my suggestion that when in yesterday's

Pas de Calais and Nord, the cavalry
forces of both sides are at grips, with
the main bodies of troops approaching
behind them. (Here a passage has been
cut out by the censor.) The strength

that after repelling these assaults they
have continued to extend their lines to-

Now is the Time to
Plan for the Summer
We will not give a summer vacation
this year as a number of students from
long distances would be inconvenienced
thereby.

Then, our students are so deliriously
tired that St. John is a harbor of refuge
during the hot season, and study just
as pleasant as at any other time. Stu-
dents can therefore enter at any time.
