

# OVER THE PROVINCES.

## A SUMMARY OF EVENTS AT HOME AND ABROAD.

What is going on Among Ourselves—The Daily Doings of Our Neighbors Talked About—People you know or of Whom have heard.

Ontario, June 4.—(Special)—Word received here that the pope has conferred a decoration upon William Hamilton, of Montreal.

Winnipeg, June 4.—(Special)—Reports from all over Manitoba and the Northwest Territories show abundant rainfall and indicate excellent prospects for bountiful crops.

Halifax, June 5.—(Special)—Arbitration has been agreed upon between the Gas and Electric Light Company and the Master Mechanics' Association as the cause of settlement of the labor trouble here.

Quebec, June 4.—(Special)—The government sale of crown timber lands principally in St. John's, St. Maurice and Gaspé and Rimouski took place today. There was a large attendance of lumbermen. The sales realized over \$500,000. Many lots were withdrawn there being no bids at upset prices.

Gagetown, June 3.—The first cheese made in Gagetown factory today. Much interest is taken in the enterprise and success seems insured.

Crops are growing beautifully.

A. A. Wilson, barrister, St. John, and Rev. L. J. and Mrs. Wason, Young's Cove, are in the village.

Yarmouth, N. S., June 4.—(Special)—The house at Acadia badly damaged by lightning yesterday afternoon was occupied by J. Logan Trask, principal of the South End school. The lightning struck the cupola and in passing down tore off the plastering and paper from the walls and damaged the base burner. The inmates, although stunned, escaped injury.

Amherst, June 4.—(Special)—Boyd Brownell, employed in the Robt Engineering Company's high speed department, received serious injury to one of his eyes by a piece of flying metal. He is feared he will lose the sight of the eye.

Walter Spencer, while adjusting a band saw this morning, received a severe cut in the wrist by the saw. The wound required 15 stitches. Spencer is well known in sporting circles, being the goal keeper of the Amherst hockey team.

Amherst, N. S., June 4.—(Special)—J. McDougall, of Dunlop, Cooke & Co., a fur manufacturing department, received a telegram last night announcing the sudden death of his mother at Montreal. This was the first intimation Mr. McDougall had of any calamity. He intended coming to Amherst at an early date to make him an extended visit. Mr. McDougall left by the Maritime express for Montreal.

Toronto, June 4.—(Special)—County Constable Boyd, of York county, was shot and killed and a police constable, Stewart, seriously wounded, while conveying a trio of bank burglars named Jones, Rice and Rutledge from the court house to the jail in an open car. On approaching Don River bridge near the jail a strange man threw three revolvers into the back. The prisoners immediately grabbed them and began shooting at the officers.

Sydney, C. B., June 4.—Engineers will soon begin work on the Cape Breton railway extension from the Gut of Canso to Louisbourg. The line will be built by the Vanderbilts, and the line will touch Carleton Place, terminating at Louisbourg. A number of mineral areas along the line have been bought by American capitalists. It is said that the new railway is a link of a new system from New York to Cape Breton, and a fleet of fast steamers will run to Europe.

St. John's, Nfld., June 4.—Mr. Reid, the contractor, consents to surrender the telegraph to the government. He has been given his land grants so that the rights of other holders will be protected. He will undertake to allow the colony to purchase back from him the ownership of the railway at the end of 10 years by compensating him for the ten value of the property. On these conditions, if the minor details are adjusted the government will agree to transfer to a limited liability company as Mr. Reid desires.

Yarmouth, June 5.—At 8 o'clock this morning the marriage of Miss Lennie M. Wyman, daughter of ex-Mayor Wyman, to Mr. Frank P. Little, of Toronto, took place in the Methodist church. The ceremony was performed by Rev. R. D. Hambrick. The bride wore a handsome dress of brown broadcloth with hat and carriage. Miss Ethel Crosby acted as bridesmaid and was given in a red tulle and silk and carried red roses. Mr. William Little, brother of the groom, officiated as best man, and Messrs. Bert Perry and Harry Wyman, the bride's brothers, were ushers.

Gagetown, June 3.—The death of Mr. Isaac Fox occurred Saturday evening at his residence, Mansfield. Mr. Fox had been in failing health for some time and suffered a stroke of paralysis Friday night from which he did not rally. The funeral took place Monday afternoon at 2 o'clock. Rev. I. A. Parker, Methodist, conducting the service at the house. Many friends and relatives attended, attending to the respect in which deceased was held. Interment was made in the Free Baptist cemetery. Upper Harrow, a widow and three sons, who have the sympathy of the community, survive.

Sussex, June 4.—Considerable talk has been created in the village by the trial of Brown and Black at Hamilton. It was expected that these men would plead guilty to the charge, but eventually, upon the advice of their counsel, they have decided upon another course. The proceedings at Hamilton yesterday are causing a great deal of comment and many persons became quite excited over the matter.

Dr. Langstroth, who has been confined to the house for two weeks is able to be out and to attend to his professional business.

J. S. Harding, of St. John, and T. Williamson, secretary of the Ogilvie Milling Company, Montreal, are in town today on business trips in the interest of the company.

N. D. Hooper, of Hampton, and G. A. Prince, of St. John, are registered at the Depot House.

# THE BISHOP'S WILL IN HER FATHER'S ARMS

## The Late Prelate's Instructions as to Bonds.

The following is the private letter or memorandum left by the late Bishop Sweeney for the guidance of his successor and upon which the claim is based that the bonds spoken of in the will were the property of the episcopal corporation and not of the testator:

To the Roman Catholic Bishop of St. John:

Part of the coupon bonds to be found in my possession have been purchased by decree of court in equity. With the legacy of the Rev. Father Murphy, and are to be kept so invested, and the interest paid annually in the aid of St. Patrick's school.

There are also other coupon bonds to be found in my possession which were purchased by me for the support of the Orphan Asylum Industrial School, and hospital, with funds from the Society of the Propagation of the Faith, a considerable amount from the United States bonds purchased, when the United States money was at a heavy discount; from donations, gifts and various monies that I have been able to command.

The legacies from the Industrial School institutions and farm.

The surplus money from the cemeteries was used to purchase the farm which the new cemetery occupies a considerable portion. They also helped to build the school buildings and hospital.

I have paid all debts, including \$250.00 due by Dr. Connolly on the Orphan Asylum at the time of his leaving for Halifax. At St. Joseph's College there are \$2,500 of a balance due on mortgages of the deceased Patrick McCourt for the same purpose.

From other persons and sources are in the different houses and properties for the support of the orphan. And all the buildings and religious institutions in the parish I leave free from debt.

John Bishop of St. John.

Witness—Arthur W. Meahan, Secretary.

St. John, N. B., January 23rd, 1901.

# ORIGINAL "JINGO" SINGER.

## Death of the Man Who Added a Famous Word to the Language.

G. H. Macdonald, once prominent as a concert hall singer, died not many days ago at his home in Clapham, a suburb of London.

His death, which has also been mentioned in the English newspapers in spite of the fact he once attained fame by giving new significance to a slang word and by making it a part of the English language, is a sad loss to the world.

"Jingo," as a synonym for an effeminate patriot, is of course well known in this country and in England, but throughout continental Europe as well.

In 1878, when the Russians were moving on Constantinople, he was singing on the stage of the Theatre Royal, Drury Lane, and he was singing the fighting strains of Great Britain as a check upon the designs of the czar. Macdonald caught the spirit of the English metropolis with his song:

"We do not want to fight,  
But by Jingo, if we do,  
We've got the money, too,  
We've got the money, too."

While he sang this song, Macdonald was the idol of music hall audiences; he was pictured in all the illustrated papers and in the columns of the daily journals. His song became a popular craze and was repeated through all possible agencies from prima donna to the street.

Macdonald never had another song which approached this one in popularity, and in the course of time he lost his vogue as a concert hall star and became a wine agent. Later he returned to the theatrical business and took up the management of several variety houses. He was 56 years old at the time of his death.

# Zinc Bonds Sold in England.

New York, June 4.—A despatch to the Herald from London says: Negotiations have just been concluded whereby the Anglo-American Zinc & Lead Company, a recently organized Delaware corporation, disposes of its entire issue of first mortgage bonds amounting to \$5,000,000, to a syndicate of English underwriters, who will float them in the London market.

W. C. Wakefield of New York, who arranged the transaction, states that it will give English investors control of seven eighths of all the zinc and lead mines in the Joplin district of Missouri, including 72 separate properties. The money derived from the sale of the bonds will be expended in improvements and new purchases.

# Will Sell to Standard Oil.

Cleveland, June 5.—The firm of Scofield, Schurmer & Teagle, for a long time one of the strongest competitors of the Standard Oil Company, has given up the struggle and has completed arrangements to sell out its interests, including two refining companies, to it.

The fight against the Standard will be taken up at once by a new company, to be called the Great Western, the promoters of which are men who have been for years associated with Scofield, Schurmer & Teagle.

# BRONCHITIC SUFFERERS

Act foolishly. If they improve ever so little when the fine weather comes, they relax effort and drift back into the old condition which, if possible, becomes more chronic. But if they do not get rid of it and drive it right out of the system, in winter it is almost impossible to do so. Take a cold in the chest, it is a dead sure thing on bronchitis. It goes into the most minute air carrying tubes, and makes all parts of the bronchial tubes with its healing, germ destroying vapor, and cures every time. Highly endorsed by all competent druggists and doctors. 50c and \$1.

# FOUND GUILTY.

## Desperadoes of Toronto Sent on Trial

Toronto, June 5.—(Special)—The trial of the bank burglars, who made such a desperate attempt to escape from custody, resulting in the killing of County Constable Boyd and probably fatal wounding of Jones, was resumed at the York county assizes today. Extraordinary precautions were taken to prevent the recurrence of last night's escape.

Jones was unable to appear, owing to illness, and it was stated by his counsel that the trial will be arranged on charge of shooting Constable Boyd.

A mysterious veiled woman, known as Yena, who followed the prisoners from Chicago, was arrested today on charge of vagrancy. The reason, however, is suspected of complicity in the prisoners' attempt to escape.

# THE NEWS AT SUSSEX.

Two Cases of Diphtheria—Early Closing—Road Operations.

Sussex, June 5.—(Special)—There are two rather severe cases of diphtheria in the village, both patients being adults. The board of health are taking necessary steps to prevent the spread of the disease.

The new road machine which the local government has purchased for this part of the county has commenced operations on Court street. John H. Morrison is in charge of the machine, and it is reported to do good work.

The early closing association has arranged with all the merchants to close three nights in the week, and the new system went into effect on the 3rd.

Mrs. A. W. Smithers, wife of the rector of St. Andrew's, was injured yesterday when she was riding her horse. She was thrown and sustained a fracture of the leg.

# DINED AT ST. MARTIN'S.

Wm. O'Neill the Guest, and Recipient of Address and Present.

St. Martin's, June 5.—The Kennedy House last night was en fête, the occasion being a banquet tendered William O'Neill, late manager of the Kennedy Hotel, by the board of directors of the hotel. The dining room of the popular hotel was brilliantly decorated and the table presented a picture good to see. The collected guests were seated in the hall and to describe it without the pleasure of partaking would give but a poor estimate of its excellence.

The evening was presided over by W. E. Skiffen and the vice-chair by H. E. Gillmor. M. D. Anderson, the guests were Claude de la Roche, of the Annapolis, and H. W. Rogers, of the Annapolis, and Mr. Tennant, of Annapolis.

The chairman presented Mr. O'Neill with an address and a laurel wreath. The guests were then entertained by the recipient in fitting terms. A very pleasant evening was spent and all went "merry as a marriage bell." Songs were sung by the guests, and readings by Messrs. Skiffen and Tennant, and by R. M. Anderson, Mr. O'Neill's successor, and readings by Messrs. Skiffen and Tennant.

The usual toasts were duly honored, and when the next meeting was proposed and Auld Lang Syne sung through the house the company seemed loath to part.

# NEW YORK STOCK EXCHANGE.

New York, June 6.—There was a decided subsidence of speculative activity in the stock market with a resulting impression on prices. Losses are quite large in some of the principal active stocks which have been recent sales. The market was somewhat depressed by the news of the failure of the Chicago stock exchange, and the fact that the Chicago stock exchange was a corner market for the stock of the Chicago stock exchange.
