A CARD TO THE PUBLIC

The Telegraph and Times Publishing Companies take pleasure in announcing the signing of a contract with the Goss Printing Press Company of Chicago for a new Three-deck Goss straight-line 24-page press, with all the latest improvements patented by these celebrated makers...

This splendid press is to be built specially for The Telegraph and The Times, and marks another step in the progressive policy adopted by these newspapers.

In addition to the press, The Telegraph and The Times will install a complete stereotyping and composing room equipment including the most modern appliances in use in Canada or the United States.

The Goss Company, under contract, will equip the press with many late improvements such as are not yet in use on any press in Canada, and the machine is designed to produce, at high speed, a splendidly printed and illustrated newspaper, up to date in every particular.

As readers of The Telegraph and The Times are aware a new four story building is being erected beside the present Telegraph building, and the new building and new machinery together will represent the greatest outlay for the purpose ever undertaken by a publisher in the Maritime Provinces.

Increasing business has already justified the enterprise and faith in the future shown by these newspapers, and the business at once necessitates and justifies provision for expansion and future growth.

New building, new press, and a greater expenditure for news, the publishers have no doubt will be appreciated by a public which knows news enterprise at sight and wants the best possible value for its money.

Further details concerning these and other projected improvements will be announced at a later date.

A Zulu's White Bride.

There has just been celebrated in Ottawa, writes our correspondent in the Canadian capital, a marriage between a full-blooded Zulu named Duvoveldia, a nephew of Cetsovo, and Mrs. Annie Booth, a widow, and owner of a restaurant in Wellington street, Ottawa.

THE WOE OF THE COLONELS

(New York World.) Not since the day when sixty-seven consorting colonels in the wake of a Georgia governor made the admiring gaze of Rhode Island and the Providence Plantations, commander-in-chief of his militia and admiral of his navy, was there a more illustrious and distinguished man in Newport, stilling the storm with majesty.

To The Sick A Dollar's Worth Free

You deposit nothing. You risk nothing. You promise nothing. There is nothing to pay either now or later. I want everyone, everywhere, who has not used my remedy to make this test.

INSIDE NERVES

Sickness loses half its terrors when we strip medicine of its MYSTERY. For most all forms of sickness start in the same way. The nerves are weak. Not the nerves that govern your movements and your thoughts.

RUSSIA ANXIOUS FOR WORLD WAR

Latest Move of Czar Intended to Involve the Powers in Far East

American Government Warns China to Observe Neutrality--Big Boost in Reading Railway Stock Makes Wall Street Think There May Be a Corner in the Shares.

(From Our Own Correspondent.) New York, Jan. 18--Once more the great nations of the world are fearing a crisis in the peculiar relations which a common interest in China has led them to assume toward one another.

The seriousness of the international situation that may arise from Russia's change that the Chinese government, both separately and in combination with Japan, has violated its pledge to observe strict neutrality in the Far Eastern conflict cannot be overestimated. It has a far-reaching significance, involving not only the relations between Russia and China, but those of neutral powers, including Great Britain and the United States.

While the reports today say that the government of Khaggar has complained to the Chinese government it is not believed that the Russian note had been received and to explain the detail of the charges. The Chinese government was not requested to strengthen its position in a formal way that President Roosevelt was extremely anxious that China should preserve neutrality and live up to her pledges. The fact that this note had been sent to Peking was communicated to the other powers interested.

It is a fact that one house has loaned privately 20,000 shares in 5,000 share lots. However, some inquiry discloses the fact that Reading has been a profligate spender, even among the "Piker" traders in the customers' rooms. However, the way in which Reading let down the stock exchange in other quarters than Reading this afternoon. There has been no unusual borrowing of Reading in the stock exchange loan crowd, but stories were heard today of extensive private borrowing.
