AGENTS WANTED

Civil engineers know that the semi-regular built road, the BUDAPEST ROAD, was laid in 1875, and that it has been successfully used in DIFFICULT POSITIONS since, both THERE and IN BELGIUM and GERMANY. The PRINCIPLE upon which this road was built has been thoroughly demonstrated by THIRTY (30) YEARS' PRACTICE.

THE AMERICAN MECHANICAL APPLICATION of this principle in road building (The Nash Road) has been very different. It has been COMPLETE, not semi, FAR MORE EFFECTIVE, IN MANY MORE WAYS, and is VERY MUCH CHEAPER.

Agents wanted throughout Canada for this road. Address The Nash Road, Borough of Brooklyn, N. Y. City.
