state and communicated to him the contents of a dispatch which he had neceived from the Tsung Li Yamen, at Pekin, dated the 19th inst. The dispatch states that the foreign ministers had before this date asked permission for the legation guards to enter the city. which permission had been granted, that they subsequently asked that these guards be reinforced, which the Chinese government was not disposed to permit.

The dispatch then goes on to state that the consul-general at Tien Tsin, supposed to be the French consul-general, had telegraphed to the viceroy of Chihs Li, that the foreign general had demanded the surrender of the Taku forts, and that the foreign ministers were secretly to leave Pekin for Tien Tsin with their guards.

London, June 28.-Admiral Seymour has probably been saved by the com-posite brigade of 2,300 men who raised the investment of Tien Tsin and then do not quarrel among themselves. I aushed on to help him; but the news has doubt whether any one among us would not yet reached Chee Foo, the nearest wire point.

The last steamer brought this message. dated Tien Tsin, Monday, June 25th: The Russian general in command of the relief force had decided, in view of Saturday's heavy fighting and marching, that one day's rest for the troops was essential, and that the advance should not be resumed until to-day. Meanwhile came Admiral Seymour's heliograph that his position was rendered desperate and that he could only hold out two days. The relief started at dawn to-day (Monday)."

Saturday's fighting began at daybreak, The allied forces opened with several of the Terrible's 4.7 naval guns, six field guns and numerous machine guns, the firing being at long range. They contimed to advance steadily, the Chinese actillery replying. The guns of the allied forces were more skilfully handled and put the guns of the Chinese out of action one by one, the Chinese retreating

Several thousand Japanese have left for Tien Tsin and altogether 13,000 Japmese have landed. The international troops now aggregate nearly 20,000, and Lapan is preparing to send 20,000 more. With British, American and other troops ordered to go, probably 60,000 men will he available in a month.

The Tong Shan refugees and the foraign engineers at Chee Foo estimate the ese troops now in the field as 25,000 drilled troops at Latai; 25,000 at Shan Ksia and 150,000 at Pekin.

The dispatch received by the foreign office stating that the foreign legations were requested to leave Pekin within a specified time is interpreted in some un-official quarters as tantamount to giving the ministers their passports and as tan-tamount to a declaration of war, but as China does nothing like other nations. the official opinion is that there is nothing to do but await the course of events and see what the ministers themselves

According to advices from Shanghai, the Chinese officials, by direction of the southern viceroys, are asking the consuls to agree to conditions "insuring," as the Chinese says, "the neutrality of Manghai and other coast cities." They are also asking that foreign warships shall not sail or anchor near the forts nor go near the ports where there are warships; also that their crews shall not go ashore, and that the protection of foreigners be left to the Chinese au thorities. These conditions are consider ed at Shanghai to be virtually an ultimatum from Viceroys Liu Kung, Yih and Chang Chih Tung. The consuls de-

Hampered With Wounded.

London, June 27.-The parliamentary secretary of the foreign office, Mr. William St. John Broderick, in the House of Commons to-day said he was at last able to announce the receipt of information of the relief of Tien Tsin. He stated that the government had received two telegrams, one from the British consul at Tien Tsin, wired on the 23rd, by way of Chee Foo, June 27th, an-nouncing that a British column 550 strong, under Major Maurice of the Welsh Fusiliers, and the naval brigade under Commander Craddock, had ar-The message stated that 1,500 Russians were reported to be at Tien Tsin railroad station, and that 100 Americans and 50 Italians had also arrived. Expedition Returning to Tier Tsin-Fate of Foreigners at Pekin Unknown

(Associated Press.)

London, June 28 .- As was the case o the occasion of the relief of Tien Tsin the Associated Press was able to give the foreign office; the admiralty and the I. Queen the first news of the rescue of Vice-Admiral Seymour.

The officials were greatly relieved when this information was conveyed to them, and expressed their hearty appre- Burghers Sweep Down on an ciation at the communication of the im portant and welcome tidings...

At the same time it is recognized that the advices of the Associated Press from Chee Foo also add to the anxiety regarding the fate of the legationers and foreigners of Pekin, who, it was hoped, might be with Seymour.

The world again has to depend on rumor in regard to the fate of the supposed exiles from the Chinese capital. It is generally accepted that they have been compelled to leave Pekin, but whe ther coastwards, under a Chinese escort, or as hostages on the way to the possible new capital, their plight must excite the gravest anxiety, as even if they are in the care of a Chinese escort this is hardly considered a good guarantee of safety of the "foreign devils" in a country swarming with their most virulent enemies.

A telegram from Jardine Matheson & Co., dated Shanghai, this afternoon, suggests that ministers are still at Pekin, but admits that there is no news from the capital. The telgram adds: "Seymour arrived

at Tien Tsin with 312 of his force wounded, besides 62 killed." The damage done to Tien Tsin has een much exaggerated. Shanghai is

Other dispatches from Shanghai reiter ate the announcements of the massacre of native Christians in the inland districts, which are worse than the Armen ian horrors. Belcourt pre sented to parliament to-day the report They Refused to Allow Him to of the select committee appointed to i vestigate the charges of Mr. Monk against the Minister of Militia in connection with emergency rations supplied the troops in South Africa.

The report completely exonerates Dr. Borden. It shows that the food was equal to the sample by which it was sold. The statement made in the charge that the food was paid for before delivery was wholly without foundation. The goods were delivered at Halifax on the 19th and 26th of January, while the payment was not made until the 14th of February. The charge of negligence against the minister because he did not act on Hatch's complaint was equally without foundation as the food supplied was equal to the sample, and that tested at Kingston.

And when one whom the have chosen to treat as a political enemy was called upon, they expected me t adopt an altogether different attitude to ward him. Had my hands not been tie

But e that as it may, the fact remains that the province has just gone through an exhausting and unsettling political campaign, and I believe it to be now in the interests of all that until the present governmen have had time to pass necessary estimates and private legislation, and to enunciate a policy, they should not be opposed.
