The White Lead Behind a Paint Determines its Quality

ONLY a very real quality in a White Lead can give successful results in paint-mixing. A worthless compound masquerading as White Lead cannot impart to paint those essential qualities without which it never gives permanent satisfaction.

To avoid risk of failure in mixing your paint, make it a point to use only paint in which the White Lead used is

Brandram's Genuine B.B. White Lead

It is absolutely pure, whiter than others; of great covering capacity and long life. Working under the brush with ease and freedom, it produces a tough, elastic film that does not crack or peel.

Its real cost is less than that of seemingly cheaper white leads—because it produces a beautiful protective paint that lasts for many years. White Paint of unknown ingredients never looks well and rarely lasts two years.

THE CORRECT WAY TO TREAT A COLD

A cough is not a distinct disease, it is the result of inflammation caused by a cold. Therefore, the only way to cure a cough is to allay the inflammation which invades the delicate bronchial tubes. All of the narcotics in the world will not correct the conditions which cause a cough—they simply deaden the senses and afford temporary relief.

Penslar White Pine and Spruce Balsam with Menthol will promptly soothe and heal the inflamed membranes and overcome the nervous irritation. Price, 25c and 50c the bottle.

CANADA WILL BE PROUD OF WHAT HER TROOPS HAVE DONE—KING GEORGE.

London, April 16—King George sent the following message today to Field Marshal Sir Douglas Haig, commander of the British armies on the western front: "The whole empire will rejoice at the news of yesterday's successful operations. Canada will be proud that the taking of the coveted Vimy Ridge has fallen to the lot her troops. I heartily congratulate you and all who have taken part in this splendid achievement."

FRENCH SMASHED THE GERMANS ALONG FRONT OF 25 MILES

In a Battle of Desperate Violence Between Soissons and Rheims, General Nivelle's Troops Captured the Germans First and Second Line Trenches More Than Ten Thousand Prisoners, and Much War Material

PARIS, April 16—The French began an attack this morning, after several days artillery preparation, between Soissons and Rheims. Several German lines were carried, and more than ten thousand Germans were taken prisoners. The official announcement of this success issued by the War Office tonight describes the fighting as being of the utmost violence.

The text of the statement reads: "Between St. Quentin and the Oise artillery fighting continued throughout the day. South of the Oise we have made new progress on the plateau east of the line of Barisis-Quincy Basse.

"Between Soissons and Rheims, after artillery preparation which lasted several days, we attacked this morning the German lines along an extent of about forty kilometres (twenty-five miles.) A desperate battle was fought along the whole front, where the enemy had grouped very important forces and numerous artillery. Everywhere the valor of our troops overcome the energetic defence of our adversary.

"Between Soissons and Craonne the whole German first position fell into our power. East of Craonne our troops occupied the enemy's second position south of Juvincourt. Further to the south we carried our line as far as the outskirts of Bernericourt and up to the Aisne Canal at Loivre and Courcy.

"Violent counter-attacks, launched several times north of Ville-Au-Bois, were broken down by our fire with considerable losses to the enemy.

"The number of prisoners made by us to the present exceeds 10,000. Likewise we captured important material which has not yet been inventoried.

"In Champagne artillery fighting continued actively during the day on the various sectors. The cannonade was intermittent on the rest of the front.

"Belgian communication: There was artillery fighting along the whole Belgian front.

"Eastern theatre, April 15—The artillery was particularly active on both sides on the Serbian front and west of the Cerna. A surprise attack attempted by the enemy on one of our posts at the Cerna bend was repulsed. Skirmishes continued in the zone west of Koritza."

DESPERATE ATTEMPT BY GERMANS TO BUY OFF BIG STEEL COMPANY

Charles M. Schwab Offered One Hundred Million Dollars On Condition That He Induce the Bethlehem Corporation to Abandon the Manufacture of Munitions for the Allies.

BOSTON, April 16—An emissary of the German Government recently offered Charles M. Schwab the enormous sum of \$100,000,000, on condition that he induce the Bethlehem Steel Corporation to abandon the manufacture of munitions for the allies.

Mayor Curley yesterday at a patriotic meeting in the Roxbury high school building, created something of a sensation when he declared that he had received this information directly from Mr. Schwab.

The mayor said that the statement was made about two weeks ago at a launching of an Argentine transport at Fore River shipyards, and that Mr. Schwab had told him the offer was made two days before this country declared a state of war with Germany.

STATISTICS OF INCORPORATED TOWN AND MUNICIPALITIES

A blue book of twenty-one pages with the above title, recently laid before the Legislature of the Province, contains interesting figures. The following partial table, showing per capita assessment of real estate in twenty towns, shows a great range of values. Whether the differences are altogether real, or exist partly in the minds of the assessors, is hard to determine.

BRITISH PATROLS HAVE REACHED STREETS OF LENS

LONDON, April 16—Although British patrols have been in the streets of Lens and General Haig's men are in the outskirts of St. Quentin, the fall of neither of these towns has yet been officially announced.

The Germans, it is apparent, have sent in their reserves and are making a desperate defence to enable their engineers to complete the destruction of the mines and factories of Lens which might have been useful to the Allies.

Despite the fact that all along the line between Lens and St. Quentin the German resistance has stiffened, Field Marshal Haig reports today the capture of Villeret, which straightens his line northwest of Lens. Counter attacks which the Germans have launched at Monchy and Lagincourt suggest that the British are approaching dangerously near the new German line, which, according to unofficial accounts, the Germans had no time to complete before the British offensive was launched.

Canada Accepts Reciprocity in Wheat and Flour.

Ottawa, April 16—The government has placed wheat, wheat flour and semolina on the free list, thus opening the United States markets to these products.

Under the reciprocal clauses of the United States tariff the country will admit free wheat and wheat products of any country which admits American wheat without duty. The Canadian tariff has heretofore prevented this privilege being availed of. The action taken by the Canadian government this afternoon removes the duty and automatically opens the United States market to Canada and the Canadian markets to the United States.

The order is partly due to difficulties of export aboard. Owing to the shortage of ocean tonnage the fact is that for Canadian wheat of lower grades the British market has been practically closed.

The duties removed are ten cents a bushel on wheat, and forty-five cents on flour.
