AYRSHIRE NEWS

Farm and Dairy is the recognized exponent of the Dairy interests of Can-das. Breeders of Ayrshire Cattle and all members of the Canadian Ayrshire Association are invited to tend item are invited to the country early of the Canadian are invited and early of the Canadian are invited and early of the Canadian are invited and the country of the Canadian are invited and the country of the Canadian are invited as the Canadi

AYRSHIRE BREEDERS PROSPERING

The following extracts are from the report of Secretary W. F. Stephen, of the Canadian Ayrshire Breeders' Association, as presented at the recent annual meeting of the Association:

Association:

as presented at the recent annual meeting of the Association:

We have just closed the best year in the history of our Association, and of the history of our Association, and on the history of the Association of the history of the

longer pags.

Ayrahire breeders must be men of higher pags.

Ayrahire breeders must be men of highearts and high minds, and observe strictly these sciences to which I have referred and, above all, observe the strictest honesty in all our dealings. This will inspire the public at large with a concept may be a strictly on the strictly of the strictly

Exhibitions

Exhibitions
During 1912 at every leading fair and
exhibition in Ganada Ayrshires were an
attractive feature. Their symmetry of
form, large utder and tester-in fact havfairs, arge utder and tester-in fact havclass producer, cause including the second of
education of the second of the second of
education of the second of the second of
first place at many of our exhibitions and
fairs.

Belly, Tests

There was a slight falling off in the numbers entered in this test at Guelph and Ottawa. At Amherst, which is now a three-day test, there was a larger entry and Ayrshires gained the premier position and Ayrahirve gained the premier position in the mature and three-year-old classes. Milkmaid 7th, 22,79, owned by A. Melkae & Sona, Charlottelown, P. E. I., won the Sweeplakes prite and Nets. owned by F. & Milkmaid and Nets. owned by F. & in the three-year-old class. To these most we offer hearty congratulations. May their success inspire others to "go and do !lkwise."

Record of Performance

Record of Performance
This test is being more and more appreciated. Its usefulness to the breeders as a means of determining the production as a means of determining the production of dary cattle to the production of dary cattle to the production of dary cattle to the production of agriculture has granted the request from the breed associations of dairy eatile to publish the record of a cow or heifer that has given the desired amount of milk and fat to qualify, but has not freshened within the required fifteen months. The Record of Performance test is doing won-

and the requirements in the model of the desired for the formance test is doing windless for for the formance test in the formance test in the formance of Arrelines to find out what control of cows they have in their herds.

Compared with the whole number of Arrelines when the formance of the formance

the beauty of form and milky appearance the bettity of form and milky appearance to the vision of the public, the Record of Performance Test shows the capacity of our animals, but it is for the press to of our animals, but it is for the press to disseminate the facts and figures that proves to the public the excellent quali-ficient properties that the properties of the mailing library to the public that are also and journals, and publish reading agricultural journals, and publish ground the properties of out from our office. We trust the season our breeders do not utilize the local press our breeders do not utilize the local press our breeders and the present properties of the present present the present the present the present that we should. Here is an opportunity that we should be the present the present the pre-ting the present the present the present the present the pre-ting the present the present the present the present the present the pre-ting the present the

penditure. Grants to Exhibitions
These have been increased, but only
a part has been paid owing to secretaries
not filling out the forms as required by
our constitution. They put the blame on
the exhibitors in not giving the names and
repartation number when making the ourrepartation number when making the our-

Ayrshire Clubs

Ayrshire Clubs
We have two of these now in Canada.
The first one in the Menie District, the
second one in Western Ontario, with our
John McKee, of Norwich, as President and
J. L. Stansell, Tilisonburg, as secretary.
The object of these clubs is most laudable

The object of these clubs is most laudable and is as follows:

"The promotion of good fellowship and the general interests of the Ayrabire breed of cattle, by the holding of public sales at auction, by encouraging the entry of cows and helfers in the Record of Performance Text, discussing the best methods of breeding, rearing and exhibiting, and raising the attandard of excellence of excellence of

and raising the standard of excellence of the breed, to bring before the public the good qualities and exceptional merits of the breed, and other ways to generally widen and extend the interests of this on the standard with the standard with the These clubs are doing splendid work by holding meetings and judging classes from time to time. In this way they dis-seminate information, regarding the breed and create an enthusiaem and beathy business. We should have more of them
