Argue it Pro and Con

THE cost of heating your home must be reckoned, not by the price originally paid for the heating system you install, but on the basis of actual results. On this basis an unprejudiced and careful examination of the facts will clearly show that for even, healthful and economical warmth, a

King Boiler and Radiators

far surpasses any other heating method for the modern homes. True, it costs more at first, but the difference in price only faintly indicates the wide difference in results. Consider even fuel consumption. In ten to fifteen years the waste entailed by old fashioned heating methods would easily pay the first cost and upkeep of a King Boiler and King Radiators, not to mention the added comfort you have enjoyed.

With a King hot water heating equipment your home is hygienically clean, uniformly and economically warmed, and the heat is always under your control. A simple turn of the valve being all that is necessary to regulate the temperature to any desired degree.
