number of cases the bonds on properties have been taken up and on the first of the month more still will be taken up. NELSON.

A mining transaction which will be of the utmost importance to Nelson, says the Nelson Miner will be consummated on Monday next May 1. On that date the Duncan Mines, limited, pay the last in-stallment on the bonds on the Granite and Royal Canadian groups on Eagle creek stallment on the bonds on the Granite and Royal Canadian groups on Eagle creek. The total amount of the bond is \$80,000, \$50,000 on the Granite and \$30,000 on the Royal Canadian, the amount of the first payment being \$60,000. There is no doubt about the matter, as cable instructions have been received from the home office in London to take up the bond, and the necessary funds are now lodged in the bank. This company, which is a strong one financially, has been employing from 35 to 50 men for the past year, and have already spent fully \$50,000 in the development of the property. The Granite group belonged to Messrs. J. Johnson and L. P. Swegberg, and was bonded by Captain Duncan in April 1898.

Direct circuits without way offices being connected will then be at the service of the Rossland public, connecting not only with all points in the Republic camp and all in the Boundary Creek country, but also with all points in Creek country, but also with all points in Washington, Idaho, Oregon and Califor-nia. It is intended that the service shall be a continuous one day and night. Ru-mor here has it that a franchise now bemor here has it that a franchise now be-ing applied for from the city council for a local telephone system that will be efficient in every respect, will be under the same management. Mr. Sabin, however, gave no hint of his intentions in this respect. Rossland people wound, however, be pleased if the rumor proved true.

YOU MUST DIE, Said His Physician. South American Kidney Cure Gave the Doctor the Lie.

Ridney Cure Gave the Doctor the Lie.

It Cured Bright's Disease.

La Grippe will leave its brand on the weakened spot. A bright young man in a Western Ontario city, son of a well-known lumberman, found that the influenza epidemic had developed in him that most fatal of all kidney troubles Bright's Disease. Local physicians treat. Bright's Disease. Local physicians treated, but to no purpose. He consulted specialists, only to be told that his life hung on a slender thread, and recovery was impossible. But he pinned his faith to the adage, while there's life there's hope. He began using South American Kidney Cure, and in three months from the day he commenced using it, the same physician who said he must die, pronounced him cured. Sold by Goodeve Bros.

Creek Cannot Be Had.

of Witnesses as to the Amount of Water in the Creeks.

On Friday before John A. Turner, as-During the week there have been a good many strikes some of great richness made in the outside camps and a number of properties have changed hands. In a large number of cases the bonds on properties asked for 100 inches from each of water from Rock creek, 100 inches from each of the three torks of Murphy creek, 100 inches from each of the three torks of Murphy creeks and 150 inches from Bounder creek and 150 inches from Education Bounder creek and 150 inches from each of the three torks of Murphy creeks were concerned there was strong opposition trom the Canadian Pacific rail-way and the Canadian Smelter works, but no opposition to the other streams which

way and the Canadian Smelter works, but no opposition to the other streams which had been included for the future was manifested, because no filings had been made on them.

City Engineer H. B. Smith, the first, and indeed the only witness for the city, deposed that in February last there were 150 miner's inches at the head of Rock creek, and this was the lowest possible time in the whole year. He went on to describe the position of the different streams and the results of the surveys he had made, which showed that even if the filings on behalf of the Trail smelter were good in law, there was still a considerable amount of water which was not yet filed on in Rock creek. He showed the positions of the files. on in Rock creek. He showed the posi-tions of the filings on Murphy creek and its three forks, and that the law had not been complied with further than by sur-veying, and none of the water had yet

veying, and none of the water had yet been used.

The opposition companies, represented by C. R. Hamilton, put W. H. Aldridge, manager of the Trail smelter, on the stand, and elicited from him that the water from Rock creek had been granted to the smelter for the use of that institution, and was being constantly used. The water from this stream was not more than was necessity. this stream was not more than was necessary for the smelter, especially when the water was lowest.

W. Prescott, who was the next witness,

is the foreman of the flume, and he de-posed that in September last he measured the water in the flume and found that there was only 36 miner's inches in the flume, and that it sometimes fell below that.

that.

George Widner, who was a foreman around the works, swore that there was no waste around the works, and that all the water that came down the flume was needed for the ise of the smelter.

Mr. MacNai, for the city, argued that the title of the Canadian Smelter works to the water was not good, as the law under which title was claimed had been repealed some time prior to the granting repealed some time prior to the granting of the water rights to the smelter. As for Murphy creek and its three forks,

these had never been granted, or, indeed, properly applied for, as no work had been done except the survey work.

Mr. Hamilton argued that the title to both Rock and Murphy creeks was perfect in the hands of the smelter people, and could only be taken from them by expropriation proceedings

adjoining the Mollie Hughes, are contemplating putting further development work on that property at once.

The bond on the Frisco has been thrown up. The bonders failed to strike the ledge.

A good strike is reported from Four Mile upon a claim in which H. T. Bragdon and J. Perkins of New Denver, are interested. A foot of clean galena is the extent of the Montreal capital has taken over the Sovereign mine. It will now be operated by the Montreal chold of Gold Silver Development company.

Commissioner Turner Thinks Rock A Number Intend to Erect Cottages This Summer.

Wide Divergence Between the Evidence A Fine Cottage Put Up That Is to Be Rented-Bank of Hallfax

There will be considerable building dur sistant commissioner of lands and works ing the coming summer and fail in this at Nelson, the question of granting water city. Among those who will build will be of the Bunker Hill and Sullivan privileges for city use came up at the re-corder's office here. The city, which was represented by A. H. MacNeill, Q. C., asked for 100 inches of water from Rock cost \$3,000 on the corner of Spokane street

and Union avenue.

J. A. Kirk, P. L. S., intends to put up a handsome cottage on Phoenix avenue, near the corner of Davis street. He expects to spend about \$1,200 on this cottage.

J. B. Johnson, the broker, will erect a one and a half story cottage on Earl street near First avenue. The building will be near First avenue. The building will be provided with all modern conveniences and will cost from \$1,800 to \$2,000. John J. Honeyman, the architect, is pre-

paring plans for a cottage which he pro-poses erecting for himself at the intersec-tion of Union avenue and College street. tion of Union avenue and College street. This will cost about \$1,200.

The Merchants' Bank of Halifax purposes putting up a bank structure of three stories at the corner of Washington street and Columbia avenue. This structure will be built of brick and stone, and it is said it will cost \$20,000. It will be, perhaps, the finest structure in he city when completed

pleted.
J. K. McCallum has about finished the erection of a fine cottage on Victoria avenue and Davis street. The ground dimensions are 28x52 feet. There are three bedrooms, a parlor, a kitchen and a sitting room. It is provided with electric bells, room. It is provided with electric bells, electric lights and a large bay window. In the parlor there is a wide, open grate, provided with a handsome mantle. Besides all this it is beautifully finished inside and out. This building was put up so that it could be rented. It is one of the first of its kind, therefore marks a new era in house building here. Heretofore people erected houses for their own use here, and these were in most instances shacks. The shacks were the many while the finished residences were the few. Mr. McCallum believes that buildings of the kind that he has put up will rent readily, and if the first one is successful in this regard he will erect a number of others for the same purpose.

Resolution of the City Council of Grand Forks in Regard to Action of Justices of the Peace.

really understood the lower end of the branch some time this summer, but during the past week the Canadian Pacific officials began to fear that the Great Northern might get into the district a head of them, and it was decided to the branch at once.

The strong of the contracting firm of Poupore & McVeigh, accordingly left Nelson on Thursday, April 27th, with a crew of 30 men. So far, but 14 miles on the line have been located and no cross-sectioning has been done. There is said to be considerable snow upon the ground, so that the work which can be done at present will be restricted to slashing out a portion of the right- of-way.

So far as the Canadian Pacific intentions could be learned recently, the first 35 miles of the work will be got ready as soon as possible. Engineer Walkem of Vancouver, will probably reach Lardo next week and begin cross-sectioning, and as soon as they can place 300 men upon the grade to good advantage Poupore & McVancouver, will probably reach Lardo next week and begin cross-sectioning, and as soon as they can place 300 men upon the grade to good advantage Poupore & McVeigh will engage that number. They have a transportation arrangement with the Canadian Pacific railway which will enable them to draw men from any pointie in Koôtenay south of Revelstoke and east of Rossland. The scale of wages upon the work will be \$2 per day.

The Columbia Stage company, operating between Bossburg and Columbia, has, at the instance of Mrs. Elsie Parks of Phoenix, B. C., been served with a writ, claiming \$1.000 damages for the alleged loss of a trunk last January.

It has transpired that the complainant in the case of the Queen vs. Dufour for the alleged wilful mis-translation of an affidavit was Phillip Cusson, and not A. L. McDonald, as previouely stated.

McDonald, as previouely stated.

NARROW CUTS FOR BROAD GAUGE
The Outs From Trail Up on Curves
Only 14 Feet Wide.

The broad-gauge road from Trail up to Rossland is likely to prove less advantageous than was expected, as the cuts nacessary along the road have been made as narrow, or, in some cases, narrower than on the narrow-gauge at present in use. One of the contractors, after finishing the work, told a prominent citizen that he had been building railroads for many years, but he had never yet seen such narrow cuts made in curves between rocks. In some places these were only 14 feet wide, while the broad-guage cars coming through a cut on a curve will require much more for safety. Of course they can be widened, but it is not considered probable that anything will be done at present.

Conidn't.

Deadly Rioting and Bloodshed in the Cœur d'Alenes.

ONE MAN WAS KILLED

Blown Up-The Loss is a Quarter of a Million of Dollars.

Spokane, Wash.; April 29.—[Special.]— The trouble between the union miners and the operators of the Bunker Hill & Sullivan mines at Wardner, Idaho, which broke out last Monday because of the re broke out last Monday because of the re-fusal of the mine operators to pay the union scale for unskilled labor, resulted today in the most disgraceful and deadly rioting this section of the country has seen since the labor war of 1892.

seen since the labor war of 1892.

One man, a union nuner, is dead, and another mortally wounded as the result of a volley fired by the union strikers. The mills of the Bunker Hill & Sullivan have been blown up by the strikers with giant powder. The property loss will amount to a quarter of a million dollars. This work of destruction was done by Wardner strikers and union sympathizers from (anyon creek, about 20 miles from Wardner.

A mob of nearly 1,000 men, armed and masked, seized a train consisting of nine

masked, seized a train consisting of nine box cars and one passenger car at Burke and immediately started for Wardner, where they arrived at noon, being met at Wardner Junction, a mile and a half out of town, by a great crowd of union strik of town, by a great crowd of union strikers. The miners from Canyon creek brought with them 3,000 pounds of giant powder, and after a parley of two hours 140 masked men, armed with Winchesters, with the Burke men in the lead, and the Wardner men following, started with yells for the Bunker Hill & Sullivan mill and other buildings, a third of a mile from the depot. They sent pickets ahead from the depot. They sent pickets ahead and one of these pickets fired a shot as a signal that the mill was abandoned. This was misunderstood by the main body of was misunderstood by the main body of the mob, who imagined that the non-union miners in the mills had opened fire on them, and they began firing on their own pickets. About 1,000 shots were thus exchanged between the rioters and their pickets, and Jack Smith, one of the pick-ets, formerly of British Columbia, and a noted figure in drill contests, was shot dead. The fatal error was discovered af-ter a few seconds firing and Smith's body

ter a few seconds firing and Smith's body was brought down from the hillside. By this time the strikers had taken pos-session of the Bunker Hill & Sullivan mill, which they found deserted, the manage having directed his employes not to ris having directed his employes not to his their lives by battling with the mob. Powder was called for and 60 50-pound boxes were carried from the depot to the mill. The heaviest charge was placed among the machinery of the mill. among the machinery of the mill.

Another large charge was placed under the brick office 'building. Other charges were placed around the mill. Then the boarding houses, a frame structure, was fired. Fuses leading to the charges were lighted, and the strikers, carrying the dead body of the picket, retired to a safe distance.

At 2:26 o'clock the first blast went off. It shook the ground for miles, and the

At 2:26 o clock the first blast went off. It shook the ground for miles, and the buildings in Wardner, two miles away, trembled. At intervals of about 30 seconds four other charges went off, the fifth being the largest, completely demolishing the mill. The loss to the Bunker Hill & Sullivan company is estimated from \$250,000 to \$300,000.

In a few minutes the strikers went back In a few minutes the strikers went back

to the station, the whistle was blown for stragglers, the mob soon climbed aboard, and at 3 o'clock, just three hours after its arrival, the train pulled out for Canyon Creek.

have not been seen since. Union men working in the Last Chance left this morning, presumably to take part in the

Portland, Ore., April 29.—By Associated Portland, Ore., April 29.—By Associated Press.—President A. L. Mohler of the Oregan Railway & Navigation company, at 1:30 this morning telegraphed the officials in this city from Wardner Idaho, that the striking miners had fired the Bunker Hill & Sullivan mine, and that it Bunker Hill & Sullivan mine, and that it was burning. It is claimed that the mine is loaded with dynamite, and if this proves true the entire property will be a total loss. The striking miners are also reported to be in possession of the Northern Pacific and Oregon Railway & Navigation trains and have complete control of the situation. There are about 100 marked men heavily armed at hand about of the situation. There are about 100 masked men heavily armed at hand about the mine and there have been several skirmishes with the authorities, during one of which one man is reported to have the control of the co skirmishes with the authorities, during one of which one man is reported to have been shot. There are fully 800 miners at Wardner. They are forming to go into the mine in a body and drive out the 270 non-union men employed there. President Mohler has notified the governor of Idaho of the situation and asked that officer to have troops dispatched to the scene of the trouble. The governor has promised to do everything in his power to preserve order and prevent bloodshed, but it is believed that unless prompt steps are taken there will be great loss of life and destruction of property. Since the telegram from President Mohler was received the strikers have cut the wires and telegraphic communication with Wardner is cut off.

Chronic Diseases Of whatever nature treated with unfailing su

RUPTURE New method, sure cure painless treatment, no detention from work. KIDNEYS

"Doctor Reeves' treatment helped me from the first. My sense of taste and smell has returned. I have no headache, and my kidney trouble is cured."

"He Cured Me of Deafness"

"My deafness came on about six years ago with bad ringing noises in the head, which troubled me greatly in conversation. I had to ask people to raise their voices when speaking to me, and around the table I could only hear the sound of voices but could not contain the sound of voices, but could not catch a word. My hearing rapidly improved under Dr. Reeves treatment. I now hear well, and the ringing noises have entirely stopped.

"He Saved My Eyes"

"My eyes were so bad I had to stop reading entirely. The dizziness, the blurring and pain around the eyes made me fear total blindess. Dr. Reeves' mastery over diseases of the eyes is certainly wonderful. I can now see well, and best of all, can read with comfort. I was cured in a short time, while other doctors tampered with my eyes for the past six

'He Cured My Stomach"

Before I consulted Doctor Reeves my stomach was very bad. The severe pains, belching, bloating and sour risings was awful. I lost 40 pounds in less than a year. I thank God it was my fortune to go to this great doctor, who cured me."

He Cured Me of Catarrh "I had catarrh for a long time. It afgrowths in my nose. Doctor Reeves' New Treatment is just splendid. I never tried anything that did me so much good. I am recommending it to all my friends."

Out-of-Town People People afflicted with any disease what-soever should write to Doctor Reeves.

He Cured My

Consumption" "Doctor Reeves cured me of consumption after two doctors had given me up to die. His Discovery is certainly an abso-lute cure for consumption if taken in time. If you have consumption go to Dr. Reeves for he is the only doctor I have ever heard of that could really cure consumption.

'He Cured My

Heart Disease" "I had heart trouble for 16 years, and would often drop senseless on the streets and for two years was so bad I could not be left home alone. And would faint as often as two or three times a day. My orten as two or three times a day. My circulation was poor and sluggish and I had palpitation of the heart. After taking Doctor Reeves' treatment for one month I had but one spell. And now I heartily indorse his Wonderful New System of treatment."

The Character of Dr. Reeves'

"I had liver trouble. Every two weeks I would have a spell of vomiting that would confine me to my bed for three or four days at a time. I was nervous, easily discouraged, gloomy and irritable. I went to Doctor Reeves August 15th last. I have not had a sick headache or a vomiting spell since that time."

ASTHMA

practice, the range of cures he has performed in the various diseases of the HEAD, THROAT, EARS, THE LIVER, THE KIDNEYS, THE EYES, THE LUNGS, THE STOMACH, have more than words can tell proved that he possesses the quality of medical learning that is essential to diagnose and properly treat all those diseases which attack the human frame.

"Doctor Reeves' treatment was a revelation to me. Each inhalation of the lifegiving medicine brought comfort and ease. Now I am able to sleep in bed like a Christian, a sweet, refreshing sleep, like that of an infant. I work all day in the mill and experience no discomfort. With the exception of a slight cough, I AM A CURED MAN. My trouble was asthma."

Creek.

During the fusilade from the guns of the mob, Jim Chayne, a Bunker Hill & Sullivan mill man, was seriously shot through the hips. It is reported that he was carried off by the strikers, and his wound is probably fatal. J. J. Rogers, a stenographer in the employ of the company, was shot through the lip, but his wound is trival.
