Satisfactory dealing guaranteed.

**A Freak Pig.**

Henry Spitzig of near Chepstow is the owner of a three weeks' old pig with no legs. It is a freak that should grow tender pork if there is anything in the practice of the Walkerton branch of the Dept. of Agriculture who used to pen chickens and feed them strong so they could stand still and grow tender meat, instead of gading about putting on muscle.

**WOMAN SUFFRAGE.**

**Its War Time Aspect.**

London, Eng. The women of England are doing their duty. They are taking care of the wounded, or if they cannot assist in work of that kind they are adding their savings to promote the good work. They are knitting and sewing for the soldiers at the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "militants" have turned all their energies to aid the fighting men of England, and so suffrage may soon come after this terrible war is over.

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day, because it is made without alcohol or narcotics. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper.

Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble. When that is corrected the other symptoms disappear.

St. Thomas, Ont.—"I wish to say for the benefit of other women who suffer that I recommend Dr. Pierce's Favorite Prescription as a great help. I have personally recommended the same to many who in turn have been helped a great deal by its use."—Mrs. F. J. POWDEN. 19 Oliver St., St. Thomas, Ont.

**ELLIOTT Business College**

TORONTO, ONT.

This college was asked to fill 124 positions in July and 117 in August. The thorough work of this school is well known. Write to-day for our catalogue which explains the unsurpassed advantages offered here. Students admitted at any time.

Yonge and W. J. Elliott,  
Charles Sts. Principal.

**Visitor from Florida.**

Mr. John Connell, a former well known resident of this section, spent several days here last week with Mr. A. E. Sherrington, and while here the two old friends took a number of motor rides through the country, calling on old-time acquaintances. Since disposing of his farm near Mildmay four years ago, Mr. Connell has been making his home in Florida where he has found a climate which he considers nearly ideal. Mr. Connell states that on the higher ground in Florida, climate is exceedingly healthful. No-where is the temperature more equable and it has an advantage over California in that the wet season does not come in the winter, which is perfectly dry. Mr. Connell found the growing of grapefruit and oranges an agreeable occupation. A fruit farm which he recently disposed of, produced over three thousand dollars worth of grapefruit and oranges off seven acres. Mr. Connell comes north for a trip every summer but takes great comfort out of the Florida winter and could not be paid to winter here.—Telescope.

**About the House of Refuge**

The Bruce County House of Refuge has about fifty inmates at present, which is the general average. The board is provided at a weekly average cost of \$1.62 per inmate. Last year there was 40 acres of farm land cropped in connection with the institution, the inmates assisting in the work. Some of the products were:—12 tons of hay, 2,000 bushels of mangolds, 45 bushels of wheat, 200 bushels of barley, 755 bushels of oats, 150 bags of potatoes, 2 acres of corn, 12 bushels of onions, 1,187 lbs of butter, 334 doz of eggs, 1,000 lbs of pork. The institution produces its own milk, butter and pork entirely. At the barn are 7 milch cows, 2 horses, 5 hogs and 100 hens. The manager, Mr. Wiles, states that whiskey has been the cause of sending more people there than anything else during his term of office. Practically all the men there are backsliders. In religion 19 of the inmates are Presbyterians, 12 Methodist, 8 English Church, 11 Roman Catholics, 1 Disciple 2 Latter Day Saints. In nationality there are more Scotch than any other, the Irish coming second and the Germans last. The oldest inmates are Nicholas Benson from Bruce Tp, who is 96 years of age, and Mrs. Vanderburg only three years younger.

**Items Of Interest.**

If the rise in the price of hogs continues much longer, the possession of a pork chop will be an evidence of wealth. To display two would be, of course, mere vulgar ostentation.

A woman of twenty-six, who has been kept a virtual prisoner in the home of her father in Chatham township for the past six years, has just been found by the authorities. She crawls on her hands and knees like an animal, and when placed on her feet endeavored to crawl up the wall. She cannot talk, and is believed mentally unbalanced. Seven years ago, when her mother died, she was normal, according to neighbors. The father owns a large farm and has money in the bank, but refuses to either clothe her or send her to an institution, so the authorities are acting in the matter.

If some housewives looked as diligently through the advertising columns of their local newspapers as they do through the mail-order catalogue they would find so many merchandising opportunities that buying out of town would be no longer practiced.

Bitten by a mad dog some weeks ago, George Dynes, blacksmith, of Southwold station, was sent to Pasture Institute, Toronto, for treatment. On his return home the wounded arm showed reactionary symptoms and the limb commenced slowly ossifying in the hand and hardening of the flesh muscles have now reached the shoulder. Mr. Dynes fears that the disease may get beyond control of the physicians and touch some vital spot. The arm is a solid mass from the finger tips to the upper muscles. Mr. Dynes will consult with some prominent surgeons in London, and a serious operation may follow.

Easily rocked are the three-bar grates which smash up clinkers easily and last longer because each grate is three-sided.

**McClary's Pandora Range**

The man who designed the Pandora knew his job. I know that and that is why it carries my guarantee as well as the makers'.
