A Ruberoid Strip Shingle carries one of its most important messages on its back.

Ask any one of the dealers listed here to show you a sample of these shingles; examine it carefully, note its fine color (red or green), its even grain—then turn it over and note the heavy coating on its back.

This back coating is a feature carried by only one shingle manufactured in Canada—the Ruberoid Strip Shingle. And it is a feature which has a world of meaning to the user of shingles. This coating prevents damage from sweating, serves as a binder between two rows and adds weight and strength to the shingles, thus rendering them more resistant to high winds.

Ask one of the dealers listed here for samples and prices. He can tell you more of the great advantages of using

### PROVINCIAL CARS FOR POLITICAL WORK

Methodist Opposes Effort of  
His Church to Get a Provincial Grant.

(Continued from Page 1.)

Public works department items of expenditure were under fire at this morning's session of the public accounts committee of the legislature when Bertin M. Hill, chief highways engineer, was the principal witness called after Peter Hughes, the secretary of the department, had produced vouchers and accounts which were called for by Mr. Pinder of York.

Pipe Lying Around.  
Mr. Pinder spoke about "the thousands and thousands of sections of concrete pipe distributed about the province alongside the roads," and advised the department not to order any more for a while as it was being taken for uses of various kinds.

Mr. Jones of Kings, drew attention to accounts made out as supervisors for work, which was performed to be charged to ordinary roads maintenance which had been changed after being received at the department and charged up to permanent work and in some cases to Federal aid work.

Much Work Sept. 15.

Claiming it was contrary to practice and done for political purposes only, Mr. Jones drew attention to the large number of accounts showing work on permanent roads started on September 15th, and closing promptly on October 31st, the day before polling. He also charged that the government had paid \$235.36 to a well known farmer of Kings county, who had expressed himself as going to support the farmers in the election, for material taken from his property and charged up to permanent roads.

What had been done, he said, was men and teams employed by the government to dig a cellar where the man intended to erect a large barn this year and they paid for the material that was taken out; it wasn't gravel, just ordinary material.

Mr. Jones also made a suggestion that all automobiles owned and operated by the provincial government should be labelled as government cars in the same way that is done with federal government cars and military automobiles. He said that government cars had been used on election day to take voters to the polls, which caused Mr. Hill to remark that it would be a shame to let the autos to remain in, when the poor electors wanted to get a chance to vote.

Some Sharp Talk.

Quite a sensation has been caused by some utterances made by ex-Lt. Lemont, a prominent local Methodist, before the York Commercial Club, during a discussion on educational matters.

Mr. Lemont referred to the lobbying, which was being conducted by representatives of the Mount Allison and St. Joseph's Colleges for provincial grants for those institutions because of the fact that the U. N. B. had asked for an increased grant to \$50,000. He thought that was more than enough on the part of these two colleges and that their purpose was more to oppose the grant to U. N. B. being increased than anything else. It looked to him as if it were a deliberate attack on the non-sectarian free school system. He said he was not so much surprised to see an attack coming from a Roman Catholic institution, but an attack from a college of the same denomination as that to which he belonged was a "real source of surprise." He felt sure that the majority of Methodists in the province would vote for continuing of the non-sectarian free school system and vote against extending of grants to denominational institutions.

A discussion arose over this and ended with the remark by Harry A. Smith that he had understood that grants to the denominational institutions had been "flatly refused by the government."

## BEWARE OF BRONCHITIS.

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs. There is a raising of phlegm, especially the first thing in the morning. This is at first white, but later becomes of a greenish or yellowish color and is occasionally streaked with blood.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Brice Culham, Sheffield, Ont. writes:—"In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle, which helped me very much; I then got a six size, and it completely relieved me. I cannot praise Dr. Wood's enough for what it did. Two of my neighbors are now taking it for colds."

Do not accept a substitute for Dr. Wood's Norway Pine Syrup. The genuine is put up in two yellow wrappers; three sizes, the one marked "Dr. Wood's" and the other marked "The T. J. Williams Co., Limited, Toronto, Ont."

## Lewiston Church

Lewiston, April 13.—A subscription of \$10,566.85, including gift of \$50,000 from Dr. Alfred W. Anthony of New York and his sister, Miss Kate J. Anthony, making the successful opening of the drive being conducted this week by the United Baptist Church. The object is to raise \$150,000 for a new church edifice. The successful opening gave a rising vote of thanks to the two largest donors.

Another gift of \$5,000 was received from Miss Helen Libby as a memorial to her husband, the late Harold B. Libbey, former agent of a woolen mill here. The parish is using a large thermometer, and Dr. A. N. Leonard of Bates College is watching the red paint which marks the rise of the mercury indicative of the increase in the fund from day to day.

### Children Cry for Fletcher's

## CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for babies. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.
