**HOLSTEINS IN PRINCE EDWARD CO.**

It would be difficult to find as many breeders of pure bred Holstein cattle as in a limited section of country as may be found in Prince Edward County, and more particularly in the vicinity of Bloomfield. In the June 19th issue of the splendid herd of Holsteins owned by Mr. A. D. Foster of Bloomfield. Some 25 farmers in the county have started Brown Breeds herd in the past few years. He led this section in the Farm and Dairy contest in the course of a few hours' drive with Mr. Foster managing the number of some of these breeders is shown by the fact that four of them, Mr. Leaven, Edward Purtele, Hubert Mc Donald and A. D. Foster, recently clubbed together and paid a big price for a pure York State from the famous herd of Henry Stevens & Son. Mr. Leaven visited New York State and made the purchase. This calf is bred from one of the world's champions and was one of the finest specimens of the breed that our editor has ever seen.

One of the most successful breeders in the county, although at present only on a small scale, is Mr. J. Foster, of Bloomfield. He has three cows, including two pure bred, one of which is likely soon to be put to stud. His present Canadian milk records. The udder, while our editor was at the farm, one measured 5 feet 2 inches in circumference, 5 feet 6 inches in height, and the third of it in presence of our editor, were milked 60 lbs. of milk, another 75 lbs. and the third 77 lbs. Mr. Foster recently sold a grade Holstein cow, for \$125. The man who bought her has declared since that a farmer recently offered to give Mr. Foster the place where he used to have a map when he would only give three cows. He thought he would place where he would only give three cows. He thought he would place where he would only give three cows.

Alan McDonald and his son, Hubert, whose handsome farm home and buildings and Dairy, are among the Prince Edward County farmers who are enthusiastic about pure bred Holsteins. They have four pure bred Holsteins. One of them is a Burke-J. Keyes third, which she is an animal showing unusual depth and capacity.

**AGENTS** wanted to represent Farm and Dairy in the West. Write at once, and let us explain our business. Address, Keystone Hotel, Toronto. Toronto.

J. V. Edward Purtele, besides several calves, has a number of young calves, including Dixie de Annadale, bought from the noted breeder, George Rice. This animal is a fine one and has a splendid large frame and an unusually fine udder. In depth, an excellent example of the breed, and her full sister. This animal has good line and shows quality all about her. Mr. Ben Levens has only recently started in Holsteins and is very enthusiastic. Recently he has made a number of purchases, including three in New York State, and three from some of the best breeders, Brown Bros., of Linn. He has five years old, 9 of them purchased this year.

Edward M. Ball of Bloomfield, has obtained an unusually good start. His herd is built by Keyes Count De Kol and out of Mr. A. D. Foster's noted cow, Helma, De Kol's ling heifers and four calves, 2 year-old grand cows, one Lily Pieterse De Kots De Kol. This cow is only five years old but has given Mr. Ball four heifer calves. Another large cow is Rosa Heister. This is an unusually fine cow. Two of her heifers, a younger animal in the Record of Merit, 948, produced 272 lbs. of milk in 31 days of other 10 months and 15 days. A tertie Keyes second 929, sired by Keyes Pieterse, Mr. Ball intends increasing his herd until he has at least ten head and will endeavor to place several animals in the Record of Merit next year.

J. M. Branscombe. He has five registered Holsteins and two other calves for registration. Mr. Branscombe will give credit to the time did not permit of its close inspection. His house and barns are a credit to the county and will make Mr. Branscombe will compete in Farm and Dairy's next dairy farms' competition.

A stop was made at the home of Mr. Durlingham, of Wellington on Mr. Burdyladale horses bred in the e bed of Gay Baron, \$175. This stallion will probably be shown at the next show and will fair this year and will make the mare, May Queen and will make the animal. A stealer out an exceptionally good specimen of the breed. The Holstein breeders in Prince Edward County are aiming to be in the lead in the county and are working systematically in the section, notice. Our editor while in the section, noticed a number of farms where alfalfa was being grown for the first time. Without an exception the farmers growing it had obtained the results that they had anticipated and purpose increasing their acreage next year.

**GOSSIP**

Much has been said on the subject of stock foods. Testimonials, received by the Beaver Manufacturing Co., of Galt, Ont., stock breeders as Teller Bros., Paris; D. Richardson & Son, Millgrove, Ont.; Mast, Teller Bros., Galt; and others. Mast, Teller Bros., Galt; and others. Mast, Teller Bros., Galt; and others.

**FOR ANIMALS OF THE HOUSE.**

"For animals of the house, out of confinement, in even tablespoonful or one quarter. It is not fed by the hand. The results the quality of the food. When fed regularly a larger feed will give better results than a larger feed. It simply gives a food not a medicine. It simply gives a food not a medicine. It simply gives a food not a medicine.

**FARMER, SPREADING ANSWER**

Farmer, from away-back—"What does the manure spreader do?" "What does Dealer, (who has learned his lesson) tell you?" "Why, the manure spreader spreads the manure over the field. It eventually spreads the crop yield into it. It eventually spreads the crop yield into it. It eventually spreads the crop yield into it."

better profits in the soil of every tiller of the soil who has enterprise enough to spread himself into the possession of a manure spreader. That's what the spreader does."

I have received the pure bred Berkshire sow sent by Farm and Dairy Co. in return for a club of seven new subscribers. The pig is O.K. and is fully commensurate with my expectations. Wm. J. Foster, Grey Co., Ont.
