
McLAUGHLIN CARRIAGE COMPANY, LIMITED

No. 248. Improved "Hamill" Speeder

Gear—Hamill's patent. Choicest second growth material throughout; the iron work is hand forged; best stock, neat and light, but tough and substantial.

Body—New design, exceptionally neat and light, of choicest material, very carefully made.

Painting—Gear bike red or black, body black.

Trimming—Upholstered in blue cloth; velvet mat supplied regularly.

Shafts—Extra choice second growth hickory; strongly braced; spoon end whiffle-tree; trimmed with calf skin; round stitched straps.

Note.—Height of body from ground, 25 inches. Supplied only in 48-inch track

Telegraph Code: - - Abodance.
