## MOROCCO IS QUIET NOW BUT OUTBREAK IS FEARED

France and Spain are Sending More Troops to the Country  
Recent Fighting May Lead to Further

PARIS, Aug. 9.—The official reports received here from Casablanca on the West Coast of Morocco, practically confirm the statement made in the press dispatches regarding the bombardment of the town and its vicinity and the scenes which followed, but according to the latest advice quiet has been restored. A large portion of the town is in ruins and it is feared that the events at Casablanca will produce an outbreak of fanaticism throughout Morocco, though the government's reports say that no undue effervescence has been far occurred at Fez or other places in the interior. In addition to the French squadron, commanded by Admiral Philibert, and the Spanish warships, which are off Casablanca, the squadron commanded by Admiral Jauriguiberry, consisting of the armored cruisers Leon Gambetta, Dupet, Thouras and Admiral Aube, is being temporarily held off Cape Spartel in order to meet any emergency.

Neither France nor Spain has yet officially considered the possibility of its being necessary to send a punitive expedition into the interior.

TANGIER, Aug. 9.—Tranquillity has been restored at Casablanca and the fanatic and hostile tribesmen who invaded the city had been driven out when the French cruiser Forbin, which arrived here this morning, left the port. All Europeans and others who sought refuge on the steamers in the bay have returned to their homes. Much of the city of Casablanca is practically in ruins as a result of the bombardment, even the quarter being extensively damaged, the warships having directed the fire of their guns on that part of Casablanca with the intention of effecting an extensive looting in which the Moors were reveling. The bodies of those

who were killed in the recent fighting have since been piled up in the streets and are being buried as quickly as possible.

Four battalions of Spanish infantry, with rapid fire guns which have been stationed at Algiers, near Gibraltar, have been ordered to proceed to Morocco.

In response to the urgent request of the British consul at Mazagan a short distance from the southwest of Casablanca, a steamer was today despatched from here to that port.

The Spanish cruiser Rio de La Plata from Cadix has arrived at Casablanca to reinforce the international fleet.

Casablanca is now in complete possession of the French and Spanish forces. Of the former about 2,000 are ashore and others are ready to land at short notice. It is believed that it will be necessary to reinforce.

On No. 1 site two big boulders were met with. A hose filled with dynamite was placed round one and exploded. It did not succeed in breaking the boulder, however, and a long churn drill has been procured to bore holes in the boulders, which will be broken this evening. The diver has been at work all forenoon. After the pieces are cleared away the work of finishing the site will be a matter of only a few hours.

Ladies' singles—Finals—Miss M. Thomson won from Miss M. Robertson, score 6-2, 6-4.

The players for this afternoon are: Malcolm McAvity and Mrs. J. R. Thomson, Miss Jenny Ender, and Miss Mabel Thomson.

## AMERICAN COUPLE TRIED SUICIDE IN NAPLES

ROME, Aug. 9.—The identity of the couple who attempted suicide at Castellana, the woman dying, and the man surviving, has now been established. The man, John Buckingham, who is an Englishman, an engineer, his wife was Miss Jenny Ender, a native of Massachusetts and lately of New York, whence he brought a considerable fortune. This fortune was entirely lost in gambling at Monte Carlo.

The couple drank a mixture of laudanum and arsenic, leaving a letter saying they wished to die together. Since the death of his wife Buckingham has made two attempts to jump out of the window. He refuses to talk.

## THE CRAWFORD CASE.

Judging from the talk of some of the parties most closely interested there are likely to be further developments of a rather sensational nature in the matter of Policeman Crawford's suspension and resignation. The ex-policeman and Harry Woods of the Street Railway made certain statements against Magistrate Ritchie when he finished his letter saying that he wished to die together.

Since the death of his wife Buckingham has made two attempts to jump out of the window. He refuses to talk.

## EQUITY COURT.

In the equity court this morning before Judge Barker a question in regard to the will of John Gillis, who died twenty years ago, was brought up. The late Mr. Gillis left his property to trustees, after providing for his wife the trustees were to pay \$1,000 annually to each of his children, Mrs. Fisher and Mrs. Keator.

If they died before the youngest children came of age the trustees were to hold the securities until the grandchildren were of age and then the property was to be divided among them.

In 1888 Mrs. Keator received an absolute conveyance, and Mrs. Fisher could not as her children were not of age. The question now is whether the income comes devolve upon Mrs. Fisher as person or upon the children. The judge will give his decision later.

The police were called into Lottie Barnett's house on Sheffield street last night to eject Katie Smith who was creating a disturbance there.

A life preserver found on Dock St. is kept for safe keeping at Central police station.

## SEAMEN'S MISSION PLANS WERE COMPLETED TODAY

Building to be an Attractive One—Cost is \$15,000—  
More Money Needed Before a Start Can be Made

The plans for the new Seamen's Institute to be erected on Prince William street have just been completed by the architect Mr. G. Ernest Fairweather. The institute when finished will appear as shown in the accompanying sketch.

The land, which is to the north of the Lewis J. Almon building, and lying south of the Emerson and Fisher lot, was purchased this morning from D. E.

Brown for \$1,800, the deeds being signed and recorded. It has a frontage of 50 feet on Prince William street and a depth of 35 feet. A great advantage in securing this lot is that the institute can make use of the party wall of the Almon building. The structure called for by the accompanying design is estimated to cost in the vicinity of \$15,000. It will have a 60 foot frontage and 75 feet long and will be of brick, with

## FRED BOYD WILL STAY WITH WIFE HEREAFTER

An Amusing Incident in Police Court This Morning—Several Cases Heard.

The hearing in the police court this morning lasted until one o'clock. The cases were varied. Four drunks were fined the usual amount.

Wm. Bradley obstructed the entrance to the east side ferry last night and was fined two dollars and given some sound advice. James Connors and Joseph Devine were disturbed from a conversation in the Queen Square early this morning, and both pleaded guilty to drunkenness. Policeman Ross said that Connors had much difficulty in getting along, and that Devine could have navigated, but he gave the police the laugh, which resulted in their arrest. Connors made a lengthy address to the court after cross-examination of the officer, and said he wished a man named Kingston called as he had as much right to be in court as they. The two were remanded to jail until Kingston can be called.

Roy Linkletter, a boy, pleaded guilty to breaking into a news box in the C. R. station Sunday. He was told he was liable for four years in the reformatory, and was allowed to go with a caution.

Fred Boyd, an extremely dark colored man was charged with assaulting his wife who before her marriage went under the maiden name of Bertie Kennedy. The woman gave evidence that shortly after a midnight she had been informed that her husband was not acting right and on investigation she found Fred in company with Mattie Mather in a Duke street alley. Her husband threw her to the ground twice and struck her.

Boyd became very dramatic he tried to cry and to the great amusement of those in court he extended his arms and said, "Now Bertie have mercy on my life, I'll be good to you, and you can get any body to make out a bill that I'll sign so that you can go and draw all my wages every Saturday night. I'll work for you always, but have mercy for I don't care for that Mather girl no more."

The dusky spouse would not give in. She was greatly injured by her husband's conduct, for he even allowed Mattie Mather to place her left hand on his right shoulder.

At one o'clock Mrs. Boyd returned to court and the reconciliation was very dramatic.

Fred has promised never to stray away from his better half again and was allowed to go.

John Francis and Mamie Ferrish were brought into court and the charge of stealing made against them was resumed. Policemen Scott and Belyea gave the same evidence as before regarding the arrest of the Ferrish woman and they were again remanded.

BATAVIA, N. Y., Aug. 9.—A detachment of infantry commanded by two lieutenants has been massacred by rebels in the Morristown division of Col. Cole's. The victims, including some convicts, numbered forty-five.

The body of the late John Tippling was taken to Model Farm for interment this morning. Rev. J. F. Floyd conducted a service at the deceased's late home on Dorchester street, last evening.

## SHIRLEY DAVIDSON'S AND MISS HINGSTON'S BODIES WERE FOUND

MONTREAL, Aug. 9.—The bodies of Miss Hingston, daughter of the late Sir Wm. Hingston and of Shirley Davidson, son of Mr. Justice Davidson, who were drowned in the St. Lawrence River at Varennes Sunday, were recovered today. That of Miss Hingston was found 11 miles below Varennes and that of Mr. Davidson 4 miles below. The remains will be brought to Montreal for interment.
