

- Q Why were you so emphatic in your summary that it was at 1445 he made the statement ?
A That was the time I got up out of the chair after he made the statement.
- Q You say you had two glasses of beer before he made the statement ?
A I had two.
- Q In the summary do you remember saying we had three glasses of beer before he made the statement ?
A We might have had parts.
- Q Do you remember as much or am I have the Court believe it affected you ?
A What is your question ?
- Q In the summary you said "we had three glasses of beer" ?
A We had. Not complete glasses. I had two, I had not drunk one.
- Q Why then did you say we had three glasses ?
A We had three glasses.
- Q Would three glasses of beer have any effect on you ?
A No.
- Q Is beer intoxicating liquor ?
A Yes, I think so.
- Q Would beer have a different action on different people ?
A Certainly.
- Q So, although you could take three glasses of beer without any effect on you others could take only one to affect him ?
A I cannot say as to that.
- Q You are a fully intelligent man and a beer drinking man ?
A Not a beer drinking man.
- Q And yet three glasses of beer will not affect you ?
A No, sir, I think you will find there is less than 8% alcohol.
- Q How much ether is there in beer ?
A None that I know of.
- Q Do you know the component parts of beer ?
A No, sir, I do not.
- Q How much salt is there ?
A I don't know.
- Q How much sugar ?
A I don't know.
- Q You say there is less than 8% alcohol ?
A Yes, it states so on the bottle.
- Q But you were drinking glasses of beer ?
A Yes.
- Q Does it state that on the bottom of a glass of beer ?
A No, sir.
- Q You said a moment ago it was on the bottom ?
A I said it was on the bottle, not the bottom.
- Q But you were not drinking bottled beer ?
A No, sir.
- Q How do you know it is less than 8% ?
A That is the provincial government regulation.
- Q You will swear that the accused was sober at the time he made this statement ?
