LARGEST SALE IN CANADA.

Fredenburgh the Man.

The Liberals of South Leeds Unanimously Endorse the G. O. M. of Westport as Their Candidate for the Commons.

When the Liberals of South Leeds met in convention at Delta on the 26th of March, 1896, and selected Mr. Wm. Fredenburgh as their standard-bearer for the House of Commons, they were led to suppose from the signs of the times that the elections would be brought on during the next few months. As over a year had elapsed and the elections must of necessity be held shortly, it was decided by the executive of the Reform Association to call the leading men of the party together at Delta on the 16th inst., to consult on matters of organization for the coming election, as well as the election of officers for 1896. The almost impassable condition of the roads prevented many from coming, but when the proceedings opened the hall was comfortably filled. Owing to the absence of the President, O. D. Cowan, of Gananoque, through illness, Mr. W. J. Webster, of Westport, Vice-President, occupied the chair, and W. P. Dalley, of Rockport, the very efficient Secretary of the Association, took charge of the proceedings. The chairman briefly explained the object that had brought them together at this time, and the election of officers for the year was proceeded with, with the result that the old officers were all re-elected as follows:

President—O. D. Cowan, Gananoque. Secy-Treas.—W. P. Dalley, Rockport. Vice-Pres.—W. J. Webster, Westport. Vice-Pres.—A. Hens, I. C. Alguire, Rockport. Secretary—T. K. Scoville, Rockport. Secretary—Bastard and Burgess, L. N. Phelps, Delta. Vice-Pres.—North Crosby, H. W. Lockwood, Westport. Secretary—J. Donnelly, Westport. Vice-Pres.—Front of Yonge and Scott, D. S. Mallory, Mallorytown. Secretary—M. J. Connolly, Caintown. Vice-Pres.—Gananoque, Dr. Bowen. Secretary—W. A. Peck. Vice-Pres.—Front of Leeds and Lansdowne, A. E. Slater, Warburton. Vice-Pres.—Rear of Leeds and Lansdowne, W. J. Burns, Seely's Bay. East, El Johnstons, Supton. Vice-Pres.—Newboro, J. A. Shaver. Vice-Pres.—Rear of Yonge and Scott, W. H. Kelly, Athens. Vice-Pres.—North Crosby, C. E. Johnson, Elgin. Secretary—Dr. Coon, Elgin.

The Chairman announced that he had the pleasure of severing gentlemen present to the meeting, and that several speakers had consented to say a few words to the convention on the political situation.

The first resolution was moved by R. E. Phillips, seconded by J. P. Lamb, in which the Liberals of South Leeds endorsed the nomination of Mr. W. H. Fredenburgh, declared implicit confidence in him as their candidate, and expressed the hope that his health would continue to improve, and that when the fight was over he would be the representative of the riding.

C. E. Britton and M. J. Connolly presented a resolution expressing the confidence of the Liberals of South Leeds in the Hon. Mr. Laurier, the leader of the Liberal party in Parliament, and R. J. Murphy and S. A. Taplin another endorsing Sir Oliver Mowat, the Premier of Ontario. W. H. Fredenburgh and W. G. Dalley presented a resolution expressing sincere regret at the illness of the esteemed President, O. D. Cowan of Gananoque. The resolution expressed high esteem for him and expressed the hope that his health would be restored to do further work in the good cause of reform.

Mr. Fredenburgh was then called to the platform, where he received a perfect ovation. He was visibly affected at the spontaneous expression of confidence in him, which almost prevented him from speaking. He said many of his friends knew that his health had been very poor for some time past. This, coupled with the domestic affliction in his family, had placed him in such a position that he would be pleased if the Reformers of South Leeds would allow him to retire, and place someone else in the field. His heart was in the work, and he only wished that he had the needed strength to go to the fight, for he believed that even Tories in South Leeds could be reformed on this occasion. In concluding terms he referred to the present members (Mr. Geo. Taylor) wobbler on the Manitoba School Question. On many public platforms throughout the county he had declared that he would vote against remedial legislation, but he had against himself the Government and the people of the county, and he would vote to grant this obnoxious measure. He also referred to the Taylor and Bain controversy at Delta, in which Mr. Taylor's own friends admitted that he was badly worsted by Mr. Bayne. In concluding he said he believed that when the smoke of the coming battle had cleared away that the country would see Hon. Wilfrid Laurier the premier of this Dominion, and that he could do to further the event he could do cheerfully, so far as it lay in his power.

A number of leading Liberals from different parts of the county spoke strongly in favor of Mr. Fredenburgh, continuing as the candidates and pledging their active support to further his election.

Mr. L. N. Phelps and John Bowser presented a resolution authorizing the executive to deal with all matters that may appear between now and the next meeting of the Association, and that they report to a convention to be called by the president.

Mr. Alex. Smith, Secretary of the Ontario Reform Association, was present and delivered an address, dealing particularly with the question of organization for the coming elections.

Mr. James Cunningham, Liberal candidate for Brockville, W. A. Loos, Athens; Geo. P. Bowen, of Gananoque, each made short and interesting speeches on the political outlook.

After three cheers for the Queen, Laurier and Fredenburgh, the meeting broke up at a few minutes to four o'clock, taking the hour fixed for the train to leave.

A cow is considered at her best when from seven to ten years old, and her period of usefulness will be determined by her constitutional strength and the general treatment which she receives. A cow's power to continue the milking qualities can be very largely cultivated.

CHARLESTON.

SATURDAY, April 18.—Mr. Joseph Clark of Kingston, was the guest of Mr. Edward Duffield, Clenock Castle, last week.

We are pleased to hear that little Dora Webster, who has been very ill, is fast improving. Dr. Harter, of Athens, is the attending physician. Full wheat is looking well in this district.

The roads in this district are in a disgraceful condition at present, and anything but a credit to the inhabitants of this aristocratic locality. If Mr. Balfour would kindly take a walk along them he would come to the conclusion that his ideas of stately labor are all astray. He may be a fair authority on the price of cheese, but when it comes down to roads he is not in it.

We are pleased to know that Mrs. Justus Smith is fast improving in health.

We notice a broad smile on the countenance of Mr. Delbert Woods. It's a girl.

Mr. A. W. Johnston is busily employed hewing timber for his barn, which is to be one of the largest in this neighborhood.

We are informed on good authority that Mr. A. E. Donovan of Athens is to stand for M. P. for South Leeds, whether he gets the Conservative vote or not. We would be glad to mention of Mr. Donovan elected, and wish him success.

Wedding bells will ring on Main street in the near future.

SUPERSTITION.

MONDAY, April 20.—Mrs. Wesley Barber, Athens, was a guest at the home of Mr. John Fyfe, Supton.

Prayer meeting every Tuesday evening in Apple Grove Hall.

Miss Anna Gilbert has renewed her studies at Athens High School.

Some of the residents of Athens have been broken up and disappeared from the lake. Fishing and boating will soon be the order of the day.

Mr. Fred Gray is repairing the fences and preparing for an acreage season's work on the farm of Mr. Thomas Sheffield, Athens.

Mr. Robert Morrison is still confined to the house. His many friends hope for an early and complete recovery.

Miss Ella Sexton is again engaged in teaching the young idea how to shoot, at the old stand.

An enterprising stage agent was making things ring through this section last week.

Milk drawers are monopolizing the highways, and the early hours of six and seven.

Robert Chant, Esq., is ill with a gripe.

Mr. James McLeroy is engaged in cutting wood for N. B. Howard, Esq.

Some of the residents of South Leeds are endeavoring to secure the nomination of Mr. A. Judd, died at his home here from the effects of blood-poisoning. Sympathy is tendered the bereaved.

MALLORYTOWN.

MONDAY, April 20.—Miss Lucella B. Gibson spent a few days visiting friends in Scott last week.

Rumor has it that a lodge of the Daughters of Rebecca were to have been organized here last week, but owing to some unavoidable circumstances the time for organizing was indefinitely postponed. Now, if it is owing to the negligence of a committee, we think it time they did something.

Mrs. McDonald had the misfortune to break her wrist a few days ago, and is improving as rapidly as can be expected.

Mrs. A. A. Polly and Mr. R. W. Tennant were called hurriedly away one day last week to attend a sick relative in Rockport in the person of Mr. Carnegie.

Miss Cassie Purvis of Yonge Mills was the guest of Mr. A. W. Mallory for a few days.

Miss Arletta Tennant, the Quabbin school teacher, was the guest of Mr. and Mrs. Ferguson on Saturday and Sunday last.

McNulty has again opened his store in the village.

John Raphael is making preparation to move into his new village, and place would allow him to retire, and place someone else in the field. His heart was in the work, and he only wished that he had the needed strength to go to the fight, for he believed that even Tories in South Leeds could be reformed on this occasion.

In concluding terms he referred to the present members (Mr. Geo. Taylor) wobbler on the Manitoba School Question. On many public platforms throughout the county he had declared that he would vote against remedial legislation, but he had against himself the Government and the people of the county, and he would vote to grant this obnoxious measure. He also referred to the Taylor and Bain controversy at Delta, in which Mr. Taylor's own friends admitted that he was badly worsted by Mr. Bayne. In concluding he said he believed that when the smoke of the coming battle had cleared away that the country would see Hon. Wilfrid Laurier the premier of this Dominion, and that he could do to further the event he could do cheerfully, so far as it lay in his power.

A cow is considered at her best when from seven to ten years old, and her period of usefulness will be determined by her constitutional strength and the general treatment which she receives. A cow's power to continue the milking qualities can be very largely cultivated.

LYNN.

MONDAY, April 20.—P. Pergau has commenced his old trick of making improvements as soon as Spring opens. This Spring it is a new barn on the Demming lot. Pity we have so few people enterprising enough to improve the town.

Mrs. Byron Judson had a narrow escape on her way to church on Sunday. The horse, attached to a two-wheeled road-cart, stumbled while coming down the road through here, and threw her driver out. Her head was cut, and she was stunned, but it is hoped, not seriously hurt.

Two weeks ago the sleighing was good; to-day the cry is, "Have you commenced gardening yet?" Such a sudden transition from winter to summer is seldom experienced.

Mrs. Wm. Neilson of Blink Bonnie is very ill.

FRONTENAC.

MONDAY, April 20.—Milk drawers are now beginning their season's work. We here that John Kamloop has been hired to cultivate the "Onion Bed."

Alex. Beaumont paid us a flying visit last Saturday.

Farmers are commencing to think of spring's work.

Dame Rumor says we are to have a hall built on our stage talent will wonder the public by their operatic performances.

The frog is now heard piping its merry tune, and is vociferous in its greeting to balmy spring.

Some of the residents of Fly Creek Junction announce their intentions of resigning their offices in connection with the "Bath."

The season of sweetness is passed and the buckets are laid by for another year.

FORFAR.

TUESDAY, April 21.—Mr. H. S. Davidson, who has been ill for some time, is recovering.

Mr. Fred Morris has returned to Toronto to write on his examinations.

Mrs. Potter has gone to Sharbot Lake to visit her brother.

Miss Annie Morris has returned home after visiting friends at Syracuse.

Mr. W. P. H. Jones has been engaged in teaching the young idea how to shoot, at the old stand.

Miss M. Alford of Harlem is here this week visiting her sister.

Messrs. Will and Fred Matzko left yesterday for Oshkosh where they have secured situations.

Mr. Stearnes Knapp opened the factory on the 13th and on Monday last took in the milk, so that the season's work has already commenced, putting it in a condition to do first class work. The Knapp family seem to take naturally to the cheese business, and are such that patrons can rely upon having a quality of cheese produced that will secure to them a good return for their milk.

A citizen of Colborne, who put up at one of the hotels in Lindsay last week, was told to write on his examinations.

A GENIAL PARISIEN.

IS THE DIRECTOR-GENERAL OF THE PARIS EXPOSITION OF 1900.

M. Delaunay-Belleville, Who is an eminent Engineer, Perfectly Fitted to Fill the Important Place Well and Satisfactorily.

One of the most important men in Paris to-day is M. Delaunay-Belleville, who is the director-general of the works of the Paris Universal Exposition of 1900. M. Delaunay-Belleville is eminently fitted for this very important position. For many years he has been connected with the Paris Chamber of Commerce. He is an eminent engineer, and has taken an active part in a multitude of French industrial undertakings. He was born about fifty years ago, and passed through the polytechnic and naval schools of engineers. During the war he served as lieutenant of engineers in the national defence. In the expedition to Madagascar, he was decorated with the order of the Legion of Honor. He wrote a work on comparative legislation on steam navigation.

M. Delaunay-Belleville, who is a Frenchman, is a man well known and esteemed in that section. He has a bright hand, some looking son, 13 years of age, named Freddie, who is a lad of more than average intelligence. It is pretty well known in Wolfville that Freddie underwent a severe illness, though perhaps the means to which he owes his recovery is not so generally known and a statement of the case may be of some interest to our readers. On the 26th of December, 1893, Freddie was taken ill and was confined to his room and his bed until March, 1894. Two different physicians were called in during his long illness. One said he had the grippe, the other said his trouble was the rheumatic fever. He was troubled

with severe pains through the muscles of his legs and arms, after three or four days was obliged to take to bed, where he lay nearly all winter, suffering terribly from the pains. He became reduced almost to a skeleton, and was unable to relish food of any kind. During his illness he suffered a relapse owing to trying to get up sooner than he should. Boy-like he was anxious to get out and enjoy the beautiful spring weather, and for several days was carried out and taken for a drive. This brought on the relapse. The doctor was again called in and as he continued to grow worse he was ordered once more to bed. Things then looked very dark as despite the medical care he did not get any better. At last his father decided to try Dr. Williams' Pink Pills. Soon after beginning their use Freddie began to feel better. His appetite began to return and the pains were less severe. As he continued to grow stronger and his health improved, he was able to get up and about a month was apparently as well as ever, the only remaining symptom of his trying illness being a slight pain in the leg, which did not disappear for some time. It is over one and a half years ago since Freddie took his last pill, and in that time he has not had a recurrence of the attack. There is no doubt that Dr. Williams' Pink Pills cured him, and both the boy and his parents speak highly in their praise.

Dr. Williams' Pink Pills are the medical wonder of the age. In hundreds of cases they have cured all other medicines had failed. They are a powerful tonic, and are a most careful education under native and English tutors and officers, he took personal interest in his studies. This young prince has done much for the large country he rules over. Since his ascent to the throne, he has been in all his towns and villages, which exceed 20,000 in number. He was the first to take practical measures for the extension of female education.

By a recent act of the Ontario Legislature, hat shops and confectioners will now be subject to inspection by factors, who will see that the sanitary regulations recently enacted, are complied with.

A good story comes from Drumbo, Ont., which is worth repeating. It appears there was a sale of horses there recently, and very poor prices were obtained for the animals. A farmer who, after much bargaining had purchased a steed for \$2, asked the seller if he would not return him a quarter, just to tell him he was a fool. The seller refused, but added: "There, I won't be hard on you, take another horse."

These Three Ecclesiasticals Have Each Spoken Cordial Words in Favor of Dr. Agnew's Cathartic Powder.

One of the most cordial endorsements of the curative powers of Dr. Agnew's Cathartic Powder has come from the Bishop of Toronto. But he has not stood alone in praise of this medicine. He was followed by men like the Rev. John Langtry, and the Rev. W. H. Wade, rector of the Church of the Ascension, Hamilton, Ont., and falling into line with the Rev. W. R. Williams, H. B. Wynne, assistant pastor of St. Peter's Church, Hamilton, who are some of the latest to endorse this wonderful remedy. It never fails, and is so quick, in case of cold in the head and catarrh, and is the current panacea for Hay Fever. For sale by J. P. Lamb & Son.

The value of Canadian hospital nurses has always been highly recognized. A young lady from Newburgh is head nurse of a private hospital at New York at a salary of \$75 a month. Another Canadian is in the same hospital at \$60 a month. In one hospital in New York all the nurses are Canadians, which speaks highly for our young ladies.

VITAL TO PERFECT HEALTH.

If in Doubt, Use South American Kidney Cure.

The average man or woman cannot trifle with that slight pain in the back, that may be thought only a result of cold. More than likely it is the warning note that kidney trouble has taken hold of the system. It is simply amazing the extent to which kidney disease is common in Canada. The wise man will take time by the forelock, and in using South American Kidney Cure will drive the disease from the system in its incipient stages. Fortunately, if it is too late to do this, this remedy is strong enough to battle the worst case of kidney disease. It is another instance of doing only one thing, but doing it well. South American Kidney Cure is a kidney cure. It does not make any other claims, but no remedy can meet it on its own ground. Sold by J. P. Lamb & Son.

Swissy O'Rourke—Dere Chimmis is der most curious freak o' nature der was ever saw. Dere Chimmis, my geography goat, his port side carries der map of der Easting and Westing, his starboard side is covered wit der map of Ireland, while his tail is a livin' image of der polar.

Hunting Experience.—"Yes," said the meek-looking man, "I've no doubt you've had some hunting experience in your travels abroad."

"I have, indeed."

"Buffalo hunting—"

"And bear hunting—"

"Well, you just come round, and let my wife take you house-hunting and bargain-hunting with her. Then you'll begin to know what real excitement is!"—Tit-Bits.

A little work, a little play, To keep us going—and so, good day!

A little warmth, a little light, To keep us comfortable—and so, good night!

A little fun to match the sorrow Of a little day's growing—and so, good-morrow!

A little trust that when we die We reap our sowing. And so, good-bye!

Life.
