

Remember to Take Sufficient Klim

What a difference fresh milk makes to a meal! Wherever you go, if you have a supply of Klim, water is all you need to have fresh liquid milk at a moment's notice.

Klim is real milk—either whole or skimmed, as you may order—with the water removed. The only difference between Klim and the pure, fresh, liquid cow's milk is that Klim is powdered—to make it more convenient, and so that it may be kept for months!

KLIM
BRAND
POWDERED WHOLE MILK

Get a tin of Klim today and try it. Then you will realize that Klim is a necessary part of your supplies for any trip, whether long or short.
