HOW DO

Its a very contented good na-

tured firm which salutes you. EVERYBOBY. steadily growing business and good natured because it has always paid its way. Not that we have always had our own way unopposed. Far from it. But we have ever sold good honest goods in a straightforward way, doing business to make money and knowing that the best way to succeed was to deal with others as we

would like others to deal with us. That means to give good value for the money you get.

Well, we are in better trim to do business this year than we have ever been before. For we are into our own new brick building 40x75 feet, which we built in Moncton last year, directly opposite the market. Behind the brick building and connected with it by a bridge ten feet wide, we have another warehose 40x 44, two stories high and use it and the upper stories of the front building exclusively for our business. Here we receive CAR LOADS of ploughs, Harrows, Mowers, Rakes, Carriages, Churns, etc., etc. and re-ship to local agents in Westmorland and Kent Counties, as well as

ell there to people direct. In Newcastle we own and use another warehouse on the Public Wharf for supplying all our customers and agents north of that.

At Woodstock we own and use a fine building on Main Street, next above the F. C. B. Church, in just the same way, to supply the upper St. John River trade, and have another building at Bath Station on the N. B. R. for local business on that side of the river.

Lastly we own and occupy a substantial warehouse ust opposite the Post Office at New Carlisle, P. Q. rom which point we distribute machinery and Carrages to customers in Bonaventure and Gaspe counties on the Bay of Chaleur.

With these facilities and buying in very large quantities at rock bottom prices, we believe we can outell everyone else in our line at lower prices, and intend to try and prove it to every buyer this season

JOHNSTON & CO.

Moncton, Newcastle, Woodstock, N. B. and New Carlisle, . Q., with 50 Agents in adjoining counties
