### Arrested, and Consumption Cured

Mr. G. D. Colwell, of Walkerville, Ontario, was stricken down with La Grippe in 1906 and it left him in very bad condition. He says: "I was all run down and bordering on consumption. I could not sleep at night, had awful sweats, and coughed nearly the whole time. This is how I was when I began to take Psychine, in a low nervous state; but from the first bottle I began to improve. It did marvels for me and brought me back to health in no time, making a new man of me. It fortifies the body against the attacks of La Grippe and is a sure preventative. I always take Psychine if I feel a cold coming on and it puts me right in no time."

## GIRL WHO LAY DYING DESCRIBED FEELING

### Mysterious Death of Englishwoman in New York Hotel

Body Decomposed After Death So Fast That Inquest Was Practically Useless.

Dying by inches from the effect of poison, but in total ignorance of the fact, Lucille Clerk, the beautiful English girl whose life ended in the Hotel Grenoble in New York, described her nurse just how it felt as death was creeping upon her. Up to three minutes before she breathed her last she told of the strange sensation of numbness that was overpowering her. "I was called to the hotel soon after midnight Thursday," said the nurse. "I found the beautiful girl—and she was one of the most beautiful I ever have seen—in convulsions. When they abated she was so weak that I undressed her and put her in bed. Suddenly she turned to me and said: 'Isn't it strange? I seem to have lost all sensation in my heels.' 'A moment later she added: 'And my toes, too. I seem to have none.' 'She was silent for a few minutes, and then she said: 'Isn't it singular that I don't seem to have any fingers? Isn't it wonderful?' 'I knew there was nothing I could do but wait, and she paused she said, wonderingly, 'My knees seem numb and cold. Won't you rub them please?'

### DEATH WAS NEAR

"I began to choke her limbs, and a minute later she remarked: 'I have lost all sense of feeling in my knees. And now my chest seems to be killing up. What do you suppose is the cause?' 'She was silent then for several minutes. Suddenly she tried to raise herself from the bed and exclaimed: 'Feel my heart! It is jumping like a trip hammer. Feel it. What makes it beat so? I never remember having had such an oppressive feeling in my chest. Then she sank back on the pillow and was dead.'"

The nurse herself was almost overcome as she told the story. When she had regained control of her emotions she said:

"I have had considerable experience with death in all that time. I have seen a person whose system was so full of poison as was Miss Clerk that it almost beyond a doubt, that Dr. O'Hanlon could not tell what it was."

The British consul is using all the information at his command to have the mystery cleared up. He, as well as others, think it almost beyond a doubt that in the time that elapsed between Miss Clerk's death, at 9:30 o'clock Friday morning, and the autopsy Saturday afternoon, decomposition could have become so marked unless some virulent poison had been used.

### PROMINENT IN ENGLAND

Miss Clerk has been in New York since October 1st, when she was dead, a well known English army officer. Her brother is said to be an officer.

Miss Clerk appeared at the Grenoble on October 1st, when she was joined by a Mr. and Mrs. Fry, and a Mr. and Mrs. Clerk, together with Louis E. White, a cotton broker, went out to dinner at the guests of a Mrs. Adair. Soon after returning to the hotel Miss Clerk became ill. Dr. O'Hanlon diagnosed the trouble as a poisonous poisoning. Mr. and Mrs. Fry left Wednesday morning, saying they were bound for Santa Barbara, Cal.

Miss Clerk was well known in England, where her own personal qualities gave her an entrance to the circles of the highest aristocracy. She was an intimate friend of the Chamberlains. She knew the Hon. Dorothy and Violet Vivian, making her honor to the queen and was connected with the St. Aubyns.

### CASE IS REMARKABLE

Twenty-four hours after the girl died all the organs of her body were found to be so badly decomposed that it was not possible to tell what had caused the death and the wreck of all tissues of the body. Coroner Hollenstein is also at sea but he makes a surmise which may be nearer the truth than he knows.

"The action of this strange poison and the sudden decomposition of the body."

### Why Men Desert Wives

A Large Per Cent of the Wife Desires a Divorce Due To Female Weakness

I should have taken better care of myself, I suppose. I was sick and suffering. No one but a woman can ever know how I suffered. I was irritable. I couldn't be to my husband the wife that I ought to have been. He, being a man, couldn't understand. We drifted apart. He sought his pleasures elsewhere. Finally there was nothing but the divorce court that could settle our differences.

That's the sad story that eight out of every ten women who have passed through the ordeal of the divorce court, as well as the countless thousands of deserted wives who are not divorced, know deep down in their hearts was the real cause of their troubles.

A sick wife a neglected home, and the publicity and disgrace of the court room to end it all. There wouldn't be half as much talk of the divorce if in the world if only every wife and mother would realize her duty to preserve her health and strength.

No woman has the right to expect her husband to devote his leisure hours to his home and her whims. He is leading a dragged-out, hopeless, down-in-the-mouth existence that would discourage the greatest optimist on earth.

Mrs. Cora B. Miller's marvellous home remedy has done as much to prevent divorce as all the messages to congress and conventions in the world. The woman who is bright and cheerful and well has a home that reflects her own good feeling and discontent finds no place therein.

Mrs. Miller's aid and advice is as free to you as God's sunshine or the air you breathe. She wants to show to you that her common-sense home treatment may relieve you just as surely as it cured her years ago in her humble cottage.

If you are a sufferer from any female trouble, no matter how long it has been, send the coupon below to Mrs. Cora B. Miller at once.

Put Your Faith in Mrs. Miller

My word that my home treatment should relieve you of most diseases, or piles doesn't necessarily mean anything. But when my word and medicine are backed up by thousands of ladies, there's evidence you cannot doubt. There is hardly a county or small village in the land that does not contain some poor sufferer that was relieved. I didn't force them to use my medicine. They took it of their own free will and it benefited them. You should have faith in that sort of a remedy every time. Just cut out the coupon, send it today, and prove what this marvellous treatment will do for you.

It is very likely that the local committee of the M. P. A. A. A., composed of Vice-President Covey and Messrs. Howard and Holding, will soon have to consider applications for reinstatement of some more of the baseball players who were put under the ban last summer. A revival in intercollegiate baseball is expected during the coming spring. Acadia and U. N. B. being the colleges in which activity is expected. The latter college to dispatch of having John Dolan of Fredericton as catcher. Dolan has figured prominently on various red and black teams during the past two years and is a first class ball player. He is out of the amateur ranks for the time being, however, and until he is restored to good standing the part he will take in college athletics will be very small. Dolan is now back at college and the U. N. B. Athletic Association is taking steps to have the local committee consider his case.
