JOHN D. WOULD LIKE TO BE A HUMORIST

Sends Greetings to the American Press Humorists Annual Session

OFFICERS ELECTED

DENVER, Colo., August 26.—The following letter from John D. Rockefeller was read at the American Press Humorists today: "I am glad to hear that the American Press Humorists are holding their annual session in Denver. I am sure that it will be a most successful one. I am sure that the members of the association will be able to do much good for the world. I am sure that the members of the association will be able to do much good for the world. I am sure that the members of the association will be able to do much good for the world."

FOREST HILL

Cleveland, Ohio, Aug. 19, 1903. "Gentlemen: With the pleasant memories of an official call by the American Press Humorists, I send you my best wishes for a successful convention. The success of the convention will depend upon the cooperation of every loyal and stealing will be open for anyone to read. The days of the crooked, flashy solicitor are numbered."

"In a few years we should have a complete rogues' gallery where the record of every rascal who discredits the profession by lying and stealing will be open for anyone to read. The days of the crooked, flashy solicitor are numbered."

"We have heard much recently about the so-called fraud orders of the United States post office department. Any business that comes under the suspicion of the post office department may be denied the use of the mails. Such a procedure, without a fair hearing, is autocratic and un-American. We are more concerned in this matter than any other organization. In the best of good wishes, gentlemen. You are the true specialists in dyspepsia. Charity is born of a good, hearty, honest heart. I wish you, collectively and individually, all success. I am sorry that I cannot attend your association. I hope to receive you again some day at my home.

"Fraternal yours.

"JOHN D. ROCKEFELLER." "The American Humorists, Denver, Colo."

The convention of American Press Humorists today elected J. Edmond Cooke of Cleveland secretary and treasurer, and elected Frank J. Seagriff of Los Angeles president.

The matter of the next meeting place was left to the executive committee and instructions given the secretary to investigate the possibilities of Panama, Cedar Point, Ohio, Atlantic City and Put-in-Bay Island, Lake Erie.

KING ENTERTAINS

FRENCH PREMIER

MARIENBAD, Aug. 26.—Among the guests at King Edward's luncheon today were M. Clemenceau, the French Premier, and M. Jowansky, the Russian foreign minister. ENTERPRISE COMPANY DECIDES TO REBUILD FOUNDRY AT SACKVILLE

Announcement Made Yesterday to the Sun by W. S. Fisher—It Is Expected New Foundry Will be Ready by the First of Next Year—Will be Decidedly Modern

The Enterprise Foundry Company will rebuild their plant at Sackville. The contract for one of the new buildings has already been let and it is expected that the rebuilt foundry will be turning out its finished product by the first of next year. W. S. Fisher of the Enterprise Foundry Company, when asked concerning the matter by a representative of the Sun yesterday, said the company's new plant would have entirely modern buildings, in the designing of which the greatest attention had been given to safety, space, convenience and light. The buildings will be grouped about the power house of the old plant, which was untouched. By the first of next year, the new plant will be ready to start work. The main buildings are to be two hundred feet long with monitor roofs for the purpose of obtaining all the light possible. The erection of the new buildings is to be commenced at once and it is expected that they will be completed in six or seven weeks. Mr. Fisher said that the company was influenced to rebuild in Sackville by the facts that its power house was practically intact and its expert workmen who had been in the company's employ for years all resided in Sackville. The decision to build only one story buildings was the result of the tendency of today to have all machinery upon one floor and also to avoid falling floors in the event of fire. Railway sidings are to be laid into the plant so as to expedite the handling of both raw material and finished product.
