

**The Railways Look to Permanency**

They are the largest users of fencing in the country, and investigate thoroughly the merits of the fences they use. More "Ideal" fencing is being used by the railways this year than any other make, demonstrating its superiority. Investigation has shown that it decreases the cost of maintenance.

Farmers who purchase "Ideal" are not experimenting. "Ideal" is made of No. 9 galvanized steel wire throughout.

A postal card will bring FREE our Illustrated Catalogue of Fencing and Gates. Write for it to-day.

**BIBBY'S "CREAM EQUIVALENT"**

THOMAS: "That calf seems to be doing all right, Mary?"  
MARY: "Yes! I have never had any trouble raising calves since using 'Cream Equivalent'."

**FOR CALVES**

It is used to substitute cow's milk where milk is scarce; and to enrich skim or separated milk when these products are available, or, if necessary, for raising calves without any milk whatever after a few weeks old. A farmer can, by its means, rear good calves and pigs, and sell his milk or the butter and cheese fats. It contains no chemicals, and can be fed with perfect safety to high-class stock. Calves take to it readily and thrive well on it. No other production does the work with the same effectiveness. If you are short of milk or have only separated milk for your calves make a trial of "Cream Equivalent."
