MILLTOWN, N. B., June 16.-Levi McDonald had quite an exciting experience last Monday. He was returning from his farm at Mohannes with a load of hav and was descending the Thompson hill when one of the front wheels came off his wagon, thus tetsing the axle drop down on one side and strike the heels of the horse. this the horse took to running and Mr. McDonald jumped from the load. On reaching the foot of the hill the horse swerved to one side and jumped a stone wall, which is over two feet high. earrying wagon and load with him until the hind wheels brought against the wall, which stopped the further progress of the animal. Neither Mr. Mc-Donald nor the horse were hurt nor

was the load upset.

PARLIAMENT.

(Pennsylvania). 0 00 " 0 00

OTTAWA, June 17 .- In the commons this afternoon Laurier, in moving that henceforward Mondays shall be taken as government days to the exclusion of private business conceded next Monday to give private M. P.'s a chance to square up business, doing this in response to protests from both sides of the house. Ralph Smith, labor member from Vancouver, headed the list with suggesting that the government might ask the house to sit on Saturday and let Mondays alone, Monday being now the only day in the week in which private business can be transacted. Smith made the point that members had duties to discharge for the common people, just as the government had for the country as a whole. In presenting his motion Laurier briefly outlined the legislation the government will introduce this session. As to the measure to substitute the dominion prepared list of voters in Manitoba for the provincial lists, the premier promised further information next week, when the minister of juswas now absent, returned to the capital. Hon. Mr. Sifton, who is bossing the measure, was also conveniently absent.

Another bill to be introduced by the minister of railways, who likewise was conveniently missing from his seat, was intended, said Laurier, to give the Intercolonial railway power to take over the Canada Eastern railway in New Brunswick. There would also be bill to provide a system of pensions on the I. C. R. Later on the premier said there would be a government bill to amend the dominion labor act. Other government measures on the slate were, he said, not of a controversial character.

The house then went into committee of supply on marine and fisheries esti-

After dinner the house resumed con sideration of the estimates of the marine and fisheries department, when Lefurgey and Hackett put in a strong plea for the lobster fishermen in the distribution of the fisheries bounty. Col. Kaulback also espoused the cause Mr. Prefontaine has not been long abroad or in our own western country. enough in office to know much about the business of his department, and his answers to many inquiries were consequently vague and unsatisfac-

The house adjourned at 11 o'clock, having voted \$76,850 on fisheries items. An Ottawa despatch in the Telegraph this morning says, "At a meeting of the cabinet today it was decided by the government to purchase the Canada Eastern and to operate it in connection with the Intercolonial Railway. The price for the road is in the neighborhood of \$800,000."

the job. At ten o'clock Wood of Westmorland, moved adjournment of the debate. In senate committee today investigation of Mutual Reserve Fund Life

Association was continued when Mr. Eldridge was examined by Charles J. Coster of St. John, counsel for Col. Domville. The legislation foreshadowed by Laurier this afternoon may have the

effect, coupled with the Dundonald incident, of prolonging the session to the end of July.

Col. Pinault, deputy minister of militia, says he would not take Dundonald's job if offered to him as he is well satisfied with his present position. Col. Pinault and Dundonald were not on speaking terms for months following the writing by the colonel at the dictation of Sir Frederick Borden, of an insolently worded letter to the general, but a truce was patched up when Lord Dundonald was given to understand that Pinault's English was faulty and that he ignorantly adopted the imperative mood rather than the milder and more diplomatic form of con structing official correspondence. Col. Pinault luried the hatchet, but recent events show that he left the hatchet

handle sticking out of the ground.
