THE RESOLUTIONS.

The committee on resolutions re ported as follows through George W

Fowler, chairman: (1) We, the liberal conservatives of the county of Kings, in convention assembled, do hereby approve of the platform adopted by the Provincial Association at its recent meeting in St. John, and hereby declare our allegiance to the principles so long upheld a sound, practical education. (Ap-

GEO. W. FOWLER NOMINATED. There was but one nomination, that of George W. Fowler, which was made in open convention by G. O. D. Otty, seconded by Thomas A. Kelly, and received with an outburst of ringing ap-

plause from all parts of the hall. Mr. Otty, after the applause which greeted the mention of Mr. Fowler's

name had subsided, said this demonof Kings Co. met in the Court House at stration augured well for success. All signs pointed to the triumph of the liberal conservative cause throughout Canada at the approaching general elections. He had no fear for Kings. (Renewed cheering.) No honest liberal could vote to support the present government, which had ran counter to the ideals of liberalism and had violated every ante-election pledge, and there was no temperance man but now understood that the plebiscite had been introduced by the government with the deliberate intention of juggling the question of prohibition. These forces would be felt at the elections and would assit in the overthrow of the Laurier regime. (Applause.)

> On motion the nomination was unanimously ratified by a standing vote, amid immense applause. When

MR. FOWLER

made his appearance on the platform, he was given an enthusiastic ovation. He said he felt most deeply the honor thus unanimously conferred upon him. He accepted the nomination-(cheers) -with great reluctance, not that he had any fear of the result-(renewed applause)-but because he knew the sacrifice that a parliamentary term at Ottawa meant to a young professional man. While he was prepared to make this sacrifice on his part, he urged the electors to also make some sacrifice of time and labor on their part for the success of the liberal conservative party and for the best interests of Canada. He did not propose to make a political speech, as this was the hour for work, but he would be heard from in all parts of the county before election day. He trusted that when elected he would be found to be an improvement on Kings representation for

the past four years, and he assured the

These statements he (Sproul) had made when face to face with Mr. Pugsley on nomination day, but the would-be attorney general had then dodged the issue and had continued to dodge it ever since. Passing on, Mr. Sproul severely arraigned the government for its policy with regard to the books used in the public schools, and stated that one of its most flagrant recent acts was corruptly giving a contract for printing certain books to C. Flood & Sons, piano dealers, of St. John, who never owned a printing press, but who farmed out the printing of these books, just as Tarte's relatives had farmed out their dredging contracts. (Applause.) Was it any wonder that these books cost parents an excessive figure? Was it any wonder that these books were inferior to the ones they had replaced? Pressing home his arraignment of the government's administration of the free schools system, Mr. Sproul charged that there was too much "gingerbread work" about it now and that much of the time of the pupils was frittered away over glittering scientific themes that should be devoted to instruction in that which constitutes

Turning to the present local situation, Mr. Sproul said that neither liberals nor conservatives were as a matter of principle interested in promoting the election of Dr. Pugsley who had voted tory in St. John, grit in Kings, and had allied himself with each and every party known in Canadian current politics. He had been on all sides of every question, but when the hour of dividing the spoils arrived. he was invariably to be found hand in glove with the party that controlled the loaves and fishes. Like the tories, the liberals owed nothing to Sweet William (Prolonged cheers.) The electors present on nomination day had noted Dr. Pugsley's failure to meet this charge and would govern themselves according The only logical inference for Mr. Pugsley's conduct on nomination day was that if elected he would not protect the treasury against this raid. (Cheers.) Mr. Sproul charged that Dr. Pugsley and other Kings representatives had at the last local election dangled before the eyes of Robert Morrison, James T. Byrne, R. LeB. Presidential Election Only Five Weeks Distant-Visitors from New Brunswick - Deaths of Provincialists-The Fish Market.

(From Our Own Correspondent.)

BOSTON, Sept. 22.-The country is gradually becoming embroiled in the strife and turmoil which goes with a presidential campaign. Polling day is now about five weeks' distant and after Oct. 1 the politicians will be in the zenith of their glory. Business houses here trading extensively with Canadian shippers state that they look for the general elections in Canada between Oct. 24 and Nov. 1, and if this calculation proves reliable, the Canadian government will be the fourth to appeal to the people this fall. In addition to the English and American elections, the voters of Newfoundland have been called on to choose a government. In this country the trend of opinion would indicate that the Mc-Kinley administration will be successful, but it is unsafe in politics to make predictions as long as debatable ground remains. Mark Hanna and some of the other leading spirits, in the republican party, as at present constituted, profess to see danger ahead, and of late have been doing some tall hustling. The republicans expect to make pronounced inroads in the far western vote, which four years ago went against them on the silver question. The silver republican party of the west is still supporting Bryan, but the silver republicans themselves admit that McKinley's Philippine policy is popular among many of the western voters, especially in the Pacific states. On the other hand, his socalled imperialist doctrine is not accepted with favor in the east, except among the hide-bound party men, and his pluralities of four years ago in a number of the middle and eastern states are sure to be cut down one half. In this state a heavy reduction is anticipated. McKinley carried Boston in 1896 by about 15,000 plurality, but this year it looks as if the city would declare for Bryan by at least 5.000. Thomas B. Reed is not lifting a hand to help his party, and as yet ex-President Harrison has remained silent. Ex-Gov. Boutwell of this state. one of the founders of the republican

ference here last week between Canaof stories afloat. Canadians have been much amused at the eagerness displayed by the newspapers for an extension of trade, for unlike most American business men, they know who is to blame for the agitation. Were it not for the Hon. A. G. Blair and his mesalliance with the Grand Trunk railroad, there would have been no thought of St. John losing traffic to Boston or Portland. The writer does not believe that Blair will dare to allow much of the grain business to come to this port, but since he gave cause for St. John people to worry, they will now have the advances and influence of Americans, and an American railroad to contend with. In discussing the matter, President Lucius Semi-Weekly Sun to your address for. Tuttle of the Boston and Maine railroad, said a day or two ago: "Boston is open now, as it always has been, to this traffic, and our road will go as far as possible in making it of advantage for the C. P. R. to bring this business here. We are in a better position now than we have been before to make Boston more desirable to the Canadian Pacific. The Canadian Pacific officials are, unfortunately, hampered in their choice of an ocean terminus, and the political situ-BADEN-POWELL, ation in the dominion must be reckoned with in any proposition looking to the diversion of this traffic from St. John."

Most of the Chamber of Commerce of St. John losing the grain trade. Many of the local papers have obtained interviews on the subject and some have printed editorials. Perhaps the most important opinion is that expressed by the Boston Transcript, which says: "Naturally, the Canadian government, while seeking to keep the great grain traffic of the Canadian Pacific from being diverted out of the country, wish to see what the outcome of the elections will be. The Canadian Pacific, however, is not waiting for politics. That Boston will be greatly the gainer by having the winter traffic of the Canadian Pacific is apparent to everyone, and it may occasion some surprise that the Boston & Maine which has long mantained intimate relations with the Canadian Pacific, apparently has made no special effort to secure this business. Now that it oul) on the Sun Printing Co., St. John. has secured control of the Fitchburg, it

and is ready and willing to handle all the business which the Canadian road may turn to it. While, from a political standpoint, it is likely that the Canadian government will use all its efforts to make an arrangement between the Canadian Pacific and the Intercolonial railway for mutual benefit, and thereby prevent the winter traffic from coming to Boston, there is another factor which must be taken into account. This is the attitude of the Canadian shippers themselves. Especially in the present situation they cannot fail to appreciate the advantages which Boston possesses over the Canadian ports as a winter terminus. Many of the Montreal grain merch ants prefer Boston as an exporting point, and unless the Canadian gov ernment reaches some satisfactory ar rangement at once the Canadian merchants are likely to take a hand themselves in the matter, and throw their decisive influence in favor of this

port." Rev. Charles R. McNally, formerly of Fredericton, was ordained and installed Sept. 19 as pastor of the Wor then street Baptist church of Lowell. Rev. C. Elliott McKenzie, formerly rector of St. Andrew's Episcopal church and St. Martin's-in-the-Wood, Shediac but of late a resident of New York State, has accepted a call to an influential church in Cleveland, Ohio, Rev Mr. McKenzie was also formerly rector of the Episcopal church at Alberton, P. Stansbury Hagar of Brooklyn, N. Y. and Miss Clara F. Robinson, daughter of George A. Robinson of Digby, were married in St. Paul's Episcopal church here on Thursday by Rev. John S. Lindsay, the rector.

Mrs. Minnie Statton Chase, daughter of the late Zebina Goudey, a prominent shipowner of Yarmouth, was united in marriage to Henry N. Chandler of Boston here on Monday last. Senator John V. Ellis, provincial grand master of New Brunswick, Scottish Rite, was in the city this week attending the twenty-third annual session of the provincial grand lodge, Royal Order of Scotland. It is said he received a reply New England is the firmness of spruce. in the affirmative, together with the Maine reports a decided improvement price set upon the property by the in the enquiry as well as in prices. At Bangor the general run of random spruce is worth \$12 per M., which is \$1 better than the price that prevailed all summer. About 1.000 men have been sent into the woods along the Penobscot already to cut logs. The demand for men is good and wages for choppers are as high as \$25 to \$28 a month. In the Boston market spruce boards are prositively scarce, with prices very firm. Dealers report that boards are very hard to get hold of at this time. The scarcity is said to be due in part to a scarcity of flat cars. which are needed to bring lumber from the rail mills. Full agreement prices are maintained for spruce. Ten and 12 inch dimensions are worth \$17; 9 in. and under, \$15; 10 and 12 in. random lengths, 10 feet and up, \$16.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, \$13.50; all other randoms, 9 in. and under, 10 feet and up, \$14.50; 5 in. and up merchantable boards, \$15; out boards, \$12. Hemlock is scarce and firm at \$13 to 15 for Canadian. Three cargoes of spruce boards arrived here from eastern ports this week. Receipts of provincial lumber only amounted to 97,290 feet and 10,000 railway ties. Shingles are dull at \$2.60 to 2.70 for extra cedar; \$2.25 to 2.35 for clear, and \$2 to 2.10 for second clear. Laths are showing some improvement, 15-8 in. offering at \$2.60 to 2.75, and 1 1-2 in. at \$2.25 to 2.30. Clapboards are scarce but dull at \$27 to 28 for extra spruce, and \$25 to 26 for clear. Mackerel continue abundant, with

trade excellent. The total catch for the season to date amounts to \$1,000 barrels, against 16,464 in 1899 and 13,300 in 1898. As the season advances mackerel appear to gain strength. The last sales out of vessel were made at \$11 for plain, \$11.50 to 12 for rimmed. and Nova Scotia mackerel out of steamer at \$9 to 9.50. About 1,500 barrels arrived from the provinces this week. Codfish are firmer, with the demand improved. Large dry bank are firmly held at \$4.50; medium, \$3.50 to 3.75: large pickled bank, \$4.25 to 4.50 and large shore and Georges, at \$5 to 5.50. Barrel herring are more plentiful and the market is easier. Nova Scotia large split are selling at \$6.25 to 6.50 a barrel, and medium at \$5.75 to 6 Canned lobsters continue scarce and firm at \$3 to 3.25 for flats, \$1.70 to 1.75 for half pound flats, and \$3 to 3.10 for talls. Live lobsters are steady and unchanged at 16c., with boiled at 18c.

A little girl wishing to get her cap from a dark room, asked the nurse for it. The nurse told her that she should not be afraid of the dark, as God was in the dark as well as in the light. The little girl looked doubtfully into the dark room, then, walking bravely to the door, said: "God please, sir, hand me my cap."

A little child in a Sunday school class, being questioned how Eve came to be made, hesktated some time, and then brightening up said: "God looked at Adam and said, I guess I can do better than that, and he then made Eve."
